Stand shoulder to shoulder with over 800 orthopaedic surgeons …

… and master their most effective techniques with step-by-step guidance for hundreds of surgical procedures!

CLICK HERE TO LEARN MORE

BRAND-NEW Comprehensive 4-Volume Set

978-0-7817-6370-7
Available July 2010
The world’s most respected orthopaedic surgeons walk through their most successful techniques

- More than 13,000 illustrations and photographs — 8,000 in full color
- Concise, bullet-point text provides a quick and easy reference
- Current, authoritative guidance — from diagnosis to discharge

**TECH FIG 10**

A. Calipers are used to assess the patellar thickness before the retropatellar osteotomy.
B. Retropatellar osteotomy parallel to the anterior surface of the patella.
C-D. Three lug holes are drilled in a triangular pattern. E. Intercondylar box cut.
Ideal for quick preoperative reviews . . .

New, how-to support for hundreds of orthopaedic techniques is presented in a highly visual bullet point format.

VIEW SAMPLE CHAPTERS

LATERAL MENISCUS APPROACH AND TIBIAL PREPARATION

- A well-defined subperiosteal approach
- Bone graft harvest
- Tibial preparation

FOLLOW every procedure in step-by-step detail

VISUALIZE anatomic landmarks and intraoperative progress
Cutting-edge methods, how to minimize complications, and much more …

Top orthopaedic surgeons share pearls and advice not found in any other surgical reference.

Know expected outcomes and potential complications before entering the operating room.

Every procedure includes “Pearls and Pitfalls” — Insider tips and advice to ensure the best outcome.

User-Friendly Format

Valuable Clinical Pearls

Comprehensive Contents

Expert Editors

Specialty Volumes
Stay current on the groundbreaking techniques reshaping orthopaedic surgery with this comprehensive reference

Complete, start-to-finish instructions — from diagnosis to discharge — for these major topics:

• Adult Reconstruction
• Foot and Ankle
• Hand, Wrist and Forearm
• Oncology
• Pediatrics
• Pelvis and Lower Extremity Trauma
• Shoulder and Elbow
• Sports Medicine
• Spine

Each consistently formatted technique includes:

• Indications
• Preoperative Planning
• Patient Positioning
• Recommended Surgical Approach
• Equipment and Instrumentation
• Anesthesia
• Step-by-Step Techniques
• Tips and Pearls
• Dangers and Potential Complications
• Expected Results
• Rehabilitation … and more.

VIEW COMPLETE TABLE OF CONTENTS
Edited by leading orthopaedic surgeons who are experts in their specialties

**Editor-in-Chief**
Sam W. Wiesel, MD
Professor and Chair
Department of Orthopaedic Surgery
Georgetown University Medical School
Washington, DC

**Adult Reconstruction**
Javad Parvizi, MD
The Rothman Institute
Professor, Department of Orthopaedic Surgery, Vice Chairman and Director of Research
Jefferson Medical College
Thomas Jefferson University
Philadelphia, PA

Richard H. Rothman, MD
Founder, The Rothman Institute
The James Edwards Professor of the Department of Orthopaedic Surgery
Jefferson Medical College
Thomas Jefferson University
Philadelphia, PA

**Foot and Ankle**
Mark E. Easley, MD
Associate Professor of Orthopaedic Surgery
Co-Director, Foot and Ankle Fellowship Program
Duke University Medical Center
Durham, NC

**Hand, Wrist, and Forearm**
Thomas R. Hunt, III, MD
Professor of Surgery
John D. Sherrill Endowed Chair of Orthopaedic Surgery
Director, UAB Hand and Upper Extremity Fellowship Director, Division of Orthopaedic Surgery
Surgeon-in-Chief, UAB Highlands Hospital
University of Alabama School of Medicine

**Oncology**
Martin M. Malawer, MD, FACS
Professor (Clinical Scholar) of Orthopaedics
Professor of Pediatrics (Hematology and Oncology)
Georgetown University School of Medicine
Washington, DC

Jacob Bickels, MD
Professor, Orthopedic Surgery
National Unit of Orthopedic Oncology
Tel-Aviv Soursaky Medical Center
Tel Aviv, Israel

**Pediatrics**
John M. Flynn, MD
Associate Chief of Orthopaedic Surgery
The Children’s Hospital of Philadelphia
Associate Professor of Orthopaedic Surgery
University of Pennsylvania School of Medicine
Philadelphia, PA

**Shoulder and Elbow**
Gerald R. Williams, Jr., MD
Professor, Orthopedic Surgery
Chief, Shoulder and Elbow Service
The Rothman Institute
Jefferson Medical College
Thomas Jefferson University
Philadelphia, PA

Matthew L. Ramsey, MD
Shoulder and Elbow Service
The Rothman Institute
Associate Professor of Orthopaedic Surgery
Jefferson Medical College
Thomas Jefferson University
Philadelphia, PA

**Spine**
John M. Rhee, MD
The Emory Clinic
Assistant Professor of Orthopaedic Surgery
Emory University, Atlanta, GA

Scott D. Boden, MD
The Emory Clinic
Professor of Orthopaedic Surgery
Director, Emory Orthopaedics & Spine Center
Staff Physician
Atlanta VA Medical Center, Atlanta, GA

**Sports Medicine**
Mark D. Miller, MD
S. Ward Casscells Professor of Orthopaedic Surgery
University of Virginia
Charlottesville, Virginia
Team Physician
James Madison University
Harrisonburg, VA

Step-by-step instructions for nearly every orthopaedic surgical technique

Operative Techniques in Adult Reconstruction
978-1-4511-0262-8
Available October 2010
Editors: Javad Parvizi, MD; Richard H. Rothman, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Foot and Ankle Surgery
978-1-60831-904-6
Available August 2010
Editor: Mark E. Easley, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Hand, Wrist and Forearm Surgery
978-1-4511-0255-0
Available September 2010
Editor: Thomas R. Hunt, III, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Orthopaedic Pediatric Surgery
978-1-4511-0263-5
Available November 2010
Editor: John M. Flynn, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Orthopaedic Trauma Surgery
978-1-4511-0260-4
Available October 2010
Editor: Paul Tornetta, III, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Shoulder and Elbow Surgery
978-1-4511-0264-2
Available November 2010
Editors: Gerald R. Williams, Jr., MD and Matthew L. Ramsey, MD
Editor-in-Chief: Sam W. Wiesel, MD

Operative Techniques in Sports Medicine
978-1-4511-0261-1
Available October 2010
Editor: Mark D. Miller, MD

ADULT RECONSTRUCTION
Cemented Total Hip Arthroplasty
Uncemented Total Hip Arthroplasty
Hip Resurfacing
Hemiarthroplasty of the Hip
Total Hip Arthroplasty for Malignant Lesions
Revision Total Hip Arthroplasty With Well-Fixed Components
Revision Total Hip Arthroplasty with Femoral Bone Loss: Fluted Stems
Revision Total Hip Arthroplasty with Femoral Bone Loss: Proximal Femoral Replacement
Revision Total Hip Arthroplasty with Acetabular Bone Loss: Impaction Allografting
Revision Total Hip Arthroplasty With Acetabular Bone Loss: Antiprotrusio Cage
Resection Arthroplasty and Spacer Insertion
Hip Implantation Surgery
Periacetabular Osteotomy
Femoral Osteotomy
Femoroacetabular Impingement and Surgical Dislocation of the Hip
Treatment of Anterior Femoroacetabular Impingement Through an Anterior Incision
Unicondylar Knee Arthroplasty
Upper Tibial Osteotomy
Cemented Total Knee Arthroplasty
Total Knee Arthroplasty Using Navigation
Revision Total Knee Arthroplasty with Femoral Bone Loss: Metallic Augments
Revision Total Knee Arthroplasty with Tibial Bone Loss: Metal Augments
Revision Total Knee Arthroplasty with Femoral Bone Loss: Distal Femoral Replacement
Revision Total Knee Arthroplasty with Tibial Bone Loss: Bone Grafting
Revision Total Knee Arthroplasty with Removal of Well-fixed Components
Revision Total Knee Arthroplasty with Extensile Exposure: Tibial Tubercle Osteotomy
Revision Total Knee Arthroplasty with Extensile Exposure: V-Y Quadruplasty
Revision Total Knee Arthroplasty with Extensor Mechanism Repair
Revision Total Knee Arthroplasty to Correct Stiffness
Knee Arthrodesis

SPINE
Anterior Cervical Approaches
Posterior Cervical Approach
Anterior Thoracic Approach
Anterior Lumbar Approach
Posterior Thoracic and Lumbar Approaches
Anterior Cervical Discectomy and Fusion With and Without Instrumentation
Anterior Cervical Corpectomy and Fusion with Instrumentation
Posterior Cervical Foraminotomy
Cervical Laminoplasty: Open and French Door
Posterior Cervical Fusion with Instrumentation
Occipitocervical and C1–2 Fusion and Instrumentation
Lumbar Discectomy
Lumbar Decompression
Posterolateral Thoracolumbar Fusion with Instrumentation
Transforaminal and Posterior Lumbar Interbody Fusion
Anterior Thoracic Corpectomy
Anterior Lumbar Interbody Fusion, Disc Replacement, and Corpectomy
Adult Scoliosis
Iliac Crest Bone Graft Harvesting

ONCOLOGY
Overview of Musculoskeletal Tumors and Preoperative Evaluation
Biopsy of Musculoskeletal Tumors
Overview of Endoprosthetic Reconstruction
Expandable Prostheses
Surgical Management of Metastatic Bone Disease: General Considerations
Cryosurgical Ablation of Bone Tumors
Overview of Resections Around the Shoulder Girdle
Total Scapular Resections with Endoprosthetic Reconstruction
Proximal Humeral Resection with Allograft Prosthetic Composite
Proximal Humerus Resection with Endoprosthetic Replacement: Intra-articular and Extra-articular Resections
Distal Humeral Resection with Prosthetic Reconstruction
Surgical Management of Metastatic Bone Disease: Humeral Lesions
Axillary Space Exploration and Resections
Forequarter Amputation
Above-Elbow and Below-Elbow Amputations
Primary and Metastatic Tumors of the Spine: Total En Bloc Spondylectomy
Overview on Pelvic Resections: Surgical Considerations and Classifications
Surgical Technique for Resection and Reconstruction of Supra-acetabular Metastatic Lesions
Buttckectomy
Surgical Management of Metastatic Bone Disease: Pelvic Lesions
Posterior Flap Hemipelvectomy
Anterior Flap Hemipelvectomy
Hip Disarticulation
Proximal and Total Femur Resection with Endoprosthetic Reconstruction
Distal Femoral Resections with Endoprosthetic Replacement
Proximal Tibia Resection with Endoprosthetic Reconstruction
Fibular Resections
The Use of Free Vascularized Fibular Grafts for Reconstruction of Segmental Bone Defects
Use of Allografts and Segmental Prostheses for Reconstruction of Segmental Bone Defects
Quadriiceps Resections
Adductor Muscle Group (Medial Thigh) Resection
Hamstrings Muscle Group (Posterior Thigh) Resection
Overview of Surgical Resection of Space Sarcomas
Soleus Resection
Surgical Approach and Management of Tumors of the Sartorial Canal
Surgical Management of Metastatic Bone Disease: Femoral Lesions
Foot and Ankle Amputations: Ray Resections
Creating an Above-Knee Amputation Stump After Hip Disarticulation
### Table of Contents: Page 2 of 7

**Above-Knee Amputation**  
**Below-Knee Amputation**  
**Foot and Ankle Amputations: Lisfranc/Chopart**  

**TRAUMA**  
External Fixation of the Pelvis  
Open Reduction and Internal Fixation of the Symphysis  
Open Reduction and Internal Fixation of the Sacroiliac Joint and Sacrum  
Open Reduction and Internal Fixation of the Posterior Wall of the Acetabulum  
Open Reduction and Internal Fixation of Femoral Head Fractures  
Open Reduction and Internal Fixation and Closed Reduction and Percutaneous Fixation of Femoral Neck Fractures  
Cephalomedullary Nailing of the Proximal Femur  
Open Reduction and Internal Fixation of Peritrochanteric Hip Fractures  
Retrograde Intramedullary Nailing of the Femur  
Anterograde Intramedullary Nailing of the Femur  
Open Reduction and Internal Fixation of the Distal Femur  
Open Reduction and Internal Fixation of the Patella  
Open Reduction and Internal Fixation of the Bicondylar Plateau  
Lateral Tibial Plateau Fractures  
External Fixation of the Tibia  
Fasciotomy of the Leg for Acute Compartment Syndrome  
Open Reduction and Internal Fixation of the Pilon  
Open Reduction and Internal Fixation of the Ankle  
Open Reduction and Internal Fixation of the Talus  
Surgical Treatment of Calcaneal Fractures  
Open Reduction and Internal Fixation of Lisfranc Injury  
Open Reduction and Internal Fixation of Jones Fracture  

**SPORTS MEDICINE**  
Shoulder Arthroscopy: The Basics  
Arthroscopic Treatment of Anterior Shoulder Instability  
Arthroscopic Treatment of Posterior Shoulder Instability  
Arthroscopic Treatment of Multidirectional Shoulder Instability  
Arthroscopic Treatment of Superior Labral (SLAP) Tears  
Management of Shoulder Throwing Injuries  
Arthroscopic Treatment of Biceps Tendonopathy  
Arthroscopic Treatment of Subacromial Impingement  
Acromioclavicular Disorders  
Arthroscopic Treatment of Rotator Cuff Tears  
Arthroscopic Treatment of Subscapularis Tears, Including Coracoid Impingement  
Repair and Reconstruction of Acromioclavicular Injuries  
Arthroscopic Acromioclavicular Joint Reduction and Coracoclavicular Stabilization: TightRope Fixation  
Arthroscopic Release of Nerve Entrapment  
Arthroscopic Capsular Releases for Loss of Motion  
Arthroscopic Treatment of Scapulothoracic Disorders  
Arthroscopic Débridement and Glenoidplasty for Shoulder Degenerative Joint Disease  
Elbow Arthroscopy: The Basics  
Arthroscopic Treatment of Chondral Injuries and Osteochondritis Dissecans  
Arthroscopic Treatment of Valgus Extension Overload  
Arthroscopic Treatment of Elbow Loss of Motion  
Arthroscopic Débridement for Elbow Degenerative Joint Disease  
Arthroscopic Treatment of Epicondylitis  
Hip Arthroscopy: The Basics  
Arthroscopy for Soft Tissue Pathology of the Hip  
Arthroscopic Management of Femoroacetabular Impingement  
Snapping Hip  
Athletic Pubalgia  
Adductor Longus–Related Groin Pain  
Proximal Hamstring Injury  
Knee Arthroscopy: The Basics  
Arthroscopic Synovectomy  
Arthroscopic Meniscectomy  
Meniscal Repair  
Meniscal Transplant  
Microfracture Chondroplasty  
Osteochondral Autograft “Plug” Transfer  
Autogenous Cartilage Implantation  
Allograft Cartilage Transplantation  
Osteochondritis Dissecans and Avascular Necrosis  
Single-Bundle Anterior Cruciate Ligament Repair  
Anatomic Double-Bundle Anterior Cruciate Ligament Reconstruction  
Revision Anterior Cruciate Ligament Repair  
Posterior Cruciate Ligament Repair  
Repair of Acute and Chronic Knee Medial Collateral Ligament Injuries  
Management of Posterolateral Corner Injuries  
Management of the Multiple Ligament–Injured Knee  
Repair of Acute and Chronic Patella Tendon Tears  
Repair of Acute and Chronic Quadriceps Tendon Ruptures  
Knee Loss of Motion  
Arthroscopic Lateral Release of the Knee  
Proximal Realignment of the Medial Patellofemoral Ligament  
Tibial Tubercle Transfer  
Chronic Exertional Compartment Syndrome  
Common Peroneal and Lateral Femoral Cutaneous Nerve Injuries  

**FOOT AND ANKLE**  
Flexor Hallucis Longus Augmentation for Surgical Management of Insertional Achilles Tendinopathy  
Anatomic Lateral Ankle Ligament Reconstruction Using Allograft and Biointerference Screw Fixation  
Dorsal Chellectomy for Hallux Rigidus  
Metatarsal Lengthening in Revision Hallux Valgus Surgery  
Management of Chronic Achilles Tendon Ruptures using Hamstring/Peroneal Tendons

Surgical Decompression of the Forearm, Hand and Digits for Compartment Syndrome
Surgical Treatment of Injection Injuries in the Hand
Revascularization and Replantation of the Digits
Surgical Treatment of Vasospastic and Vasocclusive Disease of the Hand
Surgical Treatment of Acute and Chronic Paronychia and Felons
Surgical Treatment of Closed Space Infections in the Hand
Surgical Treatment of Septic Arthritis in the Hand and Wrist
Skin Grafts and Skin Graft Substitutes in the Distal Upper Extremity (Excluding Fingertip Injuries)
Rotational and Pedicle Flaps for Coverage of Distal Upper Extremity Injuries
Surgical Treatment of Thermal and Electrical Injury and Contracture Involving the Distal Upper Extremity
Surgical Treatment of Thermal and Electrical Injury and Contracture Involving the Distal Upper Extremity
Nail Matrix Repair, Reconstruction, and Ablation
Soft Tissue Coverage of Fingertip Amputations
Amputations in the Distal Upper Extremity
Surgical Treatment of Vascular Tumors in the Hand
Open and Arthroscopic Excision of Ganglion Cysts and Related Tumors
Excision and Coverage of Squamous Cell Carcinoma and Melanoma of the Hand
Surgical Treatment of Nerve Tumors in the Distal Upper Extremity
Surgical Treatment of Enchondroma, Bone Cyst and Giant Cell Tumor in the Distal Upper Extremity
Release of Post-Traumatic MCP and PIP Joint Contractures
Surgical Treatment of Dupuytren's Contracture

PEDIATRICS
Release of congenital trigger thumb
Closed reduction and percutaneous pinning of suprascapular fractures of the humerus
Open reduction of suprascapular fractures of the humerus
Suprascapular humeral osteotomy for correction of cubitus varus
ORIF of displaced lateral condyle fracture of the humerus
ORIF of fractures of the medial epicondyle
Closed, percutaneous, and open reduction of radial head and neck fractures
Intramedullary fixation of forearm fractures
Posterior exposure of the thoracic and lumbar spine
Segmental hook and pedicle screw instrumentation for scoliosis
Posterolateral arthrodesis for spondylolisthesis
Posterior cervical arthrodeses Occ-C1 and Cl-2
Release of the sternocleidomastoid muscle
Anterior drainage of the septic hip
Anterior approach/open reduction
devolutionally dislocated hips
Innominate osteotomy of Salter
Periacetabular iliac osteotomy of Pemberton
Periacetabular pelvic osteotomy of Dega
Shelf arthroplasty
Percutaneous in situ cannulated screw fixation of the slipped capital femoral epiphysis
Adductor and iliopsoas release
Closed reduction and spica cast application for the treatment of femoral shaft fracture
Flexible intramedullary nailing of femoral shaft fractures
Closed reduction and external fixation of femoral shaft fractures
Percutaneous distal femoral/proximal tibial epiphysiodesis
Proximal patellar realignment (Insall technique)
ACL in open physes
Drilling of OCD—anterograde and retrograde
Meniscoplasty for discolateral meniscus
ORIF/Arthroscopic assisted tibial spine fracture treatment
Surgical correction of clubfoot
Resection of calcaneonavicular coalition
Excision of talocalcaneal coalition
Calcaneal lengthening osteotomy for the treatment of hindfoot valgus deformity
Triple arthrodesis
Surgical correction of adolescent bunions
Open lengthening of Achilles tendon
Split posterior tibial tendon transfer
Butler procedure for overlapping fifth toe
Proximal femoral varus osteotomy in children using a 90-degree blade plate
Distal hamstring lengthening (possible posterior capsulotomy)
Rectus femoris transfer
Treatment of benign bone cysts
Ponsetti casting
Anterior tibial transfer for residual clubfoot deformity
Submuscular Plating of Femoral Shaft Fractures
ORIF of Tibial tubercle Fracture
Lengthening of the gastrocnemius fascia
S-Rod Fixation of the Pelvis
Proximal hamstrings tenotomy
Proximal hamstring tenotomy
Flexion intertrochanteric osteotomy for slipped capital femoral epiphysis
Kyphectomy in spina bifida
Osteotomy of the distal tibia: Wiltse technique
Sacral screw fixation to the sacrum
Proximal femoral osteotomy in infants using the Altdorf hip clamp
Surgical dislocation of the hip
Anterior interbody arthrodesis with instrumentation for scoliosis
Repair of congenital pseudoarthrosis of the tibia with Williams rods
Bernese periacetabular osteotomy
Surgical repair of irreducible congenital dislocation of the knee
Surgical repair of irreducible congenital dislocation of the knee
Radial clubhand reconstruction
Medial approach for open reduction of a developmentally dislocated hip
Screw epiphysiodesis for ankle valgus
# Table of Contents: Page 7 of 7

Growth modulation to correct limb deformity
Excision of physeal bar
Valgus osteotomy for development coxa vara
Proximal femoral rotational osteotomy
Grice extraarticular subtalar arthrodesis
Crouched gait--distal femoral osteotomy
Treatment of proximal focal femoral deficiency
Valgus osteotomy for Perthes disease
Surgical treatment of the cavus foot
MHE forearm osteotomy
VEPTR implantation for scoliosis with fused ribs
Unit rod instrumentation for neuromuscular scoliosis
Triple innominate osteotomy
Transfer of flexor carpi ulnaris for wrist flexion deformity
Correction of thumb-in-palm deformity in cerebral palsy
Woodward repair of Sprengel Deformity
Thoracoscopic release and fusion for scoliosis
Operative management of patellar instability in children
Syme amputation
Release of Simple Syndactyly
Metazeau and joystick techniques for radial head fractures
Dual growing rod instrumentation for early onset scoliosis
Chiari Medial Displacement Osteotomy of the Pelvis
Limb lengthening by monoplanar fixator
Surgical management of Blount’s disease
Decompression, posterolateral and interbody fusion for high-grade spondylolisthesis
Hemivertebra excision
Sofield osteotomy with intramedullary fixation
Boyd amputation with osteotomy of the tibia for fibular deficiency
Limb lengthing by the Ilizarov method
Operative Management of Pediatric Shoulder Fractures
Operative Management of Pediatric Tibia Fractures
Operative Management of Pediatric Forearm and Monteggia Fractures
Operative Management of Pediatric Ankle Fractures
Operative Management of Pediatric Ankle Fractures
Operative Management of Pediatric Hip Fractures
Operative Management of Distal Femoral Physeal Fractures

**SHOULDER AND ELBOW**

Shoulder and Elbow Overview
Shoulder and Elbow Anatomy
Shoulder and Elbow Approaches
Bankart Repair, Inferior Capsular Shift
Recurrent Posterolateral Shoulder Instability
Latarjet Procedure for Instability with Bone Loss
Glenoid Bone Graft for Instability with Bone Loss
Management of Glenohumeral Instability with Humeral Bone Loss
Acromioplasty, Distal Clavicle Excision, Posterolateral Rotator Cuff repair
Subscapularis Repair, Coracoid Recession, Biceps Tenodesis
Pectoralis Major Repair
Latissimus Transfer for Irreparable
Posterolateral Rotator Cuff Tear
Pectoralis Major Transfer for Irreparable
Subscapularis Tear
Acute Repair and Reconstruction of Sternoclavicular Dislocation
Medial Clavicle Excision
Plate Fixation of Clavicle Fractures
Intramedullary Fixation of Clavicle fractures
ORIF of Nonarticular Scapular Fractures
Percutaneous Treatment of Proximal Humerus Fractures
ORIF of Proximal Humerus Fractures
Intramedullary fixation of Proximal Humerus Fractures
Hemiarthroplasty for Proximal Humerus Fracture
Plate Fixation of Humeral Shaft Fractures
Intramedullary Fixation of Humeral Shaft Fractures
Glenohumeral Arthrodesis
Hemiarthroplasty, Total Shoulder Arthroplasty, and Biologic Glenoid Resurfacing for Glenohumeral Arthritis with an Intact Rotator Cuff
Partial Scapulectomy for Snapping Scapula Syndrome
Suprascapular Nerve Decompression
Eden-Lange Procedure For Trapezius Palsy
Split Pectoralis Major Transfer for Long Thoracic Palsy
Scapulothoracic Arthrodesis
ORIF of Radial Head/Neck Fractures
Radial Head Replacement
ORIF Olecranon Fractures
ORIF of Monteggia Fracture Dislocation
Distal Humerus Fractures: ORIF of Supracondylar Fractures
TEA for Distal Humerus Fracture
Distal Humerus Fractures: ORIF of Condylar Fractures
Distal Humerus Fractures: ORIF Capitellum and Capitellar-Trochlear Shear Fractures
Lateral Collateral Ligament Reconstruction
ORIF Coronoid Fractures and Complex Instability
TEA for Rheumatoid Arthritis
TEA for Posttraumatic Conditions of the Elbow
(Excluding Acute Distal Humerus Fracture)
TEA for Osteoarthritis
Ulnohumeral Arthroplasty (Outerbridge-Kashiwagi)
Elbow Arthrodesis
Extrinsic Contracture Release—Lateral Column Procedure
Extrinsic Contracture Release—Medial Over-the-Top Approach
Management of Simple Dislocation
