III. Give access to your account with MWS to a developer ............................................. Page 11

IV. Integration Settings Overview in Seller Central ........................................................... Page 16
I. GENERATE MWS-KEYS
Generate the MWS-Keys

You can generate your MWS access keys in Seller Central.

Please go to Integration > MWS Access Key
On this page, you can find your Seller ID in the General Information box. In the **MWS Account Information box**, please click on the link [Amazon Marketplace Web Service](https://mws.amazon.com).
You might be asked to login again to verify that you are indeed the owner of the account.
If you are registering for your own account, please follow Section II. If you are giving access to your developers via an ID, please go to Section III.

II. ACTIVATE MWS FOR YOUR OWN ACCOUNT
Click on “Sign up for MWS”
Create MWS Access Key for your own account and select the first option: “I want to access my own Amazon Seller account with MWS.”
Please read and accept the license agreement.
Your AWS Access Key and your Secret Key along with the Merchant ID, will be presented to you on the next page. With this information you can configure Pay with Amazon in your shop. You can always review the key information in Seller Central on the Integration > MWS Access Key page, see section IV.
If you have received from an eCommerce-Provider a developer ID or an account number, you can follow the steps in this section to register your MWS Keys.

### III. GIVE ACCESS TO YOUR ACCOUNT WITH MWS TO A DEVELOPER
Select the first option: “I want to give a developer access to my Amazon Seller account with MWS.” Give a name and the account number, that you have received from your developer/provider and click on “next”
Please read and accept the license agreement and click on “next”.

1. I have read and accepted the Amazon MWS Licence Agreement.

Amazon MWS allows you, at your sole discretion, to permit third-party solution providers to access your Amazon selling account. By allowing a third party to access your Amazon selling account you put yourself at risk for the acts and omissions of those third parties. For example, you will be responsible for the actions taken by these third parties, including any changes the third party makes to your offers (including price and availability) on Amazon.com. You should not allow a third party to access to your Amazon selling account unless you have an appropriate agreement in place between you and the third party and you are willing to accept complete responsibility for the acts and omissions of that third party. You should closely monitor the performance of any third party that you authorize to access your Amazon selling account and take immediate action if you have any concerns with the performance of that third party. This action can include suspension of access to your Amazon selling account.

In addition, do not provide your Amazon user name and password information to anyone who contacts you by email or phone and asks for this information even if they claim to be from Amazon. No one from Amazon will ever ask you to verify your user name and password outside of your own logging into your Amazon selling account.

2. I understand that I take complete responsibility for the acts and omissions of Bernd regarding my Amazon selling account and hereby direct Amazon to allow Bernd to access my Amazon selling account.
Your Seller ID, your Marketplace ID and your token for the MWS-Authorisation will be presented to you on the next page. With this information you can configure Pay with Amazon in your shop or you can forward them to your developer/provider.
Congratulations,
Your registration to Amazon MWS is now completed.
IV. INTEGRATION SETTINGS OVERVIEW IN SELLER CENTRAL
If you need to retrieve your MWS key and other information, you can always login to Seller Central using your account information, under Integration -> MWS Access Key" to find those details.
