

The Look of Exact Eyelights

QUEEN

You've got one of a kind eyes! Make them shine with the Exact Eyelights Collection of mascaras, eyeshadows, and eyeliners. Keep the focus on your bright eyes by keeping lips and face natural and flawless.

FACE

Using a sponge wedge, blend COVERGIRL Queen Collection Natural Hue

Compact Foundation, starting at the center of the face and blending outwards

towards the hairline. Lock in the look by powdering the t-zone and cheeks

with COVERGIRL Queen Collection Natural Hue Pressed Powder.

EYES

Sweep the lightest shade of Exact Eyelights Eye-Brightening Eyeshadows in

Vibrant Browns from lashline to browbone. Apply the golden shade to the eyelid,

blending upward toward the crease. Blend the light grey shade into the crease of

the eyelid and blend in all directions. Finish with the darkest shade, sweeping

along the upper and lower lashlines. Apply a generous line of Exact Eyelights

Eye-Brightening Eyeliner in Vibrant Pearl to the upper and lower lashlines,

concentrating the color on the outer corners of the eyes. Finish with multiple

coats of Exact Eyelights Eye-Brightening Mascara in Black Pearl on both the top

and bottom lashes.
