

Logitech® Corded Mouse M125

Silver

Blue

Easy pack and go

If you and your laptop or netbook are constantly on the move, this compact, corded mouse will put an end to your touchpad—and cord clutter—frustration. Easy to pack with adjustable, retractable cord, the mouse connects quickly via one of your computer's USB ports. And, its high-definition optical sensor gives you responsive, smooth cursor control.

WORKS WITH

Windows-based PC

- Windows® XP, Windows Vista® or Windows® 7
- USB port

Mac® computer

- Mac® OS X 10.4 or later
- USB port

Linux®

- Linux® kernel 2.6 or later
- USB port

WHAT'S IN THE BOX?

- Logitech Corded Mouse M125
- User documentation
- 3-year limited hardware warranty

FEATURE AT A GLANCE

Retractable cord

The adjustable, retractable cord gets rid of cord clutter when not in use and makes packing it easier.

Compact and comfortable

The right balance of shape and size for most hands. Goes wherever you do.

Connect-and-go simplicity

Works right out of the box. Just plug it into a USB port, start up your computer, and you're ready to go.

High-definition optical tracking (1000 dpi)

Get responsive, smooth cursor control for precise tracking.
