

# Logitech Keyboard Controller

Use the Logitech Keyboard Controller for the most powerful way to search, click and watch Google TV. It's a wireless remote control, keyboard, and touch pad in one.

## Noteworthy Features

- Compact and comfortable
- Full entertainment-system controls
- Touch pad with vertical scrolling
- D-Pad to navigate menu items
- Stores easily on its edge
- 2.4 GHz wireless connectivity
- Works with Google TV systems, including Logitech Revue

**Search naturally, enjoy quickly.** Designed specifically for Google TV, this compact keyboard with soft pillow keys allows you to naturally and quickly enter text to search for what to watch. Start typing and view results from your TV programming, the Web, recordings from compatible DVRs, and a world of Android apps.

Control Google TV from the comfort of your couch.

## The Ultimate Commander

All your core entertainment system commands are at your fingertips. No need to pick up another remote to switch channels, change the volume or control videos.

- Enter text naturally with the compact keyboard, designed for your lap
- Play, Pause, Rewind and Fast Forward with D-pad and entertainment-system controls
- Navigate sites and scroll vertically with built in touch pad—no mouse needed
- Store easily, next to the couch or inside a cabinet
- Advanced 2.4 GHz wireless with Logitech Unifying technology provides a reliable, long-range connection that lets you connect up to six compatible wireless devices

Soft pillow keys.

Point-and-click touch pad navigation. D-Pad & entertainment-system controls.
