

**KX-MB1520 / KX-MB1500**

# **Multi-Function Printer**

# Make Your Home Office a Smart Office

The Panasonic KX-MB1500 Series of multi-functional printers feature an extremely compact body designed for home offices with limited space. Regardless of which model you choose, the KX-MB1500 Series includes standard print, copy and scan functionality and the front access design allows you to place the unit just about anywhere in your office, even on a shelf. The angled design of the control panel lets you use the device whether you are standing or sitting. Plus, all basic operations are performed from the front, so the machine can be placed directly against the wall. Of course, the KX-MB1500 Series models have the features that a home office needs, including a printer, diverse copy functions, a color document scanner, and a fax\*. This KX-MB1500 Series includes all the most popular features found in higher-end models.

\* The fax function is available only on the KX-MB1520.

## Compact and Easy to Use – Providing easy operation in any home office location.

### Space-Saving Compact Body

To allow the unit to fit into tight spaces in a small home office, the size of the print engine has been reduced. The use of an inner paper exit tray greatly reduces the depth of the body, which cuts the actual space requirement by approximately 25%.\*

\* Compared to the KX-MB2000.

### Flexible Design\*

Basic operations, such as replenishing consumables and paper, is performed at the front of the device and the location of the power cord allows for device placement in very tight spaces.

\* Do not cover slots and openings on the unit. They are provided for ventilation and protection against overheating.

### Angled Control Panel

The angled control panel is designed for easy access to the device whether you are standing or sitting in front of the machine.

### One-Touch Buttons

Frequently used function buttons are located on the control panel for optimal efficiency and easy of use.

You can place it anywhere you want, for maximum efficiency in your home office.

**Multifunctional** – All the features your home office will need.

**Easy Print Utility**

The Easy Print Utility lets you merge and print files created from multiple applications. You can preview the output on a PC before printing, or edit it by rearranging pages or changing them to a 2-in-1 or even a 16-in-1 format. You can also add a header, footer or watermark before printing. After editing, you can save the image as a PDF file or print it out.

**Convenient Copy Functions**

**Quick ID Copy**

Copy both sides of one or more ID or business cards consecutively, and then print onto a single page in the 2-in-1, 4-in-1 or 8-in-1 format. This reduces paper consumption and simplifies information management.

**PC Fax Function\***

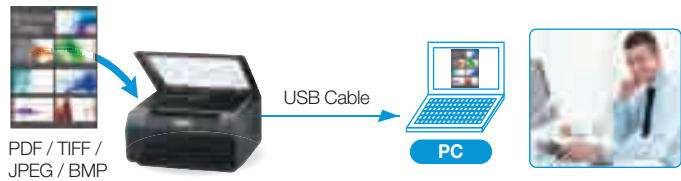

You can directly send and receive faxes to and from your PC without having to print them out. This saves time and reduces supply and media costs, while increasing efficiency.

\* The fax function is available only on the KX-MB1520.

**Color Scanner Function**

Documents can be easily scanned to a PC in color. Now you can scan and save full color presentations or brochures in PDF, TIFF, JPEG or BMP file formats. Scanned document can then be attached to an Email for distribution.

**Built-in Speakerphone\***

The built-in speakerphone lets you call the recipient to confirm that a fax has arrived immediately after sending. This increases faxing reliability.

\* Only on the KX-MB1520.
