dv4 Innovations for comfort and convenience.

HP technology is inspired by the way you think, feel, act and interact:

- HP's CoolSense Technology makes it cool to lounge around with your notebook. By rethinking the materials, venting, and the placement of components, HP has pioneered new designs like the dv4 that feel noticeably cooler. Your dv4 will sense whether you're using it at a desk or, say, on a couch—and adjust accordingly.
- Chat live in HD[8] with the HP TrueVision HD Webcam.[15] When there's less light, your webcam automatically boosts sensitivity—so you can still look your best even with lights turned low. Capture high quality HD video[8] or still images. Send to friends, upload to Facebook![15] Bonus: Built-in dual array microphones help quell background noise for clearer, crisper vocals.

Get all this in your Pavilion dv4 too.

- Dolby Home Theater with simulated surround sound
- HP CoolSense technology. Automatically keep your PC cool and comfortable on the go.
- Built-in HP TrueVision HD low-light webcam[15]
- HP ProtectSmart to protect your files from accidental drops
- 3 USB ports
- Digital Media Reader for SD and Multimedia cards
- DLNA Certified® to stream music, photos and videos to devices anywhere in your home. Seamless! (Requires DLNA Certified® devices and Windows® Media Player 12)

High quality entertainment? It's a natural!

Major studios have long relied on HP technology when making blockbuster movies, from Disney's Fantasia (1940) to DreamWorks Animation's Kung Fu Panda 2 (2011). No wonder your HP Pavilion dv4 notebook delivers outstanding entertainment value: it's in our DNA.

- Enjoy high quality listening with Dolby Home Theater. New: Dolby Headphone Technology now simulates 5.1 or 7.1 cinematic surround sound on any external speakers, headphones or earbuds.
- Vivid color sweeps across full-screen HD content with the brilliant 16:9 HP BrightView display. Dive in!
- Sometimes bigger is better. The HDMI port on your dv4 notebook connects to your HD-TV[43]—so everyone can watch together!

Rely on HP to bring you a notebook this tough.

The U.S. Air Force relies on HP to support its cyber warfare strategy and as its preferred technology vendor to run critical operations. The Navy, to keep its defense network secure. Understandably so: HP notebooks are engineered to meet select US Department of Defense standards for equipment used in combat to help ensure they survive in extreme conditions for high temperature, humidity, shock and vibration.[50] Our notebooks must survive extreme temperatures while running—a full 6 degrees hotter than the hottest day recorded in Death Valley, CA, to date.[51] Before releasing this HP Pavilion dv4 model for consumer use, we put it through a minimum of 140 tests, consuming at least 95,000 hours—all to help ensure it can outlast the rigors of daily life.
