Packaging Checklist	8

Small and Light Program

Unique Program Requirements

- Each unit weighs less than or equal to 15 ounces, and has dimensions less than or equal to 16x9x4 inches.
- A minimum of 24 units per ASIN must be sent in each shipment.
- All same-ASIN units within a shipping box must be bundled together using a clear plastic bag, manufacturer/seller case pack (i.e. boxed or shrink-wrapped), or other means of grouping your same-ASIN units together.
- On the outside of each same-ASIN bag/pack, the total quantity of sellable units must be clearly labeled.
- Each individual sellable unit must have a scannable UPC or EAN manufacturer barcode. If no barcode is available, then an [Amazon barcode](#) must be printed during shipment creation and applied to the unit.

General FBA Requirements

- Shipping boxes must not exceed 25 inches on any side.
- Shipping boxes must not weigh more than 50 pounds.

Small and Light Program

EXAMPLE #1

Units in clear plastic bags

Proper Packaging

- Each unit weighs less than or equal to 15 ounces, and has dimensions less than or equal to **16x9x4 inches**.
- All units within the shipping box are in **clear plastic bags**.
- Each bag is **labeled with the total quantity of sellable units**.
- Each individual sellable unit within a bag has a scannable UPC or EAN barcode from the manufacturer. If no barcode is present, apply an [Amazon barcode](#).

Correct Packaging

Incorrect Packaging

This is not a CLEAR plastic bag.

There isn't a CLEAR plastic bag or an outer case pack; there is no label for total quantity of sellable units.

Small and Light Program

EXAMPLE #2

Units in manufacturer/seller case packs

Proper Packaging

- Each unit weighs less than or equal to **15 ounces**, and has dimensions less than or equal to **16x9x4 inches**.
- All units within the shipping box are in **case packs**.
- Each outer case is **labeled with the total quantity of sellable units**.
- Each individual sellable unit within a bag has a scannable UPC or EAN barcode from the manufacturer. If no barcode is present, apply an [Amazon barcode](#).

Correct Packaging

Incorrect Packaging

The outer case has a scannable barcode, but inner sellable units don't have a barcode.

Small and Light Program

EXAMPLE #3

Units that are shrink-wrapped

Proper Packaging

- Each unit weighs less than or equal to **15 ounces**, and has dimensions less than or equal to **16x9x4 inches**.
- All units within the shipping box are properly **shrink-wrapped**.
- Each shrink-wrapped bundle is **labeled with the total quantity of sellable units**.
- Each individual sellable unit within a bag has a scannable UPC or EAN barcode from the manufacturer. If no barcode is present, apply an [Amazon barcode](#).

Correct Packaging

Small and Light Program

EXAMPLE #4

Multiple ASINs in one box

If each ASIN meets all requirements below, you can ship multiple ASINs in one shipping box

- Each unit weighs less than or equal to **15 ounces**, and has dimensions less than or equal to **16x9x4 inches**.
- All same-ASIN units within the shipping box are bundled together in **clear plastic bags or manufacturer/seller case packs** (i.e, boxed or shrink-wrapped).
- On the outside of each same-ASIN bag/pack, **the total quantity of sellable units** is clearly labeled.
- Each individual sellable unit within a bag has a scannable UPC or EAN barcode from the manufacturer. If no barcode is present, apply an [Amazon barcode](#).

Correct Packaging

Small and Light Program

Packaging Checklist

- Each unit weighs less than or equal to 15 ounces, and has dimensions less than or equal to 16x9x4 inches.
- All units within the shipping box are bundled together in clear plastic bags or manufacturer/seller case packs (i.e, boxed or shrink-wrapped).
- Each bag, outer case, or shrink-wrapped bundle has a label with the total quantity of sellable units.
- Each individual sellable unit within a bag has a scannable UPC or EAN barcode from the manufacturer. If no barcode is present, apply an [Amazon barcode](#).
- **It is okay to ship multiple ASINs in one box provided that all requirements above have been met.**
