

Shipping Requirements: LTL & FTL

Container type

- Regular slotted carton (RSC)
- B flute
- ECT 32
- 200 lbs. PSI burst strength
- Do not bundle boxes (no bagging, taping, elastic, or extra straps)

Box dimensions

- Boxes containing multiple standard-size items must not exceed 25" on any side

Box contents

- All boxes contain inventory associated with the same single shipment ID
- Shipment packing list and items in the box are the same:
 - Merchant SKU
 - FNSKU
 - Condition
 - Quantity
 - Packing option (individual or case-packed)

Box weight

- Boxes containing multiple items weigh less than or equal to 50 lbs. Boxes containing a single item may exceed 50 lbs.
- Boxes containing jewelry or watches weigh less than or equal to 40 lbs.
- Boxes containing a single oversize item that weighs more than 50 lbs. have "Team Lift" safety labels on the top and sides of the box
- Boxes containing a single oversize item that weighs more than 100 lbs. have "Mechanical Lift" safety labels on the top and sides of the box

Dunnage

- Bubble wrap
- Foam
- Air pillows
- Full sheets of paper

Shipping Requirements: LTL & FTL

Shipment labels

- Four (4) FBA shipping labels affixed to the top-center of each of the four sides
- Labels must include:
 - Shipment ID
 - Scannable barcode
 - Ship-from address
 - Ship-to address

Pallets

- 40" x 48", 4-way wooden
- GMA standard Grade B or higher
- One shipment ID per pallet
- Does not overhang pallet by more than 1"
- Bundled using clear stretch-wrap

Pallet weight

- Weighs less than or equal to 1500 lbs.

Pallet height

- Measures less than or equal to 72"

Case-packed boxes

- Cases have been previously packaged together by the manufacturer
- All items in the case have matching merchant SKUs (MSKUs) and are in the same condition
- All cases contain equal quantities
- Scannable barcodes on the case have been removed or covered
- Master cartons are split at the appropriate case-pack level

Important: This checklist is a summary and does not include all of the shipment requirements. For a full list of requirements, see [Shipping and Routing Requirements](#) on Seller Central. Failure to comply with FBA product preparation requirements, safety requirements, and product restrictions may result in the immediate refusal of inventory at the Amazon fulfillment center, the disposal or return of inventory, the blocking of future shipments to the fulfillment center, or a charge for any unplanned services.
