

# MEN'S FIT GUIDE

The blue jean that started it all. The 501® Original has a button-fly and is straight through the seat, thigh and leg, a bestseller for its one-of-a-kind fit. Wear it true to size or size it up for a looser look.

501® ORIGINAL

A zip fly straight fit jean beloved for its comfortable style. Fits straight through the seat, thigh and leg. Its straight-cut waistband hits at the waist and sits slightly higher in the back.

505® STRAIGHT

The slimmest fit from hip to hem, the Super Skinny 510™ jean sits below the waist like the Skinny 511™ jean, then gets extra narrow through the leg — all the way to the ankle.

510™ SUPER SKINNY

The Skinny 511™ jean sits below the waist, with a slim leg to the ankle. Two of the style details featured on the Skinny 511™ are wider belt loops and an open top shank button at waist closure.

511™ SKINNY

Slim and straight. This jean is cut close through the seat and thigh, sits below the waist and has a straight leg and a zipper fly. Its universal slim fit never feels too tight or too loose.

514™ SLIM STRAIGHT

Relaxed boot-cut — loose for a comfortable fit through the seat and thigh, it sits low on the waist and tilts higher in back. A favorite for its ease of wear.

527™ BOOT CUT
