No Ordinary Designer Watch
Ted Baker is manufactured using the highest quality materials and craftsmanship. The incorporation of both traditional and forward thinking design philosophies result in a unique and modern product.
LIMITED LIFETIME WARRANTY
Thank you for choosing a Ted Baker precision timepiece. This Ted Baker Watch is warranted to you, the owner, for your lifetime against all defects in material or workmanship. Limited lifetime warranty will be honored only by Service Center in the United States, Canada, Caribbean as well as Authorized Duty Free and Military Dealers. Service centers located in other parts of the world will only provide warranty service for the first 2 years. However, the warranty does not apply to normal wear and tear or abuse and excludes battery, case, crystal, strap, malfunction and deterioration resulting from accident, negligence and tampering. Ted Baker Watches are water-resistant. Special gasket and crown protectors have been used in the creation of these time pieces to ensure their resistance to water. In the event of a defect or malfunction, it will be repaired or replaced at our option. PLEASE DO NOT SEND CASH. No additional charge will be made unless additional servicing is necessary for reasons beyond our control such as accident, misuse, neglect or replacement of parts not warranted such as battery, case, crystal, and strap. In this event, please see Watch Repair section in the back of this booklet.
BATTERY LIFE
The battery in your Ted Baker Watch should last approximately 2 years. When the battery expires, replace it as soon as possible to prevent any malfunction. For battery replacement, we recommend that you contact an authorized Ted Baker Dealer. The battery type is found on the caseback.

WATER RESISTANCE
• Before using the watch in or near water, be sure that crown is pushed in completely.
• If the watch is underwater or wet, do not use pushers, rotating bezels or crowns.
• If the watch becomes wet, wipe it dry as soon as possible.
• If the watch comes in contact with salt water, rinse case and bracelet immediately and thoroughly under tap water and wipe dry with a soft cloth.
• Do not take your watch into a Hot Tub or Sauna. Extreme heat and pressure may cause your watch to lose its water resistance.
• Water resistance is not permanent. In the course of time, as your case becomes worn, the water resistance of the watch may decrease.

1. Pull crown out to second click position C.  
2. Turn crown to set time.  
3. Push crown back to position A.

NOTE: The 24 Hour Hand will also be set during time setting.
TO SET THE DATE:
1. Pull crown out to first click position B.
2. Turn crown counter-clockwise to set date.
3. Push crown back to position A.

NOTE: Do not set the date between 9:00 P.M. and 1:00 A.M. Otherwise, the date may not change properly on the following day. If it is necessary to set the date during that time period, first change the time to any time outside it, then set the date and then reset to the correct time.
THREE-EYE CHRONOGRAPH MODELS

1. Hour Hand
2. Minute Hand
3. Second Hand or
   Chronograph 1/20
   Second Hand
4. 24 Hour Hand
5. Chronograph Minute Hand
6. Chronograph Second Hand
7. Calendar

S1 – Chronograph start/stop button
S2 – Chronograph reset button

TO ADJUST THE CHRONOGRAPH HANDS POSITION:
Before setting the time, check if the Chronograph 1/20
Second Hand (for certain models only), Chronograph
Second Hand and Chronograph Minute Hand are at the zero
position.

If the chronograph is in use, press the button in the fol-
lowing order to reset it, and then check if the chronograph
hands have returned to zero position.

<table>
<thead>
<tr>
<th>If the chronograph is counting:</th>
<th>S1 → S2</th>
</tr>
</thead>
<tbody>
<tr>
<td>If the chronograph is stopped:</td>
<td>S2</td>
</tr>
</tbody>
</table>
In case one or several chronograph hands are not at the zero position due to certain reasons (e.g. following a battery change), that needs to be adjusted.

1. Pull the crown out to the second click position C.
2. Press the S1 button to set the Chronograph Second Hand. Holding down the button will allow quick advance.
3. Press the S2 button to set the Chronograph 1/20 Second Hand (for certain models only). Holding down the button will allow quick advance.
4. Push the crown back to position A.

TO SET THE TIME:
1. Pull the crown out to the second click position C.
2. Turn the crown to set the time.
3. Push the crown back to position A.

NOTE: The 24 Hour Hand will also be set during time setting.

TO SET THE DATE:
1. Pull the crown out to the first click position B.
2. Turn the crown counter-clockwise to set the date.
3. Push the crown back to position A.

NOTE: Do not set the date between 9:00 P.M. and 1:00 A.M. Otherwise, the date may not change properly on the following day. If it is necessary to set the date during that time period, first change the time to any time outside it, then set the date and then reset to the correct time.
TO USE THE CHRONOGRAPH (STOPWATCH):
Press the S2 button to switch the watch to chronograph mode,
1. Press the S1 button to start counting.
2. To stop counting, press the S1 button once. Press the S1 button again to resume from where it left off.
3. To reset to zero, press the S1 button to stop counting and then press the S2 button.

NOTE: For certain models, the chronograph is able to measure and display time in 1/20 second units up to maximum of 1 hour. The retrograde Chronograph 1/20 Second Hand keeps counting continuously for 60 seconds after starting, and then stops at zero position. When the S1 button is pressed to stop the chronograph, the Chronograph 1/20 Second Hand will quickly advance to display the measured time.
THREE-EYE CHRONOGRAPH MODELS

1. Hour Hand
2. Minute Hand
3. Second Hand
4. 24 Hour Hand
5. Chronograph Second Hand
6. Chronograph Minute Hand

S1 – Chronograph start/stop button
S2 – Chronograph reset button

TO ADJUST THE CHRONOGRAPH HANDS POSITION:

Before setting the time, check if the Chronograph Second Hand and Chronograph Minute Hand are at the zero position.

If the chronograph is in use, press the button in the following order to reset it, and then check if the chronograph hands have returned to zero position.

| If the chronograph is counting: | S1 → S2 |
| If the chronograph is stopped:  | S2      |

In case one or several chronograph hands are not at the zero position due to certain reasons (e.g. following a battery change), that needs to be adjusted.
1. Pull the crown out to the first click position B.
2. Press the S1 button to set the Chronograph Second Hand and Chronograph Minute Hand (mechanically coupled). Holding down the button will allow quick advance.
3. Push the crown back to position A.

**TO SET THE TIME:**
1. Pull the crown out to the first click position B.
2. Turn the crown to set the time.
3. Push the crown back to position A.

NOTE: The 24 Hour Hand will also be set during time setting.

**TO USE THE CHRONOGRAPH (STOPWATCH):**
For the measurement of elapsed time,
1. Press the S1 button to start counting.
2. To stop counting, press the S1 button once. Press the S1 button again to resume from where it left off.
3. To reset to zero, press the S1 button to stop counting and then press the S2 button.

NOTE: The chronograph is able to measure and display time in 1 second unit up to maximum of 29 minutes 59 seconds. The chronograph will stop automatically after running continuously for 30 minutes.
