

Makita XRM04B 18V LXT® Lithium-Ion Cordless Bluetooth® Job Site Radio Troubleshooting Options

Troubleshooting options when, *Playing the XRM04B Bluetooth device which has already paired*

- (a) The effective operation range between the radio and the paired device is approximately 10 meters (30ft)
- (b) Any obstacle between the radio and the device can reduce the operational range

We recommend the customer makes sure he/she is complying with (a) and (b) above.
