

WARRANTY POLICY

Champion stands behind our products. We maintain the highest standards of quality control and build our tools to last. Although you most likely will never have a problem, we have built in a one year warranty should your tool need repair.

When purchasing a magnetic drill press, make sure you register your product (ideally using the Champion on-line registration form) in order to expedite the processing of warranty claims to ensure you get fast support.

Summary of Warranty Coverage:

- The warranty becomes effective on the date of purchase or date of delivery if it is later.
- You must present proof of purchase or receipt to Champion authorized repair center (the current list of repair centers is available on the Champion website under technical support)

What is Covered?

- Defects in material and workmanship for a period of one year.

What is Not Covered?

- Unless defective, wear items (brushes, bearing, safety clutches, etc.,)
- Abuse of tools (altered, overloaded, dropped, improperly used tools)
- Use of parts and accessories which are not Champion components
- Repairs or alternations not performed by an Authorized Champion Repair Center

Important: It is critical that you keep your proof of purchase/deliver since this activates the warranty period and is required by service center if you need repair. Without this proof, any work carried out by the service center will be chargeable.
