

Quality Warranty

d.light stands behind our quality solar products and systems. All d.light products are protected by a warranty from the date of purchase.

What does the warranty cover?

The warranty covers product failure from normal use, including the battery, one or two years from the date of purchase depending on the product. The warranty is void if the product has been tampered with, opened, repaired, modified, submersed in water, abused, or if damage results from events including but not limited to flood, storm, wind or other natural disasters. The warranty does not cover the gradual reduction in product brightness and hours of light caused by regular use of the battery, LED, and solar panel over time.

How do I receive my replacement product?

Contact the point of purchase to receive your replacement product. Every product comes with a warranty card that is stamped and dated by the retailer at the time of purchase. If the product fails during normal use under the warranty period, a replacement unit will be provided.

Manufacturers' warranties may not apply in all cases, depending on factors such as use of the product, where the product was purchased, or who you purchased the product from. Please review the warranty carefully, and contact the manufacturer if you have any questions.
