Warranty

Our company provides a limited 1 year warranty policy from the date of original purchase for Patio Armor products, however we do not warranty normal wear from usage and severe weather including fading from the sun, damage from strong winds, product alteration, extreme weather conditions like hurricanes, floods, snow blizzards, or damages that might occur if the product is not used in a manner other than that for which is intended. Many times, an improper fit of the covers can result in rips or tears by stretching or weakening the fabric material. A proper fit also ensures that the covers do not touch the ground providing correct air circulation and reducing moisture & mildew build up.

If you are within the warranty period, please provide the below listed information via email to outdoorcovers@surefit.com to be reviewed.

- Proof of purchase (this determines which cover we need to replace)
- Mailing address
- Photo of the entire cover(s) as used on the furniture
- Photo(s) of any damaged or defective areas for each cover

If the warranty claim is approved based on the information provided, we will ship a replacement item at no charge.
