The pouring of liquids on your grill flame will void this warranty.

Dansons takes every precaution to utilize materials that retard rust by using high-temperature paint where advisable. Even with these safeguards, the protective coatings can be compromised by various substances and conditions beyond Dansons control. High temperatures, excessive humidity, chlorine, industrial fumes, fertilizers, lawn pesticides and salt are some of the substances that can affect paint and metal coatings. For these reasons, the limited warranties DO NOT COVER RUST OR OXIDIZATION, unless there is loss of structural integrity on the grill component. Should any of the above occur, kindly refer to you Instruction Manual's maintenance section for paint finish protection. Dansons' recommends that you purchase a Pit Boss full length protective cover, and cover your grill when not in use.

The warranties are based on normal domestic use and service of the grill and neither limited warranty coverage's apply for a grill which is used in commercial applications.
