

What plugins can I use with the Akai Pro Advance keyboards and VIP?

The VIP (Virtual Instrument Player) software included with your Akai Pro Advance series controller gives you immediate access to any virtual instrument in your collection. Virtually any

VST Instrument (VSTi) will work in VIP, including VST and VST2 instruments.

Do all VST Instruments work with VIP?

Yes. All VST and VST2 instruments will work within VIP.

The VIP (Virtual Instrument Player) software included with your Akai Pro Advance series controller gives you immediate access to any virtual instrument in your collection.

Keep in mind: this does not include VST *effects* or VST3 plugins which are a separate category used in very few virtual instruments. Also, VST plugins that require audio input or side chaining are not supported.

Plugin Maps

In addition to across the board support for virtually all VST Instruments, VIP further enhances control of your VSTi library with [Plugin Maps](#).

A Plugin Map gives you automatic factory preset importing, automatic category tagging, and automatic controller mapping.

Included with the VIP software are over 250 Plugin Maps for most VST Instruments (VSTi) on the market today.
