Specs

Kit contains:

- (6) Rain Bird professional grade ¾" inlet adjustable rotary sprinklers
- (1) Rain Bird 1ZEHTMR Automatic Watering Timer
- 125' coil of distribution tubing
- (6) threaded male tee fittings
- (2) ¾" barbed tee fittings
- (1) ¾" barbed coupling
- (2) ¾" barbed elbows
- Barbed fitting insertion tool
- Faucet connection kit
- Drain valve components (2 automatic drain valves, 2 compression couplings, 2 drain valve adapters)
- (6) stakes and cable ties
- Roll of PTFE tape
- Rotor adjustment tool/screwdriver
- (1) ¾" male-female elbow fitting
- (1) adapter, ¾" male pipe thread to ⅜" tubing
- (12) additional sprinkler nozzles (1.0 GPM and 1.5 GPM)

Technical Specifications

- Maximum spray distance: 32 ft
- Maximum coverage area: 3000 sq ft (depends on sprinkler placement and water pressure/flow)
  - Rectangular watering area with proper head-to-head coverage: 512 sq. ft. at 6 GPM, 800 sq. ft. at 8 GPM, 1152 sq. ft. at 10 GPM
  - Maximum watering area with all heads set to full circle pattern: 3050 sq. ft. at 6 GPM, 4845 sq. ft. at 8 GPM, 6936 sq. ft. at 10 GPM
- Recommended water pressure: 40-75 psi
- Minimum water flow: 6 gallons per minute (GPM)
- Sprinkler type: pop-up gear drive rotor
- Sprinkler throw distance (adjustable): 16' – 24'
- Sprinkler coverage patterns (adjustable): 40° to 360°
- Sprinkler location: below ground
- Working temperature: 32°F (min) - 110°F (max), timer should not be exposed to below freezing temperatures (32°F)
