

Assembly Instructions

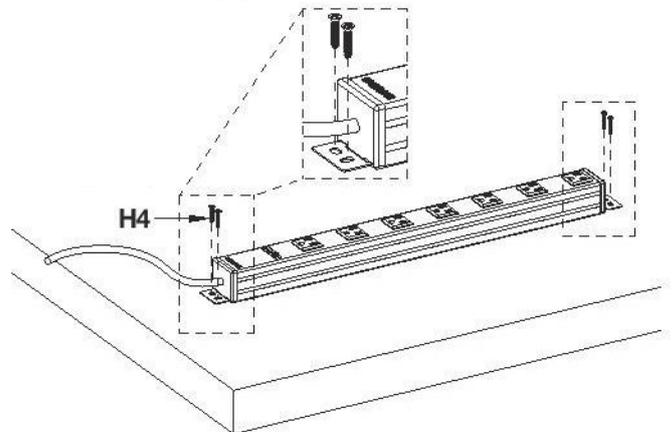

MOUNTING INSTRUCTION

Slide each mounting brackets (H1) onto each side of the power strip and use two Phillip screws (H2) for each bracket. This allow the power strip to mount vertical or horizontal.

CONTENTS		
Ref.	Qty.	Description
1	1	Power Strip
H1	2	Mount Bracket
H2	4	#4 x .75 Lg. Phillips Countersink Screw
H3	2	Side Mount Bracket
H4	4	M4 x .07 Phillips Oval Head Screw (Use for pre-threaded holes)

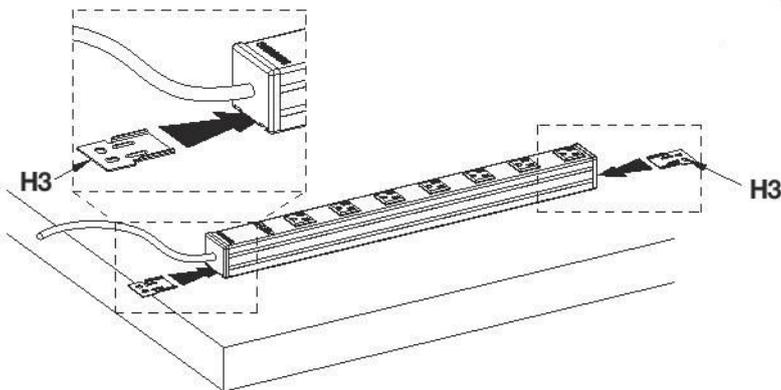

3 Convenient method of optional horizontal or vertical mounting power strip upside down on wall or underneath the workbench, desk, table, countertop.

SIDE MOUNTING INSTRUCTIONS

Side mount brackets are mostly used in cabinets and ship with 4 Phillips oval head screws (H4). Slide one bracket on each side of the power strip and then align with predrilled holes in cabinet and tighten.

2 Convenient method of optional horizontal or vertical mounting power strip.

CAUTION:
Do not expose power strip or power cord to a moist environment. Do not use power strip if power cord has frayed, exposed or has damaged wires. Do not cover power strip or power cord with carpet, furniture, rugs, newspapers, clothing or any other item. Do not staple or tack power strips or power cord.
Visually inspect power strip and cord on a regular basis to ensure that they are not damaged or showing sign of degradation. Insert plugs fully into the outlet so that no part of the prongs or the plug is exposed.
