

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

1. Identification

Name Caprylic capric triglyceride

CAS Number 73398-61-5

Recommendation for the chemical and restrictions on use

Applications Research and development/Performance chemical/ Industrial solvent.

Restrictions No specific uses advised against are identified.

Supplier's Details

InKemia Green Chemicals, Inc.

1213 West Loop North Suite 140 , Houston, TX 77005

+1 (713) 909-7717

web@inkemiagreenchemicals.com

Emergency contact number

InKemia Green Chemicals, Inc.

Tel: +1 (713) 909-7717

For emergency calls only.

2. Hazards

Classification of the substance or mixture

Classification Acute aquatic toxicity (Category 3), H402.

Label elements

GHS label statements, including pictograms, hazard, and precautionary statements.

The product does not need to be labeled. The product is not classified as a hazardous substance or mixture according to 29 CFR 1910 (OSHA HCS).

Signal word

—

Hazard Statements

H402 - Harmful to aquatic life.

Precautionary Statements

P273 - Avoid release to the environment.

P501 - Dispose of contents/container to an approved waste disposal plant.

Other Hazards

None.

3 - Composition/information on ingredients

Substances

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Chemical Name	Caprylic capric triglyceride
Synonyms	Decanoic acid; glycerol; octanoic acid; Medium chain triglycerides; Caprylic acid, capric acid triglyceride; Caprylic/capric triglyceride.
CAS Number	73398-61-5
Molecular Formula	C21H44O7
Molecular Weight (g/mol)	408.576

Hazardous components

Component	Classification	Concentration
Caprylic capric triglyceride	Aquatic Acute 3; H402	<=100 wt.%

Note: For the full text of the H-Statements mentioned in this Section, see Section 16.

Impurities and stabilizing additives No data available.

Mixtures Not applicable.

4 - First-aid measures

Description of first aid measures

General information	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.
Inhalation	Remove from exposure, moving to fresh air. Artificial respiration and oxygen are necessary if not breathing. Consult a physician.
Ingestion	Wash out mouth with water if the person is conscious. Do not induce vomiting. Consult a physician.
Skin contact	Immediately wash skin with soap and copious amounts of water.
Eye contact	Immediately irrigate with copious amounts of water for 15 minutes. Consult a physician.
Protection of first-aiders	First aid personnel should wear appropriate protective equipment during any rescue.

Most important symptoms and effects, both acute and delayed

General information	None expected under normal conditions of use.
Inhalation	No hazards which require special first aid measure.

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Ingestion	No hazards which require special first aid measure.
Skin contact	No hazards which require special first aid measure.
Eye contact	Direct contact with eyes may cause temporary irritation.

Indication of immediate medical attention and special treatment need

Notes for the doctor	No applicable data available.
-----------------------------	-------------------------------

5 – Fire-fighting measure

Extinguishing media

Suitable extinguisher media Water, Foam, Dry chemical, Carbon dioxide (CO₂).

Unsuitable extinguisher media No data available.

Special hazards arising from the substance or mixture

Specific hazards No data available.

Hazardous combustion products Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

Advice for firefighters

Protective actions during firefighting

Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control runoff water by containing and keeping it out of sewers and watercourses. If the risk of water pollution occurs, notify appropriate authorities.

Special protective equipment for firefighting

Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots, and gloves provide a basic level of protection for chemical incidents.

6 – Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Personal Precautions

Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into the spilled material.

Environmental precautions

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and materials for containment and cleanup

Methods for cleaning

Contain and remove the spillage, soaking up the residue with non-flammable absorbent. Place in an adequate container for immediate disposal. Eliminate sources of ignition. For waste disposal see Section 13.

Reference to other sections

For personal protection see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For disposal see section 13.

7 - Handling and storage

Precautions for safe handling

Usage precautions

Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink, and animal feeding stuff. Keep container tightly sealed when not in use. Avoid discharge to the aquatic environment. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers. For precautions see Section 2.

Advice on general occupational hygiene

Wash if in contact with skin. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.

Conditions for safe storage, including any Incompatibilities

Storage precautions

Store away from incompatible materials (see Section 10). Keep only in the original container. Keep container tightly closed, in a cool, well-ventilated place. Keep containers upright. Protect containers from damage. Keep in a fresh and dry place, avoiding direct sunlight. Keep container tightly sealed, in a fireproof place.

Storage class

Miscellaneous hazardous material storage. Preferably in a well-ventilated solvent cabinet.

Specific end uses

The identified uses for this product are in Section 1.

8 – Exposure controls/personal protection

Control parameters

Occupational exposure limits:

OSHA Permissible Exposure Limit (PEL):

Contains no substances with occupational exposure limit values.

Protective equipment

Engineering control measures

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

Eye/Face protection

Wear safety glasses with side-shields.

Hand protection

Where there is potential for skin contact have available and wear as appropriate impervious gloves, apron, pants, and jacket.

Other skin and body protection

Where risk assessment shows use engineering controls to reduce air contamination to permissible exposure level. Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.

Hygiene measures

Wash hands before and use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.

Respiratory protection

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with a multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Environmental exposure

Avoid discharging to drains.

9 – Physical and chemical properties

Appearance	Clear colorless liquid.	Water miscibility @ 20 °C, g/L	Immiscible.
Odor threshold	No data available.	Solubility (other)	Miscible in oils and hydrocarbons.
Melting point/Freezing point, °C	-5.0	Partition coefficient, log Pow @ 25 °C	Between 8.2 to 10.2 (EPI Suite estimation).
Boiling point, °C	300	Autoignition temperature, °C	No data available.
Flash point	Higher than 200	Decomposition temperature, °C	No data available.
Evaporation rate	No data available.	Dynamic viscosity @ 25 °C, cP	31.58
Upper / lower flammability or/and explosive limits	No data available.	Explosive properties	Not classified.
Vapor pressure @ 20 °C, kPa	Lower than 0.000001	Oxidizing properties	No data available.
Vapor density (air=1)	No data available.	Flammability	Non-flammable liquid.
Relative density @ 25 °C, g/cm³	0.950		

10 – Stability and reactivity

Reactivity	No data available.
Chemical stability	Stable under normal storage conditions.
Possibility of hazardous reactions	Hazardous polymerization do not occur under normal conditions.
Incompatible materials	Strong oxidizing agents. Strong bases. Strong acids.
Conditions to avoid	Direct sunlight. Extremely high or low temperatures.

Print.

Hazardous decomposition products

No data available.

11 – Toxicological information

Acute toxicity – oral

Acute toxicity – oral (LD50,mg/kg)

>5,000

Species

Rat

Notes (oral LD50)

Based on available data the classification criteria are not met.

Acute toxicity – dermal

Acute toxicity – dermal (LD50,mg/kg)

No data available.

Notes (Dermal LD50)

Based on available data the classification criteria are not met.

Acute toxicity – inhalation

Acute toxicity – inhalation (LC50,dust/mist mg/l)

No data available.

Notes (Inhalation LD50)

Based on available data the classification criteria are not met.

Skin corrosion/irritation

Result

Based on available data the classification criteria are not met.

Serious eye damage/irritation

Result

Based on available data the classification criteria are not met.

Respiratory sensitization

Result

Based on available data the classification criteria are not met.

Skin sensitization

Result

Based on available data the classification criteria are not met.

Germ cell mutagenicity

Genotoxicity – in vitro

Based on available data the classification criteria are not met.

Genotoxicity – in vivo

Based on available data the classification criteria are not met.

Carcinogenicity

IARC

No component of this product present at levels greater than or equal to 0.1% is identified as human carcinogen by IARC.

ACGIH

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP

No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

OSHA.

Reproductive toxicity

Fertility

Based on available data the classification criteria are not met.

Development

Based on available data the classification criteria are not met.

Specific target organ toxicity

STOT-single exposure

No data available.

STOT-repeated exposure

No data available.

Additional information

General information

This product is not classified as hazardous.

Inhalation

No data available.

Ingestion

No data available.

Skin contact

No data available.

Eye contact

Based on available data the classification criteria are not met.

Route of entry

Ingestion, Inhalation, skin and/or eye contact.

Target organs

Not specific target organ known.

12 – Ecological information

Toxicity

Ecotoxicity

This product may be harmful to aquatic life. Large or frequent spills may have dangerous effects on the environment.

Acute toxicity

Toxicity to fish

LC50 (96h) > 10,000 mg/l (Danio rerio – zebra fish)

Aquatic invertebrates

EC50 (48h) = 17 mg/l (Daphnia magna)

Aquatic plants

EC50 (72h) > 100 mg/l (Desmodesmus subspicatus)

Chronic toxicity

Toxicity to fish

No data available.

Aquatic invertebrates

No data available.

Aquatic plants

No data available.

Persistency and biodegradability

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Persistency and biodegradability	No data available.
Result: -	This product is readily biodegradable (EPI Suite estimation).
Biological oxygen demand(mg/g)	No data available.
Chemical oxygen demand(mg/g)	No data available.
BOD/COD ratio	No data available.
Bioaccumulative potential	Unlikely to bioaccumulate (BCF<500).
Mobility in soil	Is not likely mobile due its low water solubility.
Results of PBT and vPvB	No data available
Other adverse effects	No data available.

13 – Disposal considerations

Waste treatment methods

General information

The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of safely. When handling waste, the safety precautions applying to the handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues.

Disposal methods

Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labeled with their contents. Incineration and landfill should only be considered when recycling is not feasible.

14 – Transport information

DOT (US)	Not dangerous goods.
IMDG	Not dangerous goods.
IATA	Not dangerous goods.
Transport in bulk according to	Annex II of MARPOL 73/78, and the IBC Code Product name: Not applicable.

15 - Regulatory information

US Federal Regulations and state regulations

Components of the product are listed in the quoted regulations. For details, please refer to the regulations directly. This list is not exhaustive; please check for other applicable regulations.

This product has been classified by hazard criteria of the Controlled Products Regulations, and the SDS contains all the information required by the Controlled Products Regulations.

US Federal Regulations

SARA 302 Section 302 (Specific toxic chemical listings)

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA Section 311/312 (Specific toxic chemical listings)

No SARA hazards.

SARA Section 313 (Specific toxic chemical listings)

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

RCRA (hazardous waste code)

None of the ingredients are listed.

TSCA (Toxic Substances Control Act)

CAS: 65381-09-1 and CAS: 73398-61-5 are listed on the TSCA inventory.

CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act)

None of the ingredients are listed.

US State Regulations

Proposition 65 (California)

Chemicals are known to cause cancer

None of the chemicals in this product are listed.

Chemicals are known to cause reproductive toxicity for females

None of the chemicals in this product are listed.

Chemicals are known to cause reproductive toxicity for males

None of the chemicals in this product are listed.

Massachusetts Right to Know Components

No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right to Know Components

No components are subject to the Pennsylvania Right to Know Act.

New Jersey Right to Know Components

No components are subject to the New Jersey Right to Know Act.

Canada

Canadian Domestic Substances List (DSL)

CAS: 65381-09-1 and CAS: 73398-61-5 are listed on Canada's DSL List.

Canadian NPRI Ingredient Disclosure list (limit 0.1%)

The substance is not specified on any list. There is no control measure imposed to this substance.

SDS: Caprylic capric triglyceride

Ver. 1.0 Rev. 18-10-2017

Print.

Canadian NPRI Ingredient Disclosure list (limit 1%)

The substance is not specified on any list. There is no control measure imposed to this substance.

16 - Other information

Full text of H-Statements referred to under sections 2 and 3

Aquatic Acute Acute aquatic toxicity

H402 Harmful to aquatic life.

GHS Column Model 2017 Classification

Acute health hazards (single exp) Negligible

Chronic health hazards (repeated exp.) Negligible

Environmental hazards Negligible

Physical-chemical hazards Negligible

Further Information

The information above is believed to be accurate and represents the best information available.
