I found this email chain regarding the mini punches.

Thank you,

Derek Ardmore

Hi Lindsay,

The vendor for those mini punches has some revisions they want to make to the patterns. Can you check them out and see if you approve?

Thanks,

Derek

Importance: High

Hi, Derek

Attached our feedback of your patterns, totally 4 new patterns.

the black means for your original patterns, the purple means for some a bit revision on our side (but the bear is exactly same as yours, no any change).

Any feedback or comments, please feel free to let me know.

Regards Cindy

Ningbo Sunlit

Hi, Derek

Glad to hear from you.

About our HCP-003, your attached 6 different patterns is taking **4** new designs, that means we have to open the new mold, so, please find my reply below:

1. Price

Same as the old models from 368880 to 368885, FOB Ningbo US\$0.38/pc. each in a blister card packing.

2. Tooling cost

US\$350 per each, that is to say **US\$1400** totally. Days later, i will send you a photo to confirm the patterns details after our engineers' double checking. (**The pattern of flower and the Mustache is already existed**)

3. MOQ

1728pcs per patterns. In the meanwhile, we have remind several times to your other colleague in AC team, due to our mold structure designs, it is better to send us the order at least 8 different patterns in equal order qty, otherwise, it will cause the stock for us. Anyway, please do your best but if any difficulty, please do no hesitate to let me know.

Thanks and keep in touch.

Regards Cindy
