

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

1. Identification

Name Dimethyl succinate

CAS Number 106-65-0

Recommendation for the chemical and restrictions on use

Applications Research and development/ Performance chemical/ Industrial solvent.

Restrictions No specific uses advised against are identified.

Supplier's Details

InKemia Green Chemicals, Inc.

1213 West Loop North Suite 140 , Houston, TX 77005

+1 (713) 909-7717

web@inkemiagreenchemicals.com

Emergency contact number

InKemia Green Chemicals, Inc.

Tel: +1 (713) 909-7717

For emergency calls only.

2. Hazards

Classification of the substance or mixture

Classification Combustible liquid (Category 4), H227.
Acute aquatic toxicity (Category 3), H402.

Label elements

Pictogram None

Signal word

Warning

Hazard Statements

H227 - Combustible liquid.
H402 - Harmful to aquatic life.

Precautionary Statements

P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P273 - Avoid release to the environment.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.
P403 + P235 - Store in a well-ventilated place. Keep Cool
P501 - Dispose of contents/container to an approved waste disposal plant.

Other Hazards

None.

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

3 – Composition/information on ingredients

Substances

Chemical Name	Dimethyl succinate
Synonyms	Methyl succinate; Dimethyl butanedioate; Dimethylsuccinate; Butanedioic acid, dimethyl ester.
CAS Number	106-65-0
Molecular Formula	C ₆ H ₁₀ O ₄
Molecular Weight (g/mol)	146.142

Hazardous components

Component	Classification	Concentration
Dimethyl succinate	Flam. Liq. 4, Acute Aquatic 3; H227, H402	<=100 % wt

Note: For the full text of the H-Statements mentioned in this Section, see Section 16.

Impurities and stabilizing additives No data available.

Mixtures Not applicable.

4 – First-aid measures

Description of first aid measures

General information	Show this Safety Data Sheet to the medical personnel.
Inhalation	Remove from exposure, moving to fresh air. Artificial respiration and oxygen are necessary if not breathing. Consult a physician.
Ingestion	Wash out mouth with water if the person is conscious. Do not induce vomiting. Consult a physician.
Skin contact	Immediately wash skin with soap and copious amounts of water.
Eye contact	Immediately irrigate with copious amounts of water for 15 minutes. Consult a physician.
Protection of first-aiders	First aid personnel should wear appropriate protective equipment during any rescue.

Most important symptoms and effects, both acute and delayed

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

General information	The severity of the symptoms described might vary depending on the concentration and length of exposure.
Inhalation	No data available.
Ingestion	No data available.
Skin contact	No data available.
Eye contact	No data available.

Indication of immediate medical attention and special treatment need

Notes for the doctor	Treat symptomatically.
-----------------------------	------------------------

5 – Fire-fighting measure

Extinguishing media

Suitable extinguisher media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsuitable extinguisher media	No data available.

Special hazards arising from the substance or mixture

Specific hazards	Carbon oxides.
-------------------------	----------------

Advice for firefighters

Protective actions during firefighting

Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control runoff water by containing and keeping it out of sewers and watercourses. If the risk of water pollution occurs, notify appropriate authorities.

Special protective equipment for firefighting

Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots, and gloves provide a basic level of protection for chemical incidents.

6 – Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Personal Precautions

Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into the spilled material.

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Environmental precautions

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and materials for containment and cleanup

Methods for cleaning

Contain and remove the spillage, soaking up the residue with non-flammable absorbent. Place in an adequate container for immediate disposal. Eliminate sources of ignition. For waste disposal see Section 13.

Reference to other sections

For personal protection see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For disposal see section 13.

7 – Handling and storage

Precautions for safe handling

Usage precautions

Wear protective clothing as described in Section 8 of this safety data sheet. Keep container tightly sealed when not in use. Do not handle until all safety precautions have been read and understood. Do not reuse empty containers. For precautions see Section 2.

Advice on general occupational hygiene

Promptly wash if in contact with skin. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.

Conditions for safe storage, including any Incompatibilities

Storage precautions

Store away from incompatible materials (see Section 10). Keep only in the original container. Keep container tightly closed, in a cool, well-ventilated place. Keep containers upright. Protect containers from damage. Keep in a fresh and dry place, avoiding direct sunlight. Keep container tightly sealed.

Storage class

Miscellaneous hazardous material storage. Preferably in a well-ventilated solvent cabinet.

Specific end uses

The identified uses for this product are in Section 1.

8 – Exposure controls/personal protection

Control parameters

Occupational exposure limits:

Contains no substances with occupational exposure limit values.

Protective equipment

Engineering control measures

Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

Eye/Face protection

Wear safety glasses with side-shields.

Hand protection

Avoid skin contact. Wear protective clothes and solvent resistant gloves (nitrile).

Other skin and body protection

Use engineering controls to reduce air contamination to permissible exposure level. Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.

Hygiene measures

Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with a multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Environmental exposure

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Avoid discharge into drains. Avoid its release in the environment.

9 – Physical and chemical properties

Appearance	Clear colorless liquid.	Water miscibility @ 20 °C, g/L	Miscible.
Odor threshold	No data available.	Solubility (other)	Miscible with diethyl ether, acetone, ethanol.
Melting point/Freezing point, °C	19.5	Partition coefficient, log Pow @ 25 °C	0.35
Boiling point, °C	195.3	Autoignition temperature, °C	365
Flash point	90.0	Decomposition temperature, °C	No data available.
Evaporation rate	No data available.	Dynamic viscosity @ 25 °C, cP	No data available.
Upper / lower flammability or/and explosive limits	Upper explosion limit: 8.5 v/v. %/ Lower explosion limit: 1 v/v. %	Explosive properties	Not classified.
Vapor pressure @ 20 °C, kPa	0.04	Oxidizing properties	No data available.
Vapor density (air=1)	No data available.	Flammability	Combustible liquid.
Relative density @ 25 °C, g/cm³	1.117	Surface tension @ 20 °C, mN/m	32.0

10 – Stability and reactivity

Reactivity	No data available.
Chemical stability	Stable under normal storage conditions.
Possibility of hazardous reactions	No data available.
Incompatible materials	Strong oxidizing agents. Strong bases. Strong acids.
Conditions to avoid	Ignition sources.
Hazardous decomposition products	No data available.

11 – Toxicological information

Acute toxicity – oral

Acute toxicity – oral (LD50,mg/kg) >5,000

Species Rat

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Notes (oral LD50)

Based on available data the classification criteria are not met.

Acute toxicity – dermal

Acute toxicity – dermal (LD50,mg/kg)

>5,000

Species

Rabbit

Notes (Dermal LD50)

Based on available data the classification criteria are not met.

Acute toxicity – inhalation

Acute toxicity – inhalation (LC50,dust/mist mg/l)

> 2,000 mg/l

Species

Rat

Notes (Inhalation LD50)

Based on available data the classification criteria are not met.

Skin corrosion/irritation

Result

No skin irritation (Rabbit; OECD Test Guideline 404).

Serious eye damage/irritation

Result

Slight eye irritation (Rabbit; OECD Test Guideline 405).

Respiratory sensitization

Result

Did not cause sensitisation on laboratory animals (Mouse; ; OECD Test Guideline 429).

Skin sensitization

Result

Did not cause sensitisation on laboratory animals (Mouse; OECD Test Guideline 429).

Germ cell mutagenicity

Genotoxicity – in vitro

Based on available data the classification criteria are not met.

Carcinogenicity

IARC

No component of this product present at levels greater than or equal to 0.1% is identified as human carcinogen by IARC.

ACGIH

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP

No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity

Fertility

No data available.

Development

No data available.

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Specific target organ toxicity

STOT-single exposure No data available.

STOT-repeated exposure No data available.

Additional information

General information This product is not classified as hazardous.

Target organs Not specific target organ known.

12 - Ecological information

Toxicity

Ecotoxicity This product may be harmful to aquatic life. Large or frequent spills will have dangerous effects on the environment.

Acute toxicity

Toxicity to fish LC50(96h.)= 50 - 100 mg/l (Zebra fish).

Aquatic invertebrates EC50(48h.) > 100 mg/l (Daphnia magna).

Aquatic plants EC50(72h.) > 100 mg/l (Pseudokirchneriella subcapitata).

Chronic toxicity

Toxicity to fish No data available.

Aquatic invertebrates No data available.

Aquatic plants No data available.

Persistency and biodegradability

Persistency and biodegradability Readily biodegradable (74.1% (28 days), OECD Test Guideline 301B)

Result: - Readily biodegradable.

Biodegradability Readily biodegradable. (EPI Suite estimation). This chemical is unlikely to persist or/and bioaccumulate (BCF<500; logPow=0.35).

Biological oxygen demand(mg/g) No data available.

Chemical oxygen demand(mg/g) No data available.

BOD/COD ratio No data available.

Bioaccumulative potential No data available.

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Mobility in soil	No data available.
Results of PBT and vPvB	No data available.
Other adverse effects	An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Harmful to aquatic life.

13 – Disposal considerations

Waste treatment methods

General information

The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of safely. When handling waste, the safety precautions applying to the handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues

Disposal methods

Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labeled with their contents. Incineration and landfill should only be considered when recycling is not feasible.

14 – Transport information

DOT (US)	UN number: NA 1993 Proper shipping name: Combustible liquid, n.o.s. (Dimethyl succinate). Reportable Quantity (RQ): Poison Inhalation Hazard: No (Remark: The combustible liquid classification only applies when shipped in single package sizes >119 gallons).
IMDG	Not dangerous goods.
IATA	Not dangerous goods.
Transport in bulk according to	Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable.

15 – Regulatory information

US Federal Regulations and state regulations

SDS: Dimethyl succinate

Ver. 2.0 Rev. 02-11-2017

Print.

Components of the product are listed in the quoted regulations. For details, please refer to the regulations directly. This list is not exhaustive; please check for other applicable regulations.

This product has been classified by hazard criteria of the Controlled Products Regulations, and the SDS contains all the information required by the Controlled Products Regulations.

US Federal Regulations

SARA 302 Section 302 (Specific toxic chemical listings)

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA Section 311/312 (Specific toxic chemical listings)

Fire Hazard.

SARA Section 313 (Specific toxic chemical listings)

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

RCRA (hazardous waste code)

None of the ingredients are listed.

TSCA (Toxic Substances Control Act)

CAS 106-65-0 is listed on the TSCA inventory.

CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act)

None of the ingredients are listed.

US State Regulations

Proposition 65 (California)

Chemicals are known to cause cancer

None of the chemicals in this product are listed.

Chemicals are known to cause reproductive toxicity for females

None of the chemicals in this product are listed.

Chemicals are known to cause reproductive toxicity for males

None of the chemicals in this product are listed.

Massachusetts Right to Know Components

No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right to Know Components

No components are subject to the Pennsylvania Right to Know Act.

New Jersey Right to Know Components

No components are subject to the New Jersey Right to Know Act.

Canada

Canadian Domestic Substances List (DSL)

CAS: 106-65-0 is listed on Canada's DSL List.

Canadian NPRI Ingredient Disclosure list (limit 0.1%)

The substance is not specified on any list. There is no control measure imposed to this substance.

Canadian NPRI Ingredient Disclosure list (limit 1%)

The substance is not specified on any list. There is no control measure imposed to this substance.

16 - Other information

Full text of H-Statements referred to under sections 2 and 3

Flam. Liq. Flammable liquids

Acute aquatic toxicity.

H227 Combustible liquids

H402 Harmful to aquatic life.

GHS Column Model 2017 Classification

Acute health hazards (single exp) Negligible

Chronic health hazards (repeated exp.) Negligible

Environmental hazards Negligible

Physical-chemical hazards Low

Further Information

The information above is believed to be accurate and represents the best information available. However, we make no warranty of merchantability or any other warranty, express or implied, on such information and we assume no liability resulting from its use. Users should make their investigations to determine the suitability of the information for their purposes. In no event shall the Inkemia Green Chemicals, Inc. be liable for any claims, losses or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages arising, even if the Inkemia Green Chemicals, Inc. has been advised of the possibility of such damages.
