

Attention Please ! ! !

- **Before assembling and using** the 3D printer, please have a look the YouTube instruction tutorials and the user manual.

Please search 'ADIMLab gantry new version 3D Printer' videos to look. Notice: it's 'new version 3D Printer'.

If you find the bed is shift left and right, please use the 2 Eccentric nuts to adjust the wheels to fasten them.

Before printing, or you get in trouble with extruding, please have a look at the document of how to use filament and extruder in the SD card: 'Filament using and extrude problem solving',

- Every 3d printer will test printing before sending out, If there are some damage during transportation, please **contact us**:
