IMPORTANT SAFEGUARDS

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

- This product should not be used with aquariums, near water or any other source of moisture.
- Do not open the housing for any reason. There are no user-serviceable parts inside.
- To reduce the risk of electric shock - use only indoors.
- Keep away from children.
- Do not install this product if there is not at least 10 meters (30 feet) or more of wire between the electrical outlet and the electrical service panel.

**CAUTION**

Do not use the product in General Patient Care Areas or Critical Patient Care Areas.

- Connect the product directly to a grounded power outlet only.
- Do not exceed the maximum power output of the product.
- Do not connect different extension cords in series.
Intended Use

- This product is intended for protecting the electronics from power surges or increases in voltage.
- This product is intended for household use only. It is not intended for commercial use.
- This product is intended to be used in dry indoor areas only.
- No liability will be accepted for damages resulting from improper use or non-compliance with these instructions.

Before First Use

- Check for transport damages.
- Clean the product before first use.
- Before connecting the product to the power supply, check that the power supply voltage and current rating corresponds with the power supply details shown on the product rating label.

⚠️ DANGER Risk of suffocation! Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

Operation

- Plug the product’s power plug into a standard 3-wire grounded 120 V~ outlet.
- To turn the product on, set the power switch to **RESET** position. The “Protected” and “Grounded” indicators light up green.
• Plug the equipment’s power plug (including 2-wire devices) into the product’s outlets.
• To manually turn the product off, set the power switch to OFF position. All outlets stops providing power and both indicators go off.
• After unplugging the equipment, close the sliding safety covers.

⚠️ WARNING If the “Protected” indicator goes off, the built-in surge protection is no longer functioning. Unplug all the connected devices and replace the product.

⚠️ WARNING If the “Grounded” indicator goes off but power is present, unplug all the connected devices and consult a qualified electrician to check your outlet’s wiring.

⚠️ NOTICE DO NOT OVERLOAD the product’s outlets. The product can accommodate a total equipment load of up to 15 A (1800 W) (whether plugged into a single outlet or spread out over multiple outlets). If the load exceeds 15 A, the built-in circuit breaker will trip and the outlets will stop providing power. In such case reduce the load by unplugging some devices and again set the power switch to RESET position.

Installation
• The product can be installed on a wall using screws (not provided) and wall mounting holes located on the back side of the product.

⚠️ WARNING Never drill into water pipes or power lines. Use a line locator if necessary.

Cleaning and Maintenance

⚠️ WARNING Risk of electric shock! To prevent electric shock, unplug before cleaning.

⚠️ WARNING Risk of electric shock! During cleaning do not immerse the electrical parts of the product in water or other liquids. Never hold the product under running water.

• To clean, wipe with a soft, slightly moist cloth.
• Dry the product after cleaning.
• Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the product.
• Store in a cool and dry place away from children and pets, ideally in original packaging.
• Avoid any vibrations and shocks.
