

Warranty

WARRANTY COVERAGE

Our distributors determine warranty for NAD Electronics components in their own country. Please note that our manufacturer's warranty applies only to units purchased from AUTHORIZED NAD dealers only. Warranty is NOT transferable from person to person and is only valid in the country where the units are purchased. You will also need to keep your original bill of sale to be eligible.

There are many reasons why the warranty is not transferable across country borders; primarily the warranty is based on the fact that with electrical goods there are individual local safety requirements, regulations, conditions and trade practices that need to be met. We would agree that this can cause difficulty when consumers move countries, but on an individual basis we have helped customers with an introduction to their "new" local distributor and in most cases we have been able to facilitate a happy outcome. Ideally we would not like to see any customer needing warranty service but the best service is provided by the local distributor or by the local authorized dealer as they can personally help you.

Manufacturers' warranties may not apply in all cases, depending on factors such as use of the product, where the product was purchased, or who you purchased the product from. Please review the warranty carefully, and contact the manufacturer if you have any questions.
