

How do I program my 5 Meal Feeder?

Setting the time:

1. Press "clock", then press "set" until the hours flash.
2. Press increase or decrease to set the hour.
3. Press "set" until the minutes flash.
4. Press increase or decrease to set the minutes.
5. Press "clock" to finish setting the time of day.

Setting the first daily feeding time:

1. Press the "clock", then increase until the daily feeding time indicator displays.
2. Press "set" until the hours flash.
3. Press increase or decrease to set the feeding hour.
4. Press "set" until the minutes flash.
5. Press increase or decrease to set the feeding minute.
6. Press "clock" to finish setting the feeding time.

Set additional feeding times:

1. Press "clock", then press increase to display the next daily feeding time.
2. Repeat steps for setting the feeding time for each additional feeding.
3. Remove a programmed feeding time:
4. Press "clock," then press increase until the daily feeding time you wish to remove displays.

5. Press "suspend feeding".
6. Press "clock".

Suspend feeding (but retain programming):

Press and hold "suspend feeding" for 7 seconds, then release. The suspend feeding icon will appear in the upper right corner of the clock display. The ":" between the hours and minutes will flash once each second.

Resume feeding:

Press "clock", and the suspend feeding icon will disappear from the clock display.
