READ THIS MANUAL FIRST!

Congratulations on purchasing this product. We’ve included everything you need to get started. If you have any problems, our representatives can help you get the most from your new product by explaining:

- Hookups
- First Time Setup
- Feature Operation

Do not attempt to return this product to the store.

For fast help, call us first!
1-800-705-2000

Thank you for making us a part of your home!

IMPORTANT!
Return your Warranty Registration Card within 10 days.
See why inside.
Return your Warranty Registration card today to ensure you receive all the benefits you’re entitled to.

Once your MAGNAVOX purchase is registered, you’re eligible to receive all the privileges of owning a MAGNAVOX product. So complete and return the Warranty Registration Card enclosed with your purchase at once. And take advantage of these important benefits.

**Warranty Verification**
Registering your product within 10 days confirms your right to maximum protection under the terms and conditions of your MAGNAVOX warranty.

**Owner Confirmation**
Your completed Warranty Registration Card serves as verification of ownership in the event of product theft or loss.

**Model Registration**
Returning your Warranty Registration Card right away guarantees you’ll receive all the information and special offers which you qualify for as the owner of your model.

Congratulations on your purchase, and welcome to the “family!”

**Dear MAGNAVOX product owner:**
Thank you for your confidence in MAGNAVOX. You’ve selected one of the best-built, best-backed products available today. And we’ll do everything in our power to keep you happy with your purchase for many years to come.

As a member of the MAGNAVOX “family,” you’re entitled to protection by one of the most comprehensive warranties and outstanding service networks in the industry.

What’s more, your purchase guarantees you’ll receive all the information and special offers for which you qualify, plus easy access to accessories from our convenient home shopping network.

And most importantly you can count on our uncompromising commitment to your total satisfaction.

All of this is our way of saying welcome—and thanks for investing in a MAGNAVOX product.

P.S. Remember, to get the most from your MAGNAVOX product, you must return your Warranty Registration Card within 10 days. So please mail it to us right now!

Know these safety symbols

This "bolt of lightning" indicates uninsulated material within your unit may cause an electrical shock. For the safety of everyone in your household, please do not remove product covering.

The "exclamation point" calls attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.

**WARNING:**

TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.

**CAUTION:**

To prevent electric shock, match wide blade of plug to wide slot, fully insert.

**ATTENTION:**

Pour éviter les choc électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu’au fond.

Visit our World Wide Web Site at http://www.magnavox.com
Welcome to your TV/VCR owner’s manual.
This manual describes the MC092DMG TV/VCR and explains how to use all the features listed below.

Features
• A-B Repeat Play
• Automatic Channel Setup
• Automatic Head Cleaner
• Blue Background
• Daylight-Savings Time
• English or Spanish displays
• One-Touch Recording
• Real-Time Tape Counter
• Repeat Play
• ShowGuard™ - Indefinite Timer
• Sleep Timer, Wake Up Timer
• SmartClock™
• S-VHS Quasi Playback (SQ PB)
• Timer Recording

Safety Precautions
Warning: To prevent fire or shock hazard, do not expose this equipment to rain or moisture.
Federal Communications Commission (FCC) Warning: Any unauthorized changes or modifications to this equipment void the user’s authority to operate it.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Magnavox recommends you use only video cassette tapes that have the VHS mark. Other tapes may cause poor picture quality and excessive deposits on the video heads that the warranty may not cover if damage occurs.
This TV/VCR has a High Quality (HQ) system and is compatible with existing Video Home System (VHS) equipment.
Note to the Cable TV System Installer: This reminder calls the Cable TV system installer’s attention to Article 820-40 of the National Electrical Code, which provides guidelines for proper grounding – in particular, specifying that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as possible.

Before Using the TV/VCR

Putting Batteries in the Remote Control

1. Remove the battery compartment lid on the bottom of the remote control by sliding the lid down and off, following the direction of the arrow on the lid.

2. Place two AA batteries inside the battery compartment with their + and – ends aligned as indicated.

3. Replace the battery compartment lid.

Battery Safety

- Battery Usage CAUTION - To prevent battery leakage that may result in bodily injury or damage to the unit:
  - Install ALL batteries correctly, with the + and - markings on the battery aligned as indicated on the unit;
  - Do not mix batteries, for example, old with new or carbon with alkaline; and
  - Remove batteries when the unit will not be used for a long time.

Recording Prevention

Video cassette tapes have record tabs to ensure you do not erase recordings accidentally.

1. To prevent accidental recording, break off the tab with a screwdriver.

2. To record again, cover the hole with cellophane tape.

Using the Remote Control

- Point the remote control at the TV/VCR’s remote sensor. Details are on page 20.
- Do not put objects between the remote control and the TV/VCR.

TV/VCR Maintenance

- In this TV/VCR, use only tapes with the VHS mark.
- Remove any light adhesive stick-on notes from the video cassette tape before putting the tape in the TV/VCR. Removable labels can jam the TV/VCR.
- The TV/VCR requires periodic maintenance to maintain its excellent performance. This TV/VCR has an automatic head cleaning system. However, the video heads will eventually require cleaning or replacement. Only an authorized service center should perform this service.

Helpful Hints

- Your new product, its packaging, and this manual contain materials that can be recycled and reused. Specialized companies can recycle your product to increase the amount of reusable materials and to minimize the amount that needs to be properly disposed. Your product uses batteries that should not be thrown away when depleted but should be disposed of as small chemical waste. Please find out about the local regulations on disposal of your old product, batteries, manual, and packaging when you replace existing equipment.
6 Hooking Up the TV/VCR

1 Hook up your TV/VCR using one of the connections shown (A, B, or C).

A Hooking up your TV/VCR with a Cable TV Signal or Outdoor Antenna
Connect a Cable TV signal or an antenna to the ANT(enna) Jack on the back of the TV/VCR.

B Hooking up your TV/VCR with a Cable Box
Connect the Cable TV signal to the IN Jack on the Cable Box. Connect an RF coaxial cable (75-ohm, not supplied) to the OUT Jack on the Cable Box and to the ANT(enna) Jack on the back of the TV/VCR.
To view any channel, set the TV/VCR to the Cable Box output channel (channel 03 or 04). Then, select channels at the Cable Box.

C Hooking up your TV/VCR with the Supplied Rod Antenna
To install the supplied rod antenna, push the stem of the antenna into the antenna hole on the back of the TV/VCR. Connect the antenna wire to the ANT(enna) Jack on the back of the TV/VCR as shown. Extend the antenna and adjust its length, direction, and angle for the clearest picture.

2 Connect the supplied AC power cord to the AC 120V jack on the back of the TV/VCR. Plug the AC power cord into an AC power outlet. Use only the supplied AC power cord.

3 Before you turn on the TV/VCR, go to page eight.
Hooking Up the TV/VCR (cont'd) 7

Mobile Connections
Usually, the supplied rod antenna provides adequate reception. But when you want to watch TV outdoors or in a vehicle, try a mobile antenna (not supplied) or an indoor dipole antenna (not supplied) for better reception.

1 Connect an antenna to the ANT(enna) jack. If you do not use the supplied rod antenna, refer to the instructions with your other antenna to make a connection.

2 Make sure your vehicle has a 13.2-volt, negative ground electrical system. Connect one end of the car battery cord to the DC 13.2V jack on the back of the TV/VCR. Then connect the other end of the car battery cord to the cigarette lighter in your vehicle.
Use only the supplied car battery cord. Using another cord could damage the TV/VCR. Make sure you push the car battery cord’s plug completely into the cigarette lighter.

Fuse Replacement
If the TV/VCR does not have power when connected properly in your vehicle, replace the fuse in the car battery cord.
Use only a 5-amp, 250-volt, fast blow fuse, which is available at an electronics retailer.

1 To remove the old fuse, unscrew the red cap from the end of the cord. Place your fingers on the grooved part of the cap and turn the cap counter-clockwise.

2 When the cap is removed, the red cap and the silver tip will be loose. The fuse will be loose inside the end of the cord.

3 Remove the old fuse and insert a new fuse.

4 Replace the red cap and the silver tip. The fuse will tighten into place as you screw on the cap, turning the cap clockwise. (The end of the fuse will fit into the silver tip, which is in the center of the red cap when tightened.)

Helpful Hints

- Do not watch TV while driving.
- Remove all ashes and debris from the cigarette lighter jack.
- Unplug the car battery cord from the cigarette lighter before unplugging it from the TV/VCR.
- Disconnect the car battery cord from the TV/VCR before using standard electrical (AC) power.
- If you use the TV/VCR with the vehicle’s engine off, recharge the vehicle’s battery often. Unplug the car battery cord from the cigarette lighter when you finish using the TV/VCR.
- When you use the TV/VCR with a car battery cord, noise may appear on the TV/VCR screen.
- Do not use this TV/VCR in high temperature conditions. Details are on pages 47-48.
- Route the car battery cord away from the controls of the vehicle so the cord does not distract from or hinder driving the vehicle.
8 Turning On the TV/VCR

Before you turn on the TV/VCR, make sure batteries are in the remote control and you have connected the TV/VCR correctly. The instructions on this page work only when you turn on the TV/VCR for the first time.

1 **Press the POWER button.** The TV/VCR will come on and the screen shown below will appear.

   ![Remote Control](remote_control.png)

   **SELECT LANGUAGE**
   
   > ENGLISH ON
   ESPAÑOL
   SELECT ▲▼ OR PRESS MENU TO CONTINUE

2 **Press the PLAY/▲ button or the STOP/▼ button to select English or Spanish** as the language for on-screen displays and menus.

3 **Press the MENU button.** The screen shown below will appear.

   ![Menu Screen](menu_screen.png)

   **CONNECT ANTENNA OR CABLE TO TVCR**
   
   THEN PRESS ▲ TO END PRESS EXIT

4 **Press the F.FWD/► button to begin automatic channel setup.** The TV/VCR will memorize all available channels. When channels are set, CHANNELS ARE SET will appear on the screen briefly. Then the TV/VCR will go to the lowest available channel. If you try to set up channels when there is no antenna or cable connected to the TV/VCR, programming will appear to take place, but eventually a NO TV SIGNALS ... message will appear on the screen. Connect an antenna or cable to the ANT(enna) jack on the TV/VCR, then press the F.FWD/► button again. You may need to follow the steps on page 10 instead.

5 **Use the CH(annel) ▲▼ button or the Number buttons on the remote control to select a TV channel. Use the VOL(ume) ▲▼ button to adjust the sound.** When you scan channels with the CH(annel) ▲▼ button, only the memorized channels will be available. Use the Number buttons to select non-memorized channels.

   **Helpful Hints**
   
   - If you do not see any on-screen displays when you turn on the TV/VCR, check your hookups, then try again. If you still do not see any on-screen displays, follow the steps on pages nine-10 to select a language and set up channels.
   - To skip step 2, press the MENU button. All on-screen displays will be in English. To skip step 4, press the STATUS/EXIT button. Automatic Channel Setup will not occur, and CHANNELS NOT SET will appear on the screen briefly.
   - You cannot set up channels if you are using a Cable Box.
   - Line Input mode is channel 00. Set the TV/VCR on Line Input if you want to watch material playing on other equipment you connected to the TV/VCR’s AUDIO/VIDEO In jacks. When you select channel 00, A/V IN will appear on the screen briefly. Press the CH(annel) ▲▼ button or the Number buttons to select another channel.
Follow the steps below to change the language of the on-screen displays and menus.

1. Press the MENU button.

2. Press the PLAY/△ button or the STOP/▽ button to select PRIM. SETUP. Then, press the F.FWD/▶ button.

3. Press the PLAY/△ button or the STOP/▽ button to choose SELECT LANGUAGE. Then, press the F.FWD/▶ button.

4. Press the PLAY/△ button or the STOP/▽ button to select ENGLISH or ESPAÑOL (Spanish).

5. Press the STATUS/EXIT button.

Helpful Hint

• If you accidentally select Spanish and need English on-screen displays and menus:
  1) Press the MENU button.
  2) Press the PLAY/△ button or the STOP/▽ button to select PREPARACION, then press the F.FWD/▶ button.
  3) Press the PLAY/△ button or the STOP/▽ button to select SELECCION IDIOMA, then press the F.FWD/▶ button.
  4) Press the PLAY/△ button or the STOP/▽ button to select ENGLISH.
  5) Press the STATUS/EXIT button.
10 Automatic Channel Setup

Although the TV/VCR may automatically memorize the channels you receive when you turn it on for the first time, you may set up channels again by following the steps below.

1. **Press the MENU button.**

2. **Press the PLAY/▲ button or the STOP/▼ button to select PRIM. SETUP, then press the F.FWD/► button.**

3. **Press the PLAY/▲ button or the STOP/▼ button to select AUTO PROGRAMMING, then press the F.FWD/► button.** AUTO CH PROGRAMMING will appear on the screen. The TV/VCR distinguishes between TV channels and Cable TV channels automatically. The TV/VCR will memorize its available channels.

4. **Wait for a few minutes.** When setup is complete, CHANNELS ARE SET will appear on the screen. Then the programming of the lowest channel number will appear on the screen. Now, when you press the CH(annel) ▲/▼ button, you will scan only through channels you receive. You can still select non-memorized channels using the Number buttons.

### Helpful Hints

- Line Input mode will always be channel 00. You cannot delete it. Line Input Mode (A/V IN) is the channel to which you set the TV/VCR when you want to view programming from another source. For example, you could connect a VCR, camcorder, or DVD Player to the TV/VCR. Details are on page 31.
- You cannot select AUTO PROGRAMMING at step 3 if you are in Line Input mode.
Adding/Deleting Channels
If your channel lineup changes, you may want to add newly available channels or remove channels that are no longer available in your area. You can use the CH(annel) ▲/▼ button to scroll through only the available channels. To add or delete channels from the TV/VCR's memory, follow these steps.

1. Press the MENU button.

2. Press the PLAY/▲ button or the STOP/▼ button to select CHANNEL.

3. Press the CH(annel) ▲/▼ button or the Number buttons to select the channel you want to add or delete. The channel number will appear in the top left corner of the screen and the programming of the channel will be visible. Saved channel numbers will be yellow. Deleted channel numbers will be red.

4. Press the F.FWD/▶ button or the REW(ind)/◅ button to select SAVED (to add that channel) or DELETED (to delete that channel). Repeat steps 3-4 to add or delete other channels.

5. Press the STATUS/EXIT button. Programming of the last channel you added or deleted will appear.

Helpful Hint

- To review the memorized channels, follow these steps.
  1. Press the MENU button.
  2. Press the PLAY/▲ button or the STOP/▼ button to select PRIM. SETUP. Press the F.FWD/▶ button.
  3. Press the PLAY/▲ button or the STOP/▼ button to select CH. MEMORY REVIEW. Press the F.FWD/▶ button. A list of programmed channels will appear on the screen.
  4. If all the programmed channels don't fit on one screen, press the F.FWD/▶ button. If you do not press the F.FWD/▶ button within 10 seconds, the additional channels will appear automatically. (If there are no additional channels, the previous menu will appear.) Or press the REW(ind)/◅ button to see the previous screen of channels.
  5. Press the STATUS/EXIT button once or twice.
12 Setting the Clock

There are three ways to set the clock: Manually, with Automatic PBS Channel Selection (SmartClock), or with Manual PBS Channel Selection. With manual clock setting, you tell the TV/VCR the current time. With Automatic or Manual PBS Channel Selection, the TV/VCR gets the time from your local PBS station.

If you use either Manual PBS Channel Selection or Automatic PBS Channel Selection, follow the steps on page 19 to have the TV/VCR maintain the clock according to your Time Zone. The channel that supplies the time might be broadcasting from a different time zone. So, select your Time Zone to ensure the TV/VCR clock is correct.

Set the clock manually if you are using a Cable Box or the mobile connection. Details are on pages six - seven. To set the clock manually, follow the steps on pages 12-13. To set the clock using Automatic PBS Channel Selection, follow the steps on pages 14-15. To set the clock using Manual PBS Channel Selection, follow the steps on pages 16-17.

Before you begin, make sure:
- You have connected and turned on the TV/VCR. Details are on pages six-seven.
- Channels are set. Details are on page 10.
- Make each entry within 60 seconds of the previous entry.

Manual Clock Setting

1. Press the MENU button.
2. Press the PLAY/ button or the STOP/ button to select PRIM. SETUP. Then, press the F.FWD/ button.
3. Press the PLAY/ button or the STOP/ button to select SET CLOCK. Then, press the F.FWD/ button.

Helpful Hint

- SET TIME ZONE only appears in the SET CLOCK menu if AUTO CLOCK is ON.
Setting the Clock (cont’d) 13

4 Press the PLAY/ button or the STOP/ button to select SET MANUAL CLOCK, then press the F.FWD/ button.

5 Press two Number buttons for the hour(s) and two Number buttons for the minute(s). Then press 1 for AM or 2 for PM. For example, for 9:30 PM, press 09, 30, 2.

6 Press two Number buttons for the month, two Number buttons for the day, and two Number buttons for the year. For example, for July 14, 2002, press 07, 14, 02. The day of the week will appear automatically.

7 Press the STATUS/EXIT button.

Helpful Hints

- Entries that do not match the TV/VCR’s clock or calendar will cause a question mark (?) to appear on the screen.
- To make corrections while you are setting the clock, press the CLEAR button until the space for the number you want to correct is flashing. Then enter the correct number.
14 Setting the Clock (cont’d)

Automatic PBS Channel Selection

1 Press the MENU button.

2 Press the PLAY/.ua button or the STOP/ button to select PRIM. SETUP. Then, press the F.FWD/> button.

3 Press the PLAY/ua button or the STOP/ button to select SET CLOCK. Then, press the F.FWD/> button.

4 If ON appears beside AUTO CLOCK, press the MENU button. If OFF appears beside AUTO CLOCK, press the PLAY/ua button or the STOP/ button to select AUTO CLOCK, then press the F.FWD/> button so that ON appears to the right of AUTO CLOCK. Then, press the MENU button.

Helpful Hints

• If you use the mobile connections described on page seven, you cannot use the AUTO CLOCK function.
• SET TIME ZONE only appears in the SET CLOCK menu if AUTO CLOCK is ON.
Setting the Clock (cont’d)

5 Press the PLAY/▶ button or the STOP/▼ button to select SET PBS CH. AUTO. Then, press the F.FWD/▶ button.

6 NOW SEARCHING flashes on the TV/VCR screen.

7 When the TV/VCR finds the PBS channel, the time will appear on the screen. Press the STATUS/EXIT button.

8 When the clock is set, go to page 19 and set the TV/VCR clock for your time zone. The channel that supplies the time might be broadcasting from a different time zone. So, select your Time Zone to ensure the TV/VCR clock is correct.

Helpful Hints

• To display the time on the TV/VCR screen, press the STATUS/EXIT button. Details are on page 26.
• You cannot use the AUTO CLOCK feature if you don’t receive a PBS channel that carries a time signal in your area. Set the clock manually.
16 Setting the Clock (cont’d)

Manual PBS Channel Selection

1 Press the MENU button.

2 Press the PLAY/▲ button or the STOP/▼ button to select PRIM. SETUP. Then, press the F.FWD/▶ button.

3 Press the PLAY/▲ button or the STOP/▼ button to select SET CLOCK. Then, press the F.FWD/▶ button.

4 If ON appears beside AUTO CLOCK, press the MENU button.
If OFF appears beside AUTO CLOCK, press the PLAY/▲ button or the STOP/▼ button to select AUTO CLOCK, then press the F.FWD/▶ button so that ON appears to the right of AUTO CLOCK. Then, press the MENU button.

Helpful Hint

• If AUTO CLOCK is OFF, SET TIME ZONE will not appear in the SET CLOCK menu.
• If you use the mobile connections described on page seven, you cannot use the AUTO CLOCK function.
Setting the Clock (cont'd)

5 Press the PLAY/ button or the STOP/ button to select SET PBS CH. MANUAL. Then, press the F.FWD/ button.

6 Use the Number buttons to enter your PBS station.

7 NOW SEARCHING flashes on the TV/VCR screen.

8 When the TV/VCR finds the clock data, the time will appear on the screen. Press the STATUS/EXIT button.

If CANNOT FIND CLOCK DATA flashes on the TV/VCR screen and you know another PBS channel, press the PLAY/ button or the STOP/ button to choose SELECT NEW PBS CH. Then, press the F.FWD/ button. Repeat step 6.

If CANNOT FIND CLOCK DATA flashes on the TV/VCR screen and you do not know another channel, press the PLAY/ button or the STOP/ button to select SET PBS CH. AUTO. Then, press the F.FWD/ button. The TV/VCR will search for the PBS channel automatically.

- If the TV/VCR finds the PBS channel, the time will appear on the screen.
- If the TV/VCR does not find the PBS channel, you will be prompted to turn off the TV/VCR. Leave it off for several minutes. Make sure the antenna or cable is connected securely to the TV/VCR's ANT jack. When you turn on the TV/VCR again, the time will be set.

9 When the clock is set, go to page 19 and set the TV/VCR clock for your time zone. The channel that supplies the time might be broadcasting from a different time zone. So, select your Time Zone to ensure the TV/VCR clock is correct.

Helpful Hints

- If you have an Antenna hookup, you may select channels 2-69 at step 6. If you have Cable TV, you may select channels 1-125 at step 6. Details about available channels are on page 11.
- To display the time on the TV/VCR screen, press the STATUS/EXIT button.
18 Daylight-Savings Time

When the Daylight-Savings Time feature is ON, the TV/VCR clock will automatically move forward one hour on the first Sunday in April and move back one hour on the last Sunday in October.

To turn Daylight-Savings Time ON or OFF, follow the steps below.

1. Press the MENU button.

2. Press the PLAY/\(\uparrow\) button or the STOP/\(\downarrow\) button to select PRIM. SETUP. Then, press the F.FWD/\(\rhd\) button.

3. Press the PLAY/\(\uparrow\) button or the STOP/\(\downarrow\) button to select SET CLOCK. Then, press the F.FWD/\(\rhd\) button.

4. Press the PLAY/\(\uparrow\) button or the STOP/\(\downarrow\) button to select DAYLIGHT SVG.TIME. Then, press the F.FWD/\(\rhd\) button so that ON or OFF appears beside DAYLIGHT SVG. TIME (Daylight Savings Time).

5. Press the STATUS/EXIT button.

Helpful Hint

- If you use the mobile connections described on page seven, you cannot use Daylight-Savings Time.
When you set the clock using AUTO CLOCK, specify your time zone.

1. Press the MENU button.

2. Press the PLAY/△ button or the STOP/▽ button to select PRIM. SETUP. Then, press the F.FWD/▷ button.

3. Press the PLAY/△ button or the STOP/▽ button to select SET CLOCK. Then, press the F.FWD/▷ button.

4. Press the PLAY/△ button or the STOP/▽ button to select SET TIME ZONE. Then, press the F.FWD/▷ button.

5. Press the PLAY/△ button or the STOP/▽ button to select your time zone. ON will appear beside your choice.

6. Press the STATUS/EXIT button twice.

7. Press the POWER button to turn off the TV/VCR. Wait a few minutes for the clock to adjust to your time zone.

Helpful Hints

- If you select AUTO at step 5, the TV/VCR will set the clock according to the time zone data of the PBS station it finds.
- You cannot select SET TIME ZONE at step 4 if AUTO CLOCK is OFF.
20 Front Panel

Cassette Compartment
Insert a video cassette tape here.

Wireless Remote Sensor
Receives a signal from your remote control so you can operate the TV/VCR from a distance.

REC (record) Light
This light appears during a recording. It flashes slowly when the TV/VCR power is off for a timer recording. It blinks rapidly when a recording is paused or when the power is off for a timer recording, but there is no tape in the TV/VCR. It will blink rapidly two minutes before a timer recording is set to begin if the TV/VCR power is on.

VIDEO In Jack
Connect this jack to the video out jack of a camcorder or a VCR. Details are on page 31.

AUDIO In Jack
Connect this jack to the audio out jack of a camcorder or a VCR. Details are on page 31.

POWER Button
Press to turn the power on or off.

STOP/EJECT Button
Press once to stop the tape. When playback is stopped, press to eject the tape. Press to select an item in the menu.

REW(ind) Button
When tape playback is stopped, press to rewind the tape at high speed. During playback, press to rewind the tape while the picture stays on the screen. Press to change a setting of a menu item (for example, to adjust the BRIGHTNESS) or to return to a previous menu.

PLAY Button
Press to play a tape. Details are on page 28. Press to release Search or Still mode and return to normal playback. Details are on page 41. Press to select an item in the menu.

F.FWD (Fast Forward) Button
When tape playback is stopped, press to fast forward the tape at high speed. During playback, press to fast forward the tape while the picture stays on the screen. Press to change a setting of a menu item (for example, to adjust the BRIGHTNESS) or to advance to the next menu.

REC(ord)/OTR Button
Press once to start a recording. Details are on page 29. Press repeatedly to start a One-Touch Recording (an immediate timed recording, 30 minutes to eight hours long) of the channel you are watching. Details are on page 30.

Screen Cover
The TV/VCR screen is protected by a removable screen cover. If you want to remove the screen cover, slide in the two tabs that hold the cover in place, then pull off the cover.
Antenna Hole
Connect the base of the stem of the supplied rod antenna here. Details are on pages six-seven.

ANT(enna) Jack
Connect your antenna or cable here. Details are on pages six-seven.

AC 120V Jack
Connect the AC power cord here. Details are on page six.

DC 13.2V Jack
Connect the car battery cord here. Details are on page seven.
22 Remote Control Buttons

SLEEP/WAKE UP Button
Press to set the Sleep Timer. Details are on page 43. Press to set the Wake Up Timer. Details are on page 44.

POWER Button
Press to turn on or off the TV/VCR.

PLAY/△ Button
Press to play a tape. Details are on page 28. Press to release Search or Still mode and return to normal playback. Details are on page 41. Press to select an item in the menu.

REW(ind)/▼ Button
When tape playback is stopped, press to rewind the tape at high speed. During tape playback, press to rewind the tape while the picture stays on the screen. Details are on page 41. Press to change a setting of a menu item or to return to a previous menu.

MENU Button
Press to display the main menu. You also may use the buttons on the front of the TV/VCR to access the main menu. Details are on page 20.

Number Buttons
Use to select channels and to program TV/VCR functions (such as setting the clock).

• Cable Users
Enter channel numbers as a two-digit number for the quickest results. For example, to select channel 6, press 0,6. If you only press the Number 6 button, channel 6 will be selected after a brief delay. (There also may be a brief delay when you select channels 10, 11, and 12.) If you want to select channels 100 and above, enter channel numbers as a three-digit number. For example, to select channel 117, press 1, 1, 7.

• Antenna Users
Enter channel numbers as a two-digit number for the quickest results. For example, to select channel 5, press 0,5. If you only press the Number 5 button, channel 5 will be selected after a brief delay. You may only select channels 2-69.

SPEED Button
Press to select the recording speed (SP or SLP).

REC(ord)/OTR Button
Press once to start a recording. Details are on page 29. Or, press repeatedly to start a One-Touch Recording (an immediate timed recording, 30 minutes to eight hours long) of the channel you are watching. Details are on page 30.

VOL(ume) ▲/▼ Button
Press to adjust the sound level. If you press the VOL(ume) ▲/▼ buttons when the sound is muted, the sound will be restored.

CH(annel) ▲/▼ Button
Press to scan through the TV/VCR's available channels.

F.FWD/► Button
When tape playback is stopped, press to fast forward the tape at high speed. During tape playback, press to fast forward the tape while the picture stays on the screen. Details are on page 41. Press to change the setting of a menu item or to go to the next menu.
CLEAR Button
Press to erase incorrect data when programming TV/VCR functions. Also, press to reset the real-time tape counter to 0:00:00. Details are on page 40.

STATUS/EXIT Button
Press to access or remove the status display. Details are on page 26. Press to remove the menu.

STOP/▽ Button
Press to stop the tape. Press to select an item in the menu.

ALT. CH (Alternate Channel) Button
Press to return to the TV channel you were viewing immediately before switching to your current channel.

MEMORY Button
Press to memorize a tape position at which you set the real-time tape counter to 0:00:00. Details are on page 40. Or, press to memorize the start and end positions on a tape when setting up A-B Repeat Play. Details are on pages 38-39.

TRACKING ▲▼ Buttons
Press during tape playback to adjust the tracking. Details are on page 46.

PAUSE/STILL Button
During recording, press to temporarily stop the recording. Press again to resume recording. Details are on page 29. You cannot pause a One-Touch Recording.
During tape playback, press to freeze the picture (still). Each time you press the PAUSE/STILL button, the noise lines will change position on the screen. Details are on page 41.

MUTE Button
Press to eliminate the TV/VCR’s sound. Press again to return to the previous volume level.
24 Adjusting the Picture Controls

Follow these steps to adjust the TV/VCR’s brightness, picture, color, tint, and sharpness.

1. Press the MENU button.

2. Press the PLAY/ button or the STOP/ button to select the desired control (BRIGHTNESS, for example).

3. Press the REW(ind)/ button or the F.FWD/ button to adjust the picture control. (Refer to the chart on page 25.)

4. When you finish, press the STATUS/EXIT button.

**Helpful Hints**

- The menus on page 25 will disappear if you do not make adjustments within 60 seconds.
- The original settings will probably give you the best picture quality.
- To reset the picture controls to the original settings, press the MENU button, then press the PLAY/ button or the STOP/ button to select TV RESET, then press the F.FWD/ button. TV RESET COMPLETED will appear on the screen briefly.
Adjusting the Picture Controls (cont’d) 25

Press the REW (ind)/↑ button to decrease a picture control. Press the F.FWD/↓ button to increase a picture control.

Press the STOP/▼ button

Press the PLAY/▲ button
26 On-Screen Status Displays

A status display will appear when you press the STATUS/EXIT button or certain function buttons. The contents of the status display will vary. To choose the status display mode, follow the steps below.

If you select STATUS ON, then select COUNTER ONLY OFF:
- Whenever you press the STOP/ button or the PLAY/ button, the status display will appear for five seconds. Portions of the status display also may appear when you press other function buttons.

If you select STATUS ON, then select COUNTER ONLY ON:
- Whenever you press the PLAY/ button, the status display will appear for five seconds. After five seconds, only the counter will remain on the screen. Portions of the status display also may appear when you press other function buttons.

If you select STATUS OFF:
- The status display will not appear when you press function buttons. You must press the STATUS/EXIT button to see the status display.

1 Press the MENU button.

2 Press the PLAY/ button or the STOP/ button to select VCR SETUP, then press the F.FWD/ button.

3 Press the PLAY/ button or the STOP/ button to select ON-SCREEN MODE, then press the F.FWD/ button.

4 Press the PLAY/ button or the STOP/ button to select STATUS, then press the F.FWD/ button so that ON or OFF appears beside STATUS.

5 If you set STATUS to OFF, go to step 6. If you set STATUS to ON, press the PLAY/ button or the STOP/ button to select COUNTER ONLY, then press the F.FWD/ button so that ON or OFF appears beside it.

6 Press the STATUS/EXIT button.
The TV channel number will remain on the screen during TV channel viewing when you set REMINDER to ON. Set REMINDER to ON or OFF by following the steps below.

1. Press the MENU button.

2. Press the PLAY/\ button or the STOP/V button to select REMINDER.

3. Press the REW (ind)/ button or the F.FWD/ button to select ON or OFF. Each press of the REW (ind)/ button or the F.FWD/ button turns REMINDER ON or OFF.

4. Press the STATUS/EXIT button.
### Playing

Follow the steps below to play a tape.

1. **Insert a tape in the TV/VCR.** The power will come on. If the tape’s record tab is missing, playback should start automatically.

2. **If playback does not start automatically,** press the PLAY/ button to start playback.

3. **Press the STOP/ button to stop playback.**

4. **Press the Rew(ind)/ button to rewind the tape.**

5. **When the tape finishes rewinding,** press the STOP/EJECT button on the TV/VCR to remove the tape.

### S-VHS Quasi Play Back (SQPB)

SQPB allows you to view a tape recorded in S-VHS format. An S-VHS format tape will play the same as a normal format tape. This unit detects whether the tape is in S-VHS format or normal format.

### Helpful Hints

- If the tape you want to play is already in the TV/VCR, turn on the TV/VCR power, then press the PLAY/ button.
- Playback features and options are on pages 37-41.
- When you play an S-VHS format tape, you cannot get the high resolution available on an S-VHS VCR. Noise lines (black and white streaks) may appear in the picture.
- Playback is not possible if moisture has condensed in the TV/VCR. Details are on page 48.
Read and follow the steps below to record a TV program.

1. Place a tape with its record tab intact (see page five) in the TV/VCR. The power will come on. If the tape is already in the TV/VCR, press the POWER button to turn on the TV/VCR, if necessary.

2. Press the SPEED button until the desired tape speed (SP or SLP) appears on the TV/VCR screen. See tape speed details below.

3. Use the CH(annel) ▲/▼ button or the Number buttons to select the channel you want to record. You cannot change channels during recording.

4. Press the REC(ord)/OTR button once to start recording. The REC (record) light will glow. If there is not a tape in the TV/VCR, NO CASSETTE flashes on the screen briefly. If the tape does not have a record tab, PROTECTED CASSETTE CANNOT RECORD flashes on the screen briefly. The TV/VCR will eject the tape. Cover the tab with cellophane tape or insert another cassette.

5. To pause the recording (for example, during commercials), press the PAUSE/STILL button. The REC (record) light will flash. To resume recording, press the PAUSE/STILL button again or the REC(ord)/OTR button. The REC (record) light will glow.

6. To stop recording, press the STOP/ ▼ button.

### Helpful Hints
- You cannot record one channel while watching another.
- Recording options are on pages 30-36.
- You cannot record if DEFEAT RECORDING is ON. (REC DEFEATED will flash on the screen.) Details are on page 36.
- If you pause a recording for more than five minutes, the TV/VCR will switch to Stop mode automatically to protect the video cassette tape from damage.
- You can change the tape speed with the SPEED button while a recording is in progress, but some distortion may appear on the tape.
- If you press the REC(ord)/OTR button during tape playback, recording of the current TV channel will begin immediately.

---

### Tape Speeds
This chart shows the recording/playback time for three types of video cassettes (T160, T120, and T60). There are three playback speeds: SP, LP, and SLP. A tape will play only in the speed in which it was recorded. When recording, you can change the tape speed using the SPEED button. You cannot record in LP speed. The slower the speed, the more programming you can fit on the tape. SLP is the slowest speed.

30 One-Touch Recording

A One-Touch Recording (OTR) is an immediate timed recording from 30 minutes to eight hours long. Before you begin, make sure:

- Channels are set. Details are on page 10.
- A tape is in the TV/VCR. The record tab must be intact.

1. Use the CH(annel) ▲/▼ button or the Number buttons to select the channel you want to record.

2. Press the SPEED button until the desired recording speed (SP or SLP) appears on the screen. Details are on page 29.

3. Press the REC(ord)/OTR button repeatedly until the desired recording length appears in the upper right corner of the screen. Recording will begin immediately. The REC (record) light will appear on the front of the TV/VCR. The TV/VCR will turn itself off at the end of the OTR.

4. To stop an OTR before recording is finished, press the STOP/EJECT button on the front of the TV/VCR. Or, press the REC(ord)/OTR button, then press the CLEAR button, then press the STOP/EJECT button on the remote control.

Helpful Hints

- To check the time remaining for an OTR, press the STATUS/EXIT button.
- To change the recording length while an OTR is in progress, press the REC(ord)/OTR button until the desired recording length appears on the screen.
- You cannot pause an OTR.
- To cancel an OTR but continue recording, press the REC(ord)/OTR button, then press the CLEAR button.
- You cannot record if DEFEAT RECORDING is ON. Details are on page 36.
- You can change the tape speed with the SPEED button while a recording is in progress, but some distortion may appear on the tape.
Rerecording (Tape Duplication) 31

Make the connections shown above, using audio and video cables (not supplied). Connect the source unit (VCR, DVD Player, or camcorder) to a power source after connections are made.

1. Make the connections shown above, using audio and video cables (not supplied). Connect the source unit (VCR, DVD Player, or camcorder) to a power source after connections are made.

2. The source unit will play your tape. Insert a prerecorded tape in the source unit. If playback begins, press the STOP button on the unit.

3. The TV/VCR will record your tape. Insert a blank tape in the TV/VCR. Make sure the tape's record tab is intact. The TV/VCR power will turn on automatically.

4. Point the TV/VCR remote control at the TV/VCR. Press Number buttons 0, 0 so that A/V IN appears on the screen. The TV/VCR is now in Line Input mode.

5. Point the TV/VCR remote control at the TV/VCR. Press the SPEED button until the desired tape speed (SP or SLP) appears on the screen.

6. Press the PLAY button on the source unit and the REC(ord)/OTR button on your TV/VCR at the same time. Copying will begin.

7. To stop copying, press the STOP/EJECT button on the TV/VCR, then stop the tape on the source unit (VCR, DVD Player, or camcorder).

Helpful Hints

- Unauthorized recording of copyrighted television programs, video tapes, or other materials may infringe on the rights of copyright owners and violate copyright laws.
- Different brands of equipment may operate differently.
- Make sure all connections are secure. Otherwise, you may not record both picture and sound.
- Programs that are copyright protected may not record clearly.
- You can use this connection, too, if you want to watch programming from another piece of video equipment. For example, connect a VCR, DVD player, or camcorder to the TV/VCR as shown above. Select channel 00 (A/V IN) at the TV/VCR, then press PLAY on the other equipment.
32 Timer Recording

Follow the steps below to program the TV/VCR to record TV programs while you're away from home. Before you begin, make sure:

- The clock is set. If not, CLOCK MUST BE SET appears when you try to select VCR PROGRAM, followed by the SET CLOCKS menu. Details are on pages 12-17.
- Channels are set. Details are on page 10.
- A tape is in the TV/VCR. Make sure the tape’s record tab is intact and the tape is long enough to record the program.

Complete each step within 60 seconds of completing the previous step. If you don’t, you may start again at step 1.

1 Press the MENU button.

2 Press the PLAY/ button or the STOP/ button to select VCR PROGRAM, then press the F.FWD/ button.

3 Press the PLAY/ button or the STOP/ button to select a ONCE, DAILY, OR WEEKLY recording. Then, press the F.FWD/ button.

- ONCE: The TV/VCR will record a TV program on any day you choose, up to 12 months away.
- DAILY: The TV/VCR will record every day from Monday to Friday – starting at the same time and recording the same channel for the same length of time.
- WEEKLY: The TV/VCR will record the same channel on the same day, at the same time, and for the same length of time every week.

Helpful Hints

- With ShowGuard, you don’t have to worry about losing your timer recordings. If the power fails, timer recordings will be restored when the clock is reset. (The clock will reset itself automatically if you are using AUTO CLOCK. Details are on pages 14-17. If you are not using AUTO CLOCK, reset the clock manually. Details are on pages 12-13.) The timer recording will not occur only if it was scheduled to take place during the power failure.
- You cannot set a timer recording if DEFECT RECORDING is ON. Details are on page 36.
4 Use the Number buttons (1-8) to select a position in which to store the timer recording. Flashing numbers indicate an open position (one in which a timer recording has not been stored yet). NOTE: If you select a number that already has been used to store a timer recording, PREVIOUSLY SET PROGRAM will appear on the screen for a few seconds. Then information about the program in that position will appear on the screen. If this happens, press the STATUS/EXIT button. Then use the Number buttons to select another position.

5 Use the Number buttons to enter the channel of the TV program you want to record.
- If you are recording from line input, press 0, 0. A/V IN will appear on the screen.
- If you are recording using a Cable Box, enter the Cable Box output channel (03 or 04). Set the TV/VCR to channel 3 or 4 and be sure to select the channel of the TV program at the Cable Box. Leave the Cable Box on for the timer recording.

6 Press two Number buttons for the hour(s) you want the recording to begin. Press two Number buttons for the minute(s) you want the recording to begin. Press 1 for AM or 2 for PM. For example, for 9:30 PM, press 09, 30, 2.

7 Follow the instructions in step 6 to set the recording’s stop time. (AM or PM will be set automatically.)

Instructions continue on page 34.
34 Timer Recording (cont'd)

Press the Number 1 button to record in SP speed or press the Number 2 button to record in SLP speed. Details about tape speed are on page 29. You cannot use the SPEED button at this time.

Press two Number buttons for the month and two Number buttons for the day you want the program to record. For example, for July 16, 2002, press 07, 16. The day of the week and the year will appear automatically. (You cannot program the TV/VCR to record more than one year in advance.)

Press the STATUS/EXIT button. PROGRAM WAS COMPLETED PLEASE TURN OFF FOR TIMER RECORDING will appear on the screen.
  • If there is not a tape in the TV/VCR, PLEASE INSERT CASSETTE also appears on the screen.
  • If there is a tape without a record tab in the TV/VCR, PLEASE REMOVE CASSETTE also appears on the screen. If this happens, insert a different tape.
  • If PROGRAM NOT COMPLETED appears, start again at step 1.

Press the POWER button to turn off the TV/VCR power. The REC (record) light on the front of the TV/VCR will flash slowly. (If no tape is in the TV/VCR, the REC (record) light will blink rapidly.) If you forget to turn off the TV/VCR, PLEASE TURN OFF FOR TIMER RECORDING appears on the TV/VCR screen two minutes before a timer recording should begin.

HELPFUL HINTS
• PROGRAM NOT COMPLETED / CLASH may appear on the screen when you finish setting a timer recording. This means the timer recording you just tried to program overlaps with another timer recording. The timer recording you just tried to set will not occur. Cancel the other timer recording in order to set the new one.
• To stop a timer recording that is in progress, press the STOP/EJECT button on the front of the TV/VCR once. The TV/VCR power will turn on automatically.

Please see page 48 for more Helpful Hints.
Checking or Clearing Timer Recordings

1. With the TV/VCR on, press the MENU button.

2. Press the PLAY/▲ button or the STOP/▼ button to select VCR PROGRAM, then press the F.FWD/► button.

3. Press the PLAY/▲ button or the STOP/▼ button to select PROGRAM REVIEW, then press the F.FWD/► button. The timer recording information for the program in the lowest numbered position will appear on the screen. If no timer recordings are programmed, nothing will happen when you select PROGRAM REVIEW and press the F.FWD/► button.

4. Press the F.FWD/► button to display information about the next timer recording. (If you do not press a button within 10 seconds, information about the next timer recording will appear automatically.) This will continue until all positions have been displayed. Then, the menu will disappear. You can exit the Program Review at any time by pressing the STATUS/EXIT button.

5. To cancel the timer recording displayed, press the CLEAR button. Either the display will disappear or information about other timer recordings will appear. If you do not press any other buttons, the display will disappear after all timer recordings have been displayed.

6. Repeat steps 1-4 to make sure you cleared the correct recording.

Helpful Hint

With ShowGuard, you don't have to worry about losing your timer recordings. If the power fails, timer recordings will be restored when the clock is reset. (The clock will reset itself automatically if you are using AUTO CLOCK. Details are on pages 14-17. If you are not using AUTO CLOCK, reset the clock manually. Details are on pages 12-13.) The timer recording will not occur only if it was scheduled to take place during the power failure.
36 Defeat Recording

Follow the steps below to prevent accidental recording.

1. Press the MENU button.

2. Press the PLAY/ button or the STOP/ button to select VCR SETUP, then press the F.FWD/ button.

3. Press the PLAY/ button or the STOP/ button to select DEFEAT RECORDING, then press the F.FWD/ button so that ON appears beside DEFEAT RECORDING.

4. Press the STATUS/EXIT button.

5. Now, REC DEFEATED will flash on the screen when you press the REC(ord)/OTR button.

Helpful Hints

- If you set DEFEAT RECORDING to ON after you program a timer recording, the timer recording will not occur.
- You cannot program a timer recording if DEFEAT RECORDING is ON.
- To set DEFEAT RECORDING to OFF, repeat steps 1-2 above. At step 3, press the PLAY/ button or the STOP/ button to select DEFEAT RECORDING, then press the F.FWD/ button so that OFF appears beside DEFEAT RECORDING. Press the STATUS/EXIT button.
- You cannot change the DEFEAT RECORDING setting during a recording.
Follow the steps below to program the TV/VCR to play a tape over and over.

1. **Press the MENU button.**

2. **Press the PLAY/\ button or the STOP/\ button to select VCR SETUP, then press the F.FWD/\ button.**

3. **Press the PLAY/\ button or the STOP/\ button to select REPEAT PLAY, then press the F.FWD/\ button so that ON appears beside REPEAT PLAY.**

4. **Press the STATUS/EXIT button.** Now, when a tape finishes playing, the TV/VCR will rewind it and start playback again. (TV programming will appear while the tape is rewinding.)

---

**Helpful Hints**

- The TV/VCR will stay in Repeat Play mode until you set ONE TIME PLAY to ON, even if you turn off the TV/VCR. To set ONE TIME PLAY to ON, follow steps 1-2 above. Then, press the PLAY/\ button or the STOP/\ button to select ONE TIME PLAY. Press the F.FWD/\ button so that ON appears beside ONE TIME PLAY. Then, press the STATUS/EXIT button.

- The real-time tape counter memory will not function during Repeat Play.
38 A-B Repeat Play

Follow the steps below to program the TV/VCR to play the material between two specified points (A and B) on a tape repeatedly.

1 Insert a tape in the TV/VCR.

2 Press the MENU button.

3 Press the PLAY/ button or the STOP/ button to select VCR SETUP, then press the F.FWD/ button.

4 Press the PLAY/ button or the STOP/ button to select REPEAT PLAY.

5 Press the F.FWD/ button repeatedly so that A-B appears beside REPEAT PLAY.

Helpful Hints

• To cancel A-B Repeat Play, set ONE TIME PLAY to ON. Follow steps 2-3 above. Then, press the PLAY/ button or the STOP/ button to select ONE TIME PLAY. Press the F.FWD/ button so that ON appears beside ONE TIME PLAY. Then, press the STATUS/EXIT button.

• The end position (B) must be later on the tape than the start position (A).
A-B Repeat Play (cont'd) 39

6 Press the STATUS/EXIT button to remove the menu. A-B REPEAT will appear on the screen. Beneath it, the letter A will flash beside the real-time tape counter.

7 Play, fast forward, or rewind the tape to the position at which you want to begin playback. Stop the tape, then press the MEMORY button to set the start position (A). The flashing A will become a flashing B and the counter will reset to 0:00:00.

8 Play or fast forward the tape to the position at which you want playback to end. Stop the tape, then press the MEMORY button to set the end position (B). The length of time between the start position (A) and the end position (B) must be at least three minutes.

9 The TV/VCR will immediately rewind the tape to the start position (A) and repeat playback to the end position (B) over and over. (TV programming will appear while the tape is rewinding.)

Helpful Hints

- The counter cannot be memo- rized or reset when you are using this feature.
- A-B Repeat Play will be cancelled if you eject the tape or press the REC(ord)/OTR button.
- A-B REPEAT will not appear on the screen at step 6 if a tape is not in the TV/VCR. NO CAS- SETTE will flash on the screen briefly.
- You cannot rewind or fast for- ward beyond points A or B when you are using this feature.
- A-B Repeat Play will be retained if you turn off the TV/VCR power.
40 Real-Time Tape Counter Memory

Follow the steps below to reset the real-time tape counter to zero at a tape location you want to refer to later.

1. Play, fast forward, or rewind a tape to the location that you would like to refer to later. Stop the tape.

2. Press the STATUS/EXIT button. The real-time tape counter will appear on the screen.

3. While the counter remains on the screen, press the CLEAR button to reset the counter to zero.

4. While the counter remains on the screen, press the MEMORY button so that M appears on the screen. To erase a counter memory, press the MEMORY button so that the M disappears from the screen.

5. To go to the tape location where you set the counter to zero, press the REW (ind)/ button or the F.FWD/ button when playback is stopped. When the tape reaches the point at which you set the counter to zero, the tape will stop. Press the PLAY/ button to watch the tape.

Helpful Hints

- The real-time tape counter memory will not function during Repeat Play or A-B Repeat Play. Details are on pages 37-39.
- You may only set one real-time tape counter memory at a time. If you set the counter to zero at a second location, the previous zero setting will be lost.
- The counter automatically resets to zero when you insert a tape.
Forward and Reverse Searching (SP/LP/SLP)

1. During tape playback, press and release the F.FWD/ button or the REW (ind)/ button. A fast forward or reverse picture search will begin.

2. To return to normal playback, press the PLAY/ button.

Super High Speed Searching (LP/SLP)

1. During tape playback, press the F.FWD/ button or the REW (ind)/ button, then press again. The TV/VCR will now search the tape in super high speed. Press the F.FWD/ button or the REW (ind)/ button repeatedly to switch between regular and super high speed searching.

2. To return to normal playback, press the PLAY/ button.

Viewing a Still Picture

1. During tape playback, press the PAUSE/STILL button. A still picture will appear on the screen. The noise lines will move each time you press the PAUSE/STILL button, and the tape will advance slightly.

2. To release the still picture and return to normal playback, press the PLAY/ button.

Helpful Hints

- Still mode will automatically switch to Stop mode after five minutes to protect the TV/VCR and the tape from damage.
- SP/LP/SLP means this feature will work with tapes recorded in Standard Play, Long Play, or Super Long Play. For details about tape speed, see page 29.
- LP/SLP means this feature will work with tapes recorded in Long Play and Super Long Play. For details on tape speed, see page 29.
- During forward and reverse searching, horizontal noise bars will appear on the TV/VCR screen.
- Tapes recorded in SLP speed will have the clearest picture during forward and reverse searching and Still mode.
- After a search or a still picture, there may be a brief blue screen before playback resumes.
42 Blue Background

If you want the TV screen to be solid blue when a weak signal is received, set BLUE BACKGROUND to ON. The screen will be blue and the sound will be muted. Or, if you want to receive the weak signal, set BLUE BACKGROUND to OFF. When you select a channel that is receiving a weak signal, you will see and hear the static in the TV programming.

To set BLUE BACKGROUND to ON or OFF, follow the steps below.

1. Press the MENU button.

2. Press the PLAY/ button or the STOP/ button to select VCR SETUP, then press the F.FWD/ button.

3. Press the PLAY/ button or the STOP/ button to select BLUE BACKGROUND. Then, press the F.FWD/ button repeatedly so that OFF or ON appears beside BLUE BACKGROUND.

4. Press the STATUS/EXIT button.

--Helpful Hint--

• A blue screen may appear briefly between channel changes if BLUE BACKGROUND is ON. To avoid having the brief blue screen, set BLUE BACKGROUND to OFF. You may see static between channel changes if BLUE BACKGROUND is OFF.
Sleep Timer 43

Use the sleep timer to program the TV/VCR to shut off in a certain amount of time.

1. **Press the SLEEP/WAKE UP button** (located on the upper right corner of the remote).

2. **Press the PLAY/↑ button or the STOP/↓ button to select SLEEP. Then press the REW(ind)/◄ button or the F.FWD/► button to select 30 MIN(utes), 60 MIN(utes), 90 MIN(utes), or 120 MIN(utes). (You cannot set the sleep timer during a recording.)**

3. **Press the STATUS/EXIT button.** The TV/VCR will shut itself off after the specified amount of time. One minute before the TV/VCR shuts itself off, the seconds will count down on the screen. **GOOD NIGHT** appears on the TV/VCR screen 10 seconds before the TV/VCR shuts itself off.

**Helpful Hints**

- To cancel the sleep timer, press the SLEEP/WAKE UP button. Press the PLAY/↑ button or the STOP/↓ button to select SLEEP, then press the REW(ind)/◄ button or the F.FWD/► button to select OFF. Press the STATUS/EXIT button.
- To see how much time remains before the TV/VCR shuts itself off, press the SLEEP/WAKE UP button once. The remaining time will appear beside SLEEP. To remove the display, press the STATUS/EXIT button.
- If you start a recording after you set the Sleep Timer, the Sleep Timer will be cancelled.
44 Wake Up Timer

The Wake Up Timer turns on the TV/VCR automatically at a specified time within the next 24 hours. You may set the TV/VCR to turn on at a TV channel (the channel at which the TV/VCR was set last) or with VCR playback. To set the Wake Up Timer, follow the steps below. Before you begin:

- Set the clock. If the clock is not set, CLOCK MUST BE SET will appear on the screen after you select WAKE UP at step 2. Then the SET CLOCK menu will appear. Details are on pages 12-17.
- Put a tape in the TV/VCR if you want the TV/VCR to start tape playback at the specified time.
- Make sure no timer recordings are set for the time at which you want the TV/VCR power to come on.

1. Press the SLEEP/WAKE UP button.

2. Press the PLAY/○ button or the STOP/□ button to select WAKE UP. Then, press the REW(ind)/SSH button or the F.FWD/BB button to select TV ON or VCR ON.

3. Press the PLAY/▲ button or the STOP/▼ button to select ON-TIME. Then, press the REW(ind)/SSH button or the F.FWD/BB button to select your desired wake up time. Each press of the REW(ind)/SSH button or the F.FWD/BB button will increase (or decrease) the time by 10 minutes.

4. Press the STATUS/EXIT button.

5. Press the POWER button to turn off the TV/VCR. The TV/VCR will turn itself on at the specified time.

Helpful Hint

- To cancel the Wake Up Timer, press the SLEEP/WAKE UP button. Press the PLAY/▲ button or the STOP/▼ button to select WAKE UP. Then, press the REW(ind)/SSH button or the F.FWD/BB button to select OFF. Press the STATUS/EXIT button.
Volume Bar 45

When VOLUME BAR is ON, the volume indicators appear briefly when you adjust the volume and MUTE appears on the TV/VCR screen when the volume is muted. If you do not want to see these indicators, set VOLUME BAR to OFF.

1. Press the MENU button.

2. Press the PLAY/ button or the STOP/ button to select PRIM. SETUP. Then, press the F.FWD/ button.

3. Press the PLAY/ button or the STOP/ button to select VOLUME BAR, then press the F.FWD/ button. Each press of the F.FWD/ button will turn the VOLUME BAR ON or OFF.

4. Press the STATUS/EXIT button.
46 Automatic Operation Features

The following playback features will always operate.

Automatic Playback
When you put a tape in the TV/VCR, the power will come on automatically. If the tape's record tab is missing, playback will begin. If a timer recording is set, the power will not come on automatically when you insert a tape with the record tab intact. If a timer recording is set and the TV/VCR power is off, the TV/VCR will eject the tape if the record tab is missing.

Automatic Rewind, Eject, Off
When you play, fast forward, or record a tape to its end, the TV/VCR will rewind the tape, stop, turn itself off, and eject the tape. If a real-time tape counter memory is set, the TV/VCR may only rewind the tape to the point at which the real-time counter is set to zero. In this case, the TV/VCR will not turn itself off or eject the tape.

Tape Eject
A tape can be ejected with the TV/VCR power on or off (but the TV/VCR must be plugged in). If a timer recording is programmed, a tape cannot be ejected when the power is off. Turn on the TV/VCR power, then eject the tape. Be sure to insert a tape and turn off the TV/VCR power for the timer recording.

Automatic Tracking Adjustment
The TV/VCR automatically adjusts the tape tracking to give you the best possible picture quality. With some recordings, however, you may get a better picture using the manual tracking controls (see below).

Manual Tracking
To adjust the tracking manually, press the CHANNEL ▲/▼ buttons on the front of the TV/VCR or the TRACKING ▲/▼ buttons on the remote control during playback. Your picture will improve similar to the example below. Automatic Tracking resumes when a tape is inserted or when the STOP/▼ button is pressed.

Sample Picture:
Before Tracking Adjustment

Sample Picture:
After Tracking Adjustment
**Glossary**

**AUDIO In Jack**: jack on the front of the TV/VCR that receives or records audio from other equipment.

**Automatic Channel Setup**: process in which the TV/VCR memorizes all available channels. Then, when you push the CH(annel) △/▽ button, you only scan through channels you receive.

**Bands**: settings that allow you to tune channels.
- **Antenna** – VHF (very high frequency; channels 2-13) and UHF (ultra high frequency; channels 14-69).
- **Cable** – channels 1-125 can be received without a Cable Box.

**Brightness**: adjusting increases or decreases the brightness of the color on the screen.

**Color**: adjusting pale or brightens the TV/VCR color.

**Dubbing**: copying a tape using a VCR or camcorder.

**HQ**: high quality; a feature in the TV/VCR circuitry which provides enhanced picture detail.

**Line Input**: The channel to which you set your TV/VCR during dubbing. The line input channel is always channel 00 (A/V IN).

**Mode**: a TV/VCR operation.

**OTR**: One-Touch Recording; a timed recording that starts immediately and records for 30 minutes to eight hours, whichever you specify.

**Picture**: adjusting increases or decreases the contrast of the picture on the screen.

**Sharpeness**: adjusting softens or clarifies the picture on the screen.

**Tape Speeds**: how fast the tape travels during playback or recording.
- **SP** (standard play) – fastest tape speed (recording time for a T120 tape is approximately two hours); best picture quality.
- **LP** (long play) – average tape speed; playback only.
- **SLP** (super long play) – slowest tape speed (recording time for a T120 tape is approximately six hours).

**Tint**: adjusting changes the tints of the picture on the TV/VCR from purple to green.

**VIDEO In Jack**: jack on the front of the TV/VCR that receives or records video from other equipment.

---

**Specifications**

**General**
- CRT: 9-inch in line gun
- Television system: NTSC-M
- Video Heads: Two heads
- Tape width: 1/2 inch (12.65 mm)
- Tape speed
  - SP: 33.35 mm/sec.
  - LP: 16.67 mm/sec.
  - SLP: 11.12 mm/sec.
- Operating Temperature: 41°F (5°C) to 104°F (40°C)
- Relative Humidity: 10% to 75%
- Power requirement:
  - AC: 120V/DC 13.2V, 60Hz
  - Power consumption: 55W (AC), 60W (DC)
- Sound output: 0.8W
- Dimensions: 14-1/2” (H) x 12-1/4” (W) x 13-1/8” (D)
  - 368mm x 310mm x 332mm
- Weight: 18.5 lbs (8.4 kg)

**Tuner Broadcast Channels**
- VHF 2-13, UHF 14-69

**Cable TV Channels**
- 1-125

**Terminals**
- Antenna In: VHF/UHF 75 ohms unbalanced
- Video In: RCA connector
- Audio In: RCA connector
- Earphone: 3.5 mm CES

**Electrical Specifications**
- Video input level: 0.5~2.0Vp-p
- Audio input level: -10dBv
- Video S/N ratio
  - SP: More than 42dBµ
  - Audio S/N ratio
    - SP: More than 38dB

Designs and specifications are subject to change without notice and without our legal obligation.
48 Helpful Hints

If you are having problems with your product, check this list of problems and possible solutions before requesting service. You may be able to solve the problem yourself.
If you need to call a customer service representative, please know the model number and serial number of your product before you call. This information is on the back of the product. Also, please take a moment to identify the problem you are having, and be prepared to explain this to the representative. If the representative will need to help you with operations, please stay near the product. Our representatives will be happy to assist you.

Location
For safe operation and satisfactory performance of your TV/VCR, remember the following:
• Shield it from direct sunlight and keep it away from sources of intense heat.
• Avoid dusty or humid places.
• Avoid places with insufficient ventilation. Do not block the ventilation openings at the top and bottom of the TV/VCR. Do not place the TV/VCR on a carpet, as this will block the ventilation openings.
• Avoid locations subject to strong vibrations.
• Do not place the TV/VCR near strong magnetic fields.
• Do not move the TV/VCR from a cold place to a hot place, or vice versa.
• Do not use this TV/VCR under high temperature conditions (maximum operating temperature: 104°F).

Electrical Shock and Fire Hazards
• Do not handle the power cord with wet hands.
• Do not pull the power cord when disconnecting the TV/VCR from the power outlet. Grasp the cord by the plug.
• If you spill water on the TV/VCR, unplug the power cord immediately and take the TV/VCR to an authorized service center.
• Do not put your fingers or objects into the TV/VCR cassette compartment.
• Do not place anything on top of the TV/VCR.

Dew Warning (Moisture Condensation)
• Moisture may condense inside the unit when you move it from a cold place to a warm place, after heating a cold room, or when the humidity is high. There is no warning that moisture is in your TV/VCR. Playing a tape in a TV/VCR in which moisture has accumulated could damage the tape and the TV/VCR. If you suspect moisture inside the TV/VCR, keep the TV/VCR power on (but do not play a tape) for at least two hours. This will allow the TV/VCR to dry.

TV/VCR will not perform a timer recording.
• Set the recording start and stop times correctly. Details are on pages 32-35. Midnight is 12 a.m. Noon is 12 p.m.
• Make sure the TV/VCR power is off.
• Set the clock. Details are on pages 12-17.
• Put a tape in the TV/VCR. The tape must have a record tab.
• With ShowGuard, you don't have to worry about losing your timer recordings. If the power fails, timer recordings will be restored when the clock is reset. (The clock will reset itself automatically if you are using AUTO CLOCK. Details are on pages 14-17. If you are not using AUTO CLOCK, reset the clock manually. Details are on pages 12-13.) The timer recording will not occur only if it was scheduled to take place during the power failure.
• Make sure DEFEAT RECORDING is OFF. Details are on page 36.

TV/VCR will not record.
• Make sure the tape has a record tab. Details are on page five.
• Make sure DEFEAT RECORDING is OFF. Details are on page 36.
• Plug the power cord into an active AC outlet. Details are on page six. Or, plug the car battery cord into your vehicle's cigarette lighter. Details are on page seven.
• Check your hookups. Details are on pages six-seven.
• Set up the channels. Details are on page 10.

Channel reception is poor.
• Check connections, then set up the channels again. Details are on page 10.

TV/VCR has no power.
• If you are using standard AC power, make sure the supplied AC power cord is connected securely to the TV/VCR's AC 120V jack and to an active AC power outlet. If you are using the mobile connection, make sure the supplied car battery cord is connected securely to the TV/VCR's DC 13.2V jack and to the vehicle's cigarette lighter. Use only one power connection at a time (either the AC power cord or the car battery cord).
The remote control is not available, or the remote control will not access the menu.
- Use the buttons on the front of the TV/VCR to access the menu. You can not enter numbers (for example, to program a timer recording) using the front panel buttons. Details are on page 20.

TV/VCR power shuts off after 15 minutes.
- To save energy, the TV/VCR will shut itself off after 15 minutes when it is on a channel that is not receiving a broadcast signal (for example, a station that has gone off the air for the night). This is normal.

TV/VCR does not have a picture.
- Adjust the antenna. Details are on pages six - seven.
- Adjust the TV/VCR picture controls. Details are on pages 24-25.
- Select an active channel.

TV/VCR has poor sound or no sound.
- Adjust the volume. Press the MUTE button to restore the previously muted volume.

Tape playback is poor or tape is destroyed.
- Adjust the tracking. Details are on page 46.
- If moisture has accumulated in your TV/VCR, keep the power on for at least two hours, but do not try to play a tape. Details are on page 48.
- Do not use a destroyed tape.

Remote control does not operate TV/VCR.
- Aim the remote control directly at the TV/VCR’s remote sensor. Details are on pages five and 20.
- Remove all obstacles between the remote control and the TV/VCR.
- Inspect and replace the batteries in the remote control. Details are on page five.

Number buttons will not select channels above 69.
- Enter channel numbers as a two-digit number. If you want to select channels 100 and above, enter channel numbers as a three-digit number. Details are on page 22.
- If you are using an antenna, only channels 2-69 will be available. To receive channels 1-125, you must have Cable TV.

You cannot insert a tape into the TV/VCR.
- Insert the tape window side up, with the record tab facing you.
- Make sure a tape isn’t already in the TV/VCR by pressing the STOP/EJECT button on the TV/VCR.
- Gently push on the center of the tape. Never force a tape into the TV/VCR.
- If you have set a timer recording and the TV/VCR power is off, the TV/VCR will eject the tape if the record tab is missing.

You cannot remove the tape from the TV/VCR.
- If you are using standard AC power, make sure the supplied AC power cord is connected securely to the TV/VCR’s AC 120V jack and to an active AC power outlet. If you are using the mobile connection, make sure the supplied car battery cord is connected securely to the TV/VCR’s DC 13.2V jack and to the vehicle’s cigarette lighter. Use only one power connection at a time (either the AC power cord or the car battery cord).
- If a timer recording is programmed, turn on the TV/VCR power, then eject the tape. Be sure to insert a tape and turn off the TV/VCR power for the timer recording.
- Unplug the TV/VCR power cord for five minutes. Then, plug in the power cord again, then press the POWER button on the TV/VCR. If the tape does not eject, press the STOP/EJECT button on the TV/VCR three to five times. If the tape still does not eject, you may need to have an authorized servicer remove the tape.

TV/VCR ejects the tape when you try to start a recording.
- Make sure the tape has a record tab. Details are on page five.

Automatic clock setting won’t work.
- Disconnect the car battery cord from the DC 13.2V jack. Instead, connect the AC power cord to the AC 120V jack on the TV/VCR and to an AC power outlet to supply standard electrical power. Details are on pages six-seven.
- Make sure channels are set and you have connected an antenna or Cable TV signal. Details are on pages six, eight and 10.
50 Limited Warranty

TV/VCR COMBINATION
90 Days Free Labor/One Year Free Parts Exchange (Two Years Free Exchange on Color Picture Tube)
This product must be carried in for repair.

WHO IS COVERED?
You must have proof of purchase to receive warranty service. A sales receipt or other document showing that you purchased the product is considered proof of purchase.

WHAT IS COVERED?
Warranty coverage begins the day you buy your product. For 90 days thereafter, all parts will be repaired or replaced, and labor is free. From 90 days to one year from the day of purchase, all parts will be repaired or replaced, but you pay for all labor charges. From one to two years from the day of purchase, you pay for the replacement or repair of all parts except the picture tube, and for all labor charges. After two years from the day of purchase, you pay for the replacement or repair of all parts, and for all labor charges.

All parts, including repaired and replaced parts, are covered only for the original warranty period. When the warranty on the product expires, the warranty on all replaced and repaired parts also expires.

WHAT IS EXCLUDED?
Your warranty does not cover:
• labor charges for installation or setup of the product, adjustment of customer controls on the product, and installation or repair of antenna systems outside of the product.
• product repair and/or part replacement because of misuse, accident, unauthorized repair or other cause not within the control of Magnavox.
• reception problems caused by signal conditions or cable or antenna systems outside the unit.
• a product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications.
• incidental or consequential damages resulting from the product. (Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.

WHERE IS SERVICE AVAILABLE?
Warranty service is available in all countries where the product is officially distributed by Magnavox. In countries where Magnavox does not distribute the product, the local Magnavox service organization will attempt to provide service (although there may be a delay if the appropriate spare parts and technical manual(s) are not readily available).

MAKE SURE YOU KEEP...
Please keep your sales receipt or other document showing proof of purchase. Attach it to this owner’s manual and keep both nearby. Also keep the original box and packing material in case you need to return your product.

BEFORE REQUESTING SERVICE...
Please check your owner’s manual before requesting service. Adjustments of the controls discussed there may save you a service call.

TO GET WARRANTY SERVICE IN U.S.A., PUERTO RICO OR U.S. VIRGIN ISLANDS...
Take the product to a Magnavox factory service center (see enclosed list) or authorized service center for repair. When the product has been repaired, you must pick up the unit at the center. Centers may keep defective parts.

(In U.S.A., Puerto Rico and U.S. Virgin Islands, all implied warranties, including implied warranties of merchantability and fitness for a particular purpose, are limited in duration to the duration of this express warranty. But, because some states do not allow limitations on how long an implied warranty may last, this limitation may not apply to you.)

TO GET WARRANTY SERVICE IN CANADA...
Please contact Magnavox at:
1-800-705-2000
(In Canada, this warranty is given in lieu of all other warranties. No other warranties are expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose. Magnavox is not liable under any circumstances for any direct, indirect, special, incidental or consequential damages, howsoever incurred, even if notified of the possibility of such damages.)

REMEMBER...
Please record below the model and serial numbers found on the product. Also, please fill out and mail your warranty registration card promptly. It will be easier for us to notify you if necessary.
