• Is the FLIP HOLE reusable?

Yes! With proper washing and care, the FLIP HOLE is reusable. Please note that product longevity may vary in accordance with methods and strength of use, lubricant choice, cleaning and storage methods, and overall maintenance.
For best results, use TENGA HOLE LOTION and always follow care instructions.

• Is the FLIP HOLE electronic?

The FLIP HOLE is not electronic and may be enjoyed manually.

• What is different about each FLIP HOLE?

Each of the FLIP HOLEs contain a completely different internal structure that provide a completely unique sensation, with a different material firmness to suit the experience. Please check each FLIP HOLE product page to see photos of the internal designs and read more about each item.

• How should I wash the FLIP HOLE?

1) Remove the Slide Cap and flip the item open.
2) Wash under running lukewarm water.
3) Place on the Slide Cap to air dry.
4) Once completely dry, close and replace Slide Cap for storage.

<Warning>
■ Wash with cold or tepid water.
■ Use only neutral or mild soap. Soaps high in acid or alkaline content may damage product material.
■ Do NOT wash with alcohol or other cleaners.
■ Please ensure the product is completely clean and dry before storing to help avoid mold and other build-up.

• What should I use for lubrication with the FLIP HOLE?

The FLIP HOLE includes two sample pouches of TENGA HOLE LOTION [REAL].

We recommend using TENGA HOLE LOTION for further uses. Please note that while the material of the interior (TPE) should be compatible with other water-based lubricants,

we cannot be held responsible for any damage that may occur from third-party lubricants. Oils and silicone-based lubricants should not be used, as these can damage the material.

- ## How should I lubricate the FLIP HOLE?

Flip the item open and apply lotion to both halves, ensuring to cover every detail – insufficient lubrication can cause discomfort. Lubricating the insertion point before use will also allow for smoother entry.

- ## What are the size and properties of the FLIP HOLE?

Insertion Depth: Approx. 15cm
Insertion Width: Approx. 4.5cm

Hard-cased (No Stretch)
Reusable
Sample pouches of lotion included

- ## What materials are used to make the FLIP HOLE?
