YOU WILL BE DELIGHTED WITH VIGOROUS WATERS FRESH INSTANTLY FILTERED PREMIUM ALKALINE WATER PITCHER; Removes 90% of all zinc, copper, lead and pollutants to create an amazingly delicious alkaline ionized beverage. Our filter utilizes a natural 7 stage cartridge consisting of ion exchange resin, tourmaline, mineral balls, and carbon. This combination aids in removing chlorine, odors, heavy metals.

MANY BENEFITS OF DRINKING ALKALIZED WATER; Removes free radicals and eliminates toxins with powerful antioxidants. Creates a high negative ORP (Oxidation-Reduction Potential is a measurement to oxidize contaminant) which increases energy levels and aids immune system while making your water more enjoyable to drink.

ECONOMICAL & ENVIRONMENTALLY FRIENDLY; Our pitchers are BPA free food grade ABS material and eliminates the need for plastic bottles. Our unique design slim pitcher easily fits in any refrigerator. Easy-to-fill lid designed to allow you to fill the reservoir without removing the cover. Easy pour spout ensures the perfect pour with no mess and our ergonomic handle ensures comfort during every use.

IMPROVE HYDRATION WITH MICRO-CLUSTERED MOLECULES; Allow your body to absorb water more easily with micro-clustering (reduces water molecule size naturally through contact with natural stones and ceramics contained in the cartridge) Includes 1 cartridge.

100 % SATISFACTION GUARANTEE; Try our healthy, all natural alkaline water pitcher, and rest assure that your purchase is backed by our manufacture 30-day money back guarantee and 1 year free replacement.

UNIQUE DESIGN - PREMIUM (BPA FREE) FOOD GRADE AS & ABS MATERIALS

NOTES-USER GUIDE

1. Hand wash both pitcher and lid. ***** DO NOT PUT IN DISHWASHER *****
2. Remove cartridge from protective wrapper
3. Soak cartridge by completely submerging in water for 10-12 minutes
4. Rinse cartridge under running water for 2-3 minutes (water flowing from cartridge may be black, this is normal. It is natural sediments being washed out of the cartridge)
5. Place filter in holding tank.
6. Please only use biologically safe water in pitcher.
7. Do not use hot water (35c 95f) as this may cause the pitcher to produce an unusual smell and change the quality of the waters taste.
8. Natural, pure Alkaline water will only stay alkaline for a few hours, therefore only filter what you will drink within that timeframe. It will revert to neutral/ acidic state if left for too long.
9. If pitcher is stored inside refrigerator, it will filter more slowly. Also, keep in mind that filters are made of layers of natural, organic materials and filter rates will vary.
10. Replace lid and ENJOY!!

MAINTENANCE-USER GUIDE

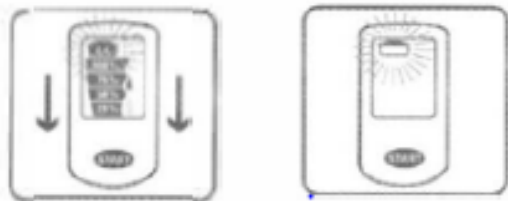

1. Do not store your Alkaline Water Pitcher in direct sunlight and keep away from heat sources such as oven.
2. Be sure to change your filter cartridge every 2 months to ensure alkaline filtered water quality. Cartridges can be found here:
https://www.amazon.com/s/ref=nb_sb_noss?url=me%3DA3F6RUSSLZ0ZOC&field-keywords=alkaline+water+pitcher
3. Wash your pitcher, reservoir, and lid by hand with gentle detergent.

Digital Clock Timer

- 1. The digital timer is crucial in assuring that your filter is working to filter sand, iron, bacteria, sediments, chlorine, and other harmful substances**
- 2. Be sure to set the digital timer located on the top of the pitcher cover before first use and after replacing filters.**
- 3. The timer will count down 60 days and will flash when it's time for replacement filter. Replacement filters can be found here:**

https://www.amazon.com/s/ref=nb_sb_noss?url=me%3DA3F6RUSSLZ0ZOC&field-keywords=alkaline+water+pitcher

Digital Clock Operation

1. Set the reminder gauge by holding down the “start” button firmly until the screen blinks several times. The countdown begins at 60 days and counts down to 0 (time to replace filter).
2. To reset the clock, press and hold the “start” button for 8 seconds. This time the screen will not blink and the system will reset back to 60 days.
3. To turn the timer off, press the “start” button and hold down for 3 seconds, frame will flash 3 times and then turn off. To turn back on, repeat from step 1
4. Please note: Timer is only intended for Vigorous Water Replacement Filters found here:

Commonly Asked Questions:

Question:

What is the ph of the water after it's filtered?

Answer:

8.5-10.2 depending on the source water you are filtering, typically in the 9.5 range

Question:

What is the orp level?

Answer:

On average, around -150mV with tests as high as -300mV. The variable is water source. Thanks for your interest in our product!

Question:

Does the lid stay on when pouring?

Answer:

Lid is guaranteed to stay on tight without spills because that's what a well engineered water pitcher should do
