

## **Debug procedure first to eliminate operation error:**

1) Speaker is powered off. Ensure speaker is charged, or connected with charger.

2) Phone/tablet's Bluetooth is turned on, choose to unpair any devices shown on screen.

3) After all devices are cleared, turn off and on again for Bluetooth, and turn on speaker.

4) On phone/tablet, search for Bluetooth devices, and check for connection, should see BSK30 on display.
