MAX BURTON® DIGITAL STOVE TO GO®

PRODUCT NUMBER: 6905

I. GENERAL DESCRIPTION

Features: Based on the original Stove To Go® or Burton Lunch Box, the Digital Stove To Go® offers greater cooking control with digitally adjustable temperature and heat settings, higher cooking temperatures (up to 350°F), better configured cooking area, and larger cooking capacity (1.5 liter). Includes a non-stick removable cooking pan, removable steam/warm tray, and LCD window and control panel display. Operates on 12V power.

Benefits: Increase cooking flexibility while traveling in any vehicle. Removable cooking pans allow for easier cooking and now there is no need to purchase disposable pans because the non-stick removable pan is easy to clean. New steaming and warming tray lets you steam vegetables or gently warm food. Plug into any 12V power receptacle to cook hot, healthy meals while on the road.

Uses: Use in place of a stove, oven or slow cooker while traveling in any car, truck, boat, RV. Take camping, on long road trips, long-haul trucking, or for emergency preparedness. Heat soup, reheat leftovers, make meals ahead and reheat later. Use with the #6993 200 Watt Converter to plug the Digital Stove To Go into any 120V electrical socket.

Warnings: Read and understand the instructions and before operating. This appliance is designed to get very hot very quickly and will remain hot for a significant period after it has been unplugged. Handle with care. Will not automatically turn off.

Accessories

#6993 200 Watt Converter

Packaging:

Each box:	6.0 lbs. (2.72 kg)	0.76 CF (0.02 CM)	13.5" L x 10.5" W x 9.25" H
