WARNING

- This product is intended primarily for indoor use or on surfaces clear of dirt or water.
- Do not immerse the product in water as this is hazardous and can cause product malfunction.
- Keep fingers and hands away from all moving parts and joints including arms and wheels.
- Keep the camera clean, and wipe with a lint-free cloth.
- Remove battery when not in use for long periods as it will reduce the life span and performance of the battery.
- When a USB charger is not in use, disconnect it from the power source.
- Do not leave the battery connected to a USB charger for longer than one day. Overcharging may shorten battery life.
- If left unused, a fully charged battery will discharge itself over time.
- Charging time may vary in countries where there is major fluctuation.
- Use under adult supervision only. Do not use if there is any visible damage to the cord, housing or other movable parts.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit that is different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

ATTACHING MEBO’S WHEELS

- Once wheels have been attached, they should not be removed.
- Carefully align the grooves on the wheel hubs with the wheels and snap into place.
- Once wheels have been attached, they should not be removed.

IMPORTANT

- Adult supervision is required for charging LiPo battery.
- Allow use, allow battery to cool down to room temperature before charging again.
- Charge battery in an isolated area, away from excessive heat or moisture.
- If you suspect battery is damaged, discontinue use immediately and discard according to local regulations.
- Do not modify, heat or wet the battery in any way.
- Only recharge with the USB charger provided.

CONTENTS: MEBO ROBOT, LIPO BATTERY & USB CHARGER

SMART PHONE OR TABLET REQUIRED (NOT INCLUDED)

SYSTEM REQUIREMENTS: Works with most Apple iOS and Android Devices, WiFi Connection.

CONTENTS: Mebo Robot, LiPo Battery, and USB Charger Cable

CHARGING MEBO’S BATTERY

1. Plug battery into USB charger.
2. Plug charging cord into computer or USB power block.
3. Charge until Battery is completely charged. Once charged, disconnect battery from USB charging cable.
4. Unplug battery from charger and charger from power outlet.
GETTING STARTED

1. INSTALLING MEBO’S BATTERY
   - Open the battery compartment on the back of Mebo.
   - Plug the battery into the enclosed connector. Rest the battery inside and close the compartment door.

2. DOWNLOAD THE MEBO APP
   - Download the MEBO app and install onto your smartphone or tablet.

3. TURN MEBO ON
   - Flip the power switch on the back of Mebo to turn on. Mebo will light up and flash when turned on.

4. CONNECT WITH YOUR SMART DEVICE
   - Enable the Wi-Fi on your phone or tablet and select MEBO - xx-xx-xx (name of connection may differ slightly from this example on your Wi-Fi network list).
   - Mebo will stop flashing when successfully connected to Wi-Fi and the app.
   - Once connected please follow in App instructions.

CONTROL MEBO FROM ANYWHERE
You can control Mebo from even further away in your house by connecting through your home Wi-Fi instead of your device’s Wi-Fi. Go to your app settings.
