

FAQ

What ceiling heights does it accommodate?

It fits 7-10ft ceilings – allowing you to place it virtually anywhere in the house.

Can it be placed anywhere in the house?

Yes, because it is tension mounted – you can place the Security Pole & Curve Grab Bar anywhere in the home – making it easy to stand wherever you go.

Is it easy to assemble?

Yes, very easy! In fact, it's so easy; we've had customers set the whole thing up in their wheelchair. And because it comes with it's own tools – installation is a breeze.

Does it damage the floor or ceiling?

No, because it is tension mounted, no screws or bolts are needed. And because it comes with skid resistant pads – your ceiling and floor are safe from damage.

Knob won't lock into place?

Simply grab the knob and turn it clockwise until it is tight. This will tighten the knob and allow it to lock into place again.
