When the earphone prompt " battery low" , please put the earphones into the charging box to charge. When the charging box run out of battery, please use the standard charger to charge it.

Charge for the earphones:

Red light on when charging, light off when fully charged.
Charging time: appr. 1H

Charge for the charging box:

The display screen shows the current battery level
Charging time: appt.2H

Notes:

- Before charging, it is best to turn off the earphone for safety.
- Make sure the earphone is fully charged before first using.
- Make sure every charging is fully charged, since repeated undercharging of the earphone will cause the degradation of the battery performance.
- If the earphone has not been used for a long time, please recharge it before using.

(5)

Multi-point Connection

Only if using the earphone individually, the earphone can connect to two devices simultaneously. But under TWS mode, the earphones only can connect to one device, because under TWS mode, the host earphone R is already connecting to two devices(the vice earphone L and one device).

Dual Devices Pairing Steps:

- After paired the 1st device, turn off its bluetooth.
- Reboot the earphone, and connect to the 2nd device.
- After the 2nd device Connected successfully, turn on the 1st device' s bluetooth and click # X10 # to connect.
