Our most powerful SD UHS-I memory card yet

Our most powerful UHS-I SD memory card yet delivers write speeds up to 90MB/s* and recording at the UHS Speed Class 3 (U3)¹ rating for high resolution, real-world color and stutter-free video from your DSLR, advanced digital or HD video camera. Transfer speeds up to 95MB/s* move your data fast for efficient post-production workflow. This is the card for professionals who want to capture 4K Ultra High Definition (3840 x 2160p) video² for the latest high-end televisions and monitors, for continuous burst mode shots or the highest quality stills.

New 4K Ultra HD resolution

The new 4K Ultra HD resolution (3840 x 2160p) upgrades the quality of the video we shoot and view. To capture it without interruption requires significantly greater speed and higher storage capacity than previous generations of imaging cards provide. Available in storage capacities from 128GB to 512GB**, SanDisk Extreme PRO SDXC™ cards deliver both, making the video you shoot today ready for the newest 4K Ultra HD televisions and monitors. Another reason photographers worldwide trust SanDisk.

Pro performance for uncompromising results
