This product has been tested and complies with the requirements for Federal Communications Commission, Part 18 for Radio/TV/Communication interference. Although tested, it may affect these devices. If the humidifier is found to interfere, separate the device and/or the humidifier. Conduct only the user maintenance found in this manual. Other maintenance and servicing can cause harmful interference and can void the required FCC compliance.

This product has been manufactured to comply with EEC Directives 73/23/EEC and 89/336/EEC

**READ AND SAVE THESE IMPORTANT INSTRUCTIONS**

**WHEN USING ELECTRICAL APPLIANCES, BASIC SAFETY PRECAUTIONS SHOULD ALWAYS BE FOLLOWED TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, AND INJURY TO PERSONS, INCLUDING THE FOLLOWING:**

1. Check the household voltage to ensure it matches the units rated specification before operating.
2. Children should be supervised to ensure that they do not play with the appliance.
3. DO NOT add water from moisture outlet directly, or it will hurt the unit.
4. Do not allow children to play with any product packaging, such as plastic bags.
5. To avoid fire hazard, NEVER put the cord under rugs, near heat registers, radiator, stoves, or heaters.
6. DO NOT place humidifier near heat sources such as stoves, radiators, and heaters. Do locate your humidifier on an inside wall near an electrical outlet. The humidifier should be at least 10cm away from the wall for best results.
7. Do not attempt to refill humidifier without first unplugging the unit from it's electrical outlet.
8. DO NOT operate any appliance with a damaged cord or plug, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Return appliance to manufacturer for examination, electrical or mechanical adjustment, or repair.
9. Always place humidifier on a firm, flat, level surface at least 60cm away from the floor.
10. DO NOT allow the moisture outlet to directly face the wall.
11. NEVER tilt, move, or attempt to empty unit while it is operating.
12. Shut off and unplug before removing the water tank and moving the unit.
13. DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.
14. Do not plug in the cord with wet hands: electric shock could result.
15. NEVER use detergents, gasoline, glass cleaner, furniture polish, and paint thinner, or other household solvents to clean any part of the humidifier.
16. Do not pour water in any openings other than the water tank.
17. Excessive humidity in a room can cause water condensation on windows and some furniture. If this happens, turn the humidifier OFF.
18. Never place housing under water flow or immerse in liquids.

**TROUBLE SHOOTING**

If your humidifier is not working correctly please check the following causes:

TROUBLE	PROBABLE CAUSE	SULTION
Humidifier does not operate.	Power cable not plugged in	Plug in power cable.
The power light is on, but there is no mist with wind	No water in water tank	Fill tank with water
The water mist produces an unpleasant smell.	New machine.	Open the water tank and leave it for 12 hours at shady and cool place.
	Dirty water or the water is left in the water tank for too long.	Clean the water tank and change the water.
The power light is on, but the humidifier doesn't work	Too much water in the water flume	Pour away some water from the water flume
The output volume of the mist is low	The transducer is dirty.	Clean transducer by a soft brush
	Water is too dirty or water kept too long in the tank	Clean water tank and change the water
Abnormal noise	Resonant in water tank when water is too less	Fill water into water tank
	Unit is on an unstable surface	Move the unit to a stable flat surface
Very tight tank cap	Over tightened	Add liquid soap to cap gasket for ease opening

## CLEANING AND MAINTENANCE INSTRUCTIONS

In the winter, the lack of humidity can dry out your skin and cause irritated nasal, frequent colds, sore throats and etc. Humidifiers provide relative humidity to protect our health. To get the most of the benefit from the humidifier and avoid product failure, follow all maintenance instructions carefully. If the recommended care and maintenance guidelines are not followed, micro-organisms may be able to grow in the water within the humidifier.

### DAILY MAINTENANCE

- Before cleaning, turn the power to OFF and unplug the unit from the electrical outlet.
- Lift off the tank and the housing of the humidifier.
- Carry the water tank to a sink, then drain and rinse the water tank thoroughly to remove any sediment and dirt. Wipe clean and dry with a clean soft cloth or paper towel.
- Refill the water tank with cool tap water as instructed in filling the water tank instructions.

### WEEKLY MAINTENANCE

- Repeat steps 1-3 above.
- Fill one cup of white vinegar to the basin for about 15 minutes, then wipe off the scale in the basin especially in the transducer with a soft brush.
- Remove the scale and white vinegar solution with a clean soft cloth.

### CAUTION OF MAINTENANCE

- Make sure main body is never submerged into water
- Do not use any solvents or aggressive cleaning agents to clean the humidifier.
- Clean the inner parts with a soft cloth.
- Only use the brush to clean the transducer. This should be done once a week.
- Only use the soft brush packed with the unit.
- Change the water in the water tank at least once a week if water is standing for more than one week.

### STORING THE HUMIDIFIER

- Clean the humidifier as described earlier and dry thoroughly.
- Preferably store the humidifier in its original box.
- Avoid high temperatures.

## CONSUMER SAFETY INFORMATION

Note: This is an electrical appliance and requires attention when in use.

Note: If moisture forms on the walls or windows of the room, turn off the humidifier. The room already has plenty of humidity and additional moisture may cause damage.

Do not block air inlet or outlet.

### CORD AND PLUG INSTALLATION SAFETY INSTRUCTIONS

The length of cord used on this appliance was selected to reduce the hazards of becoming tangled in, or tripping over a longer cord. If a longer cord is necessary an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the humidifier. Care must be taken to arrange the extension cord so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over.

### MAIN FEATURES

- Global design and European quality level
- Adjustable mist volume
- Controllable colorful night light for emotion release or baby care
- Separate control for night light and 7 kinds of color can be selected
- Transparent water tank ensures the water level is visible
- Auto shut-off with waterless indicator when water is empty

### PRE-OPERATING INSTRUCTIONS

1. Be sure the humidifier is OFF and disconnected from the electrical outlet.
2. Place the humidifier on a flat surface, about 60cm away from the floor and 10cm away from the wall. Do not place your humidifier on furniture.
3. Filling the water tank instructions

-Remove the water tank by holding the handle and lifting straight upward.

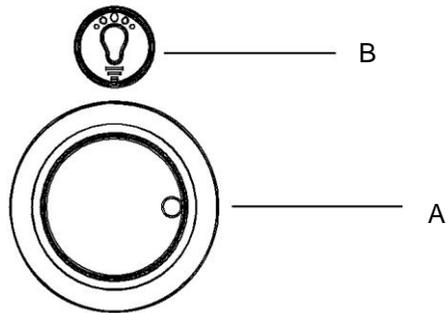

(See figure 1).

-Twist off the tank cap located on the bottom of the tank by turning counter clockwise and fill the water tank with cool, fresh water. **DO NOT FILL WITH WARM WATER AS THIS MAY CAUSE LEAKING.**

-After filling the tank, replace the tank cap by firmly turning clockwise and then replace the water tank on the base. The tank will immediately begin to empty into the base.

4. Plug the power cord into a rated electrical outlet.

## OPERATING INSTRUCTIONS

### A) Power On/Off

Rotate Dial A to turn the air humidifier on or off. The spray volume or amount of mist can be adjusted based on need by turning dial.

### B) LED Night Light Button/Power Indicator/Waterless Indicator

#### LED Night Light Button:

The night light button B can be controlled only power ON.

1<sup>st</sup> press: Night light ON and cycle through the colors changing automatically.

2<sup>nd</sup>~8<sup>th</sup> press: Select the color from the 7 colors as per desire

9<sup>rd</sup> press: Night light OFF.

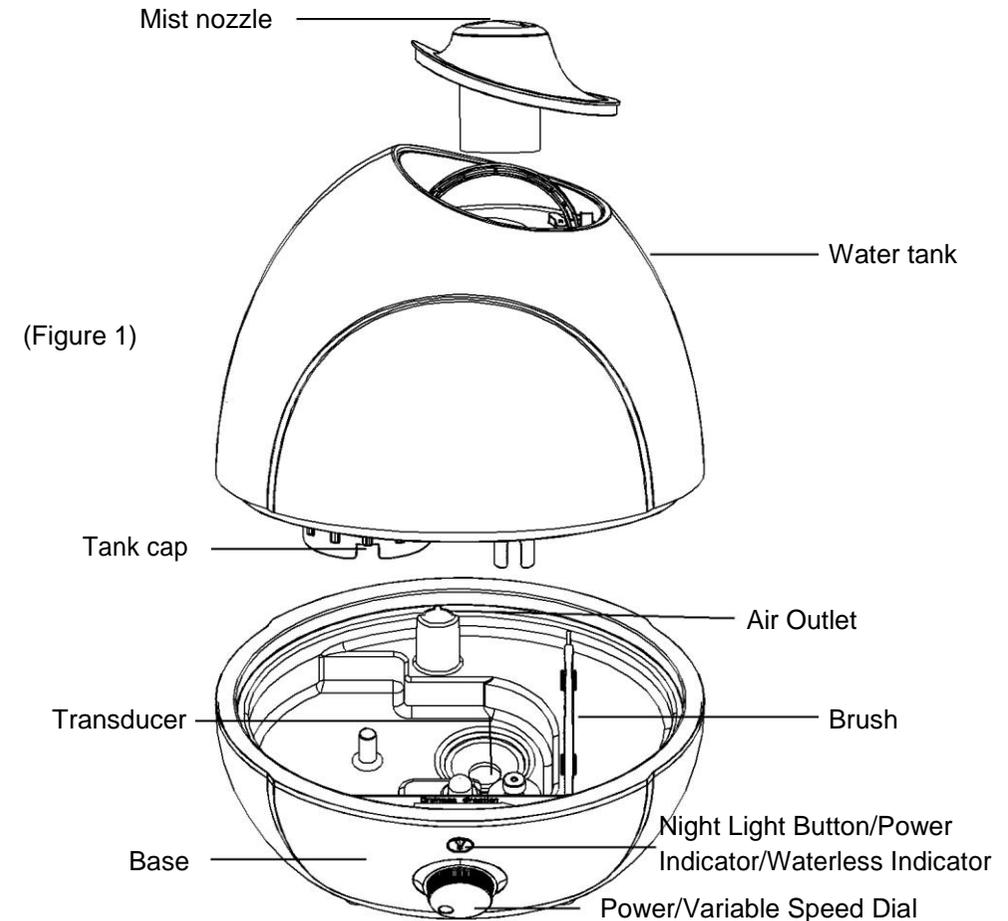

#### Power Indicator/Waterless Indicator:

The indicator light B will be in Blue when the power is on. When the unit is low on water the indicator B turns Red. Simply add more water to continue use. Unit will automatically resume generating mist when water tank has been refilled.

### ATTENTION!

If condensation forms on your windows or walls, please turn the unit off.

## DESCRIPTION OF THE HUMIDIFIER

### TECHNICAL DATA

- Product name: Ultrasonic Cool Mist Humidifier
- Input voltage: 120V, 60Hz
- Moisture capacity: 300ml/h±10% (cool mist)
- Water tank volume: 3.5L
- Rated power: 25W (cool mist)
- Dimension: 239(L) x 185(W) x 313(H) mm
- Weight: 1.26 kgs
- Coverage Area: 25-40 m<sup>2</sup>

# DIRECTIONS FOR USE

## SET UP

Select a firm, level, flat location - at least six inches (15 cm) from any wall or object for proper air flow. Place the humidifier on a water-resistant surface, as water can damage furniture and some flooring. Do not place unit directly on carpet, towels, blankets or other absorbent surfaces.

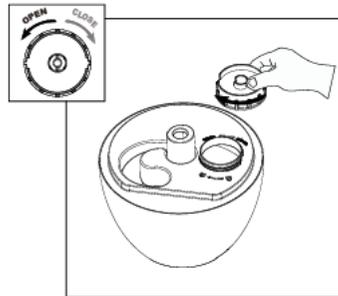

*We will not accept responsibility for damage caused by water spillage.*

## FILLING

Make sure unit is unplugged.

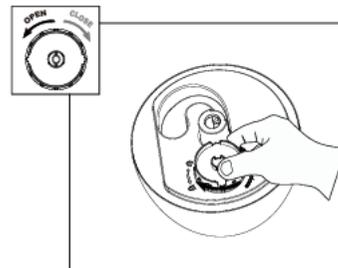

1. Separate the tank from the base of the unit.

2. Flip over water tank and open the tank lid, turning it to the left.

3. Pour cool, clean water directly into the tank. Do not pour anything but water into the tank.

4. Close the tank lid, turning it to the right. It is important to FIRMLY secure cap after filling the tank with water.

5. Attach tank to base of unit.

6. Before turning on make sure there is water in the unit.

# FUNCTIONS AND FEATURES

## Mist Control

The spray volume or amount of mist that is produced by the unit can be adjusted based on need by turning dial.

## Water Shortage

When the unit is low on water, the Refill indicator LED on the body will change from green to red, and the unit will shut off. Simply add more water to continue use.

## Mist Outlet

The mist outlet can be selected through 360 degree by turning the spout.

## Cleaning Brush

The ultrasonic disk cleaning brush is a small brush which comes in the carton with the humidifier.

## Night Light

The night light is uncontrollable.

## Humidifier Tank

When the humidifier water tank is removed from the body of the unit the power automatically shuts off.
