

## About This Product

With this stylish accessory, available in black sapphire or white, you can charge your compatible Galaxy smartphones and other Qi-compatible devices without the need to plug your device in to a wall charger or USB port. Simply place your device directly onto the charging pad and your phone begins to charge.

## **Wide compatibility**

The Samsung Wireless Charging Pad is Qi certified by the Wireless Power Consortium (WPC) and is compatible with all Qi-enabled devices including from Samsung: Galaxy S4, Galaxy S5, Galaxy Note4, Galaxy Note Edge and Galaxy Note3 (these Galaxy smartphones require Wireless Charging Battery Covers, sold separately) as well as the Galaxy S6, Galaxy S6 active, Galaxy S6 edge, Galaxy S6 edge+ and Galaxy Note5 which do not require additional charging battery covers.

## **Wireless charging pad**

Power your compatible Samsung device without cables or cords using this Samsung wireless charging pad, which replenishes battery power in as little as 4 hours. Overload protection provides defense against damage. The small footprint takes up minimal desktop space and is easy to transport.

## **No Cables. No Problem.**

Say goodbye to tangled wires and lost charging cables. The Samsung Wireless Charging Pad utilizes Qi Inductive Charging Technology that eliminates the need to attach a charging cable every time you want to charge your device. The dedicated Charging Pad is always at the ready, providing wireless power whenever you set your device on the pad. You can still use your device while charging, and your device is always accessible so you can answer a call without having to unplug.

## **Simple and easy to use**

The Samsung Wireless Charging Pad is easy to set up and use. First, connect the Charging Pad to your device's charging cable, then place your phone on the pad. For optimal performance, your device should be placed in the proper location on the pad. A built-in LED indicator light will alert you if the device is not properly aligned and when a good charge alignment is acquired. If using a Galaxy S6, Galaxy S6 active, Galaxy S6 edge, Galaxy S6 edge+ or Galaxy Note5, it will

also alert you when your device is fully charged. A spare Samsung 2A charger is included with the pad. If a non-Samsung or Samsung charger below 2A is used, you may damage the charging pad.

## Package contents
