

Corona Limited Lifetime Warranty

Corona tools are hard working, just like our customers. We expect a Corona tool to be the last one that you will need to purchase. That is why our tools are well built and meant to last, season after season.

What's Covered: Corona stands behind our promises and guarantees our tools to be free of defects in materials and workmanship for the life of nearly all of our tools. Should you encounter a defect in your Corona tool, simply return the tool to where you bought it for an exchange or refund. To request a warranty repair on your Corona tool, please fill out the form on this page that will be sent to Corona Customer Service or call (800) 234-2547 to speak with them directly for a quick resolution.

The life of a tool is usually determined by how often and the conditions where it is being used. If there are any defects in materials or workmanship, it usually happens early in the life of the tool. The same tool may have a different life expectancy based on frequency of use. Someone making thousands of cuts, digs or scoops per day will wear out a tool long before an occasional, infrequent user. (See Corona Genuine Replacement Parts.) Corona will either repair the tool or part, or replace it with the same or one of higher quality.

What's Not Covered: Corona is dependable and trustworthy, and we expect the same from our customers. We do not cover normal wear, lost or stripped parts, product modification, or product damage due to misuse as claims for a defective tool. Abuse is using a tool in a manner that it was not designed. Improper cleaning and storage can also damage and/ or shorten the life of your tools. For **tips on how to clean and store your Corona tools**, check out our [video](#) to help maintain the performance and longevity.

If you believe your tool meets our warranty criteria, please return the tool to:

Corona Clipper, Inc

Attn: Warranty

22440 Temescal Canyon Rd

Corona, CA 92883

If you have a tree pruner, please complete and submit the form along with two photos, one showing the complete tool and one of the affected area. Please be sure to include your shipping address.

Manufacturers' warranties may not apply in all cases, depending on factors such as use of the product, where the product was purchased, or who you purchased the product from. Please review the warranty carefully, and contact the manufacturer if you have any questions.
