

## iSpy Connection for Cloud Camera

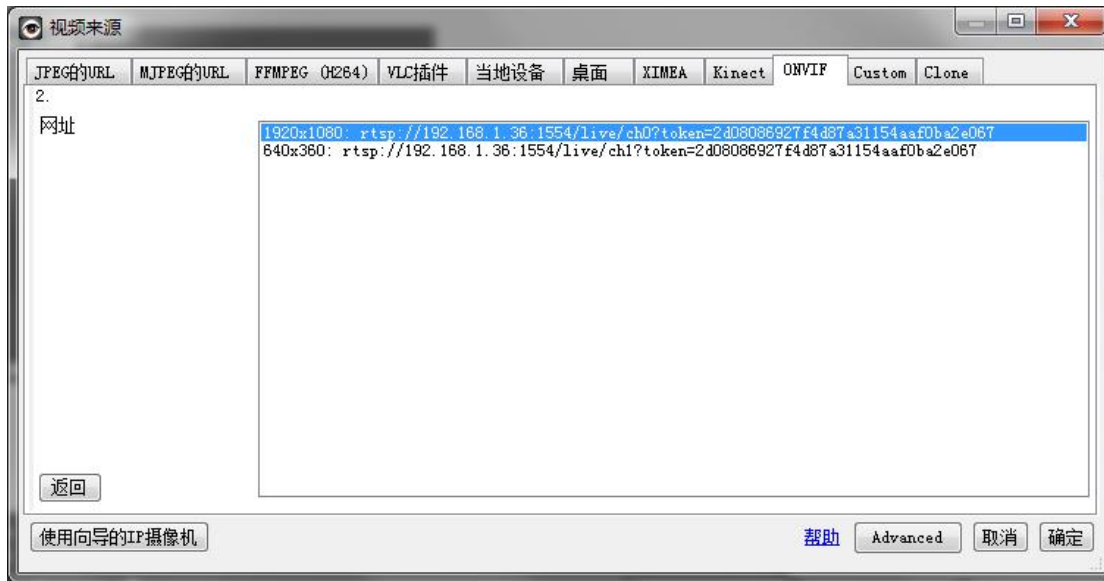

1. Pls enable **Onvif** feature and Disable **Verification** on Wansview Cloud APP

2. Choose “**Onvif Camera**” on iSpy and input the IP address directly 【`http://ipaddress:port/onvif/device_service`】. No need to input username and password, pls click **Next** page.

3. Choose the stream and hit **confirm**.

4. Then you can start to view the camera on iSpy
