

Connect your Logitech Bluetooth device

The following steps show you how to prepare your Logitech device for Bluetooth pairing and then how to pair it to computers or devices running:

- [Windows](#)
- [Mac OS X](#)
- [Chrome OS](#)
- [Android](#)
- [iOS](#)

Prepare your Logitech device for Bluetooth pairing

Most Logitech products are equipped with a **Connect** button and will have a Bluetooth Status LED. Usually the pairing sequence is started by holding down the **Connect** button until the LED starts blinking rapidly. This indicates that the device is ready for pairing.

Windows

Select the version of Windows you're running and then follow the steps to pair your device.

- [Windows 7](#)
- [Windows 8](#)
- [Windows 10](#)

Windows 7

1. Open the **Control Panel**.
2. Select **Hardware and Sound**.
3. Select **Devices and Printers**.
4. Select **Bluetooth Devices**.
5. Select **Add a device**.
6. In the list of Bluetooth devices, select the Logitech device you want to connect to and click **Next**.
7. Follow the onscreen instructions to finish pairing.

Windows 8

1. Go to **Apps**, then find and select **Control Panel**.
2. Select **Devices and Printers**.
3. Select **Add a device**.
4. In the list of Bluetooth devices, select the Logitech device you want to connect to and select **Next**.
5. Follow the onscreen instructions to finish pairing.

Windows 10

1. Select the Windows icon, then select **Settings**.
2. Select **Devices**, then **Bluetooth** in the left pane.
3. In the list of Bluetooth devices, select the Logitech device you want to connect to and select **Pair**.

4. Follow the onscreen instructions to finish pairing.

NOTE: It may take up to five minutes for Windows to download and enable all drivers, depending on your computer's specifications and your internet speed. If you have not been able to connect your device, repeat the pairing steps and wait a while before you test the connection.

Mac OS X

1. Open **System Preferences** and click **Bluetooth**.
2. Select the Logitech device you want to connect to from the Devices list and click **Pair**.
3. Follow the onscreen instructions to finish pairing.

Upon pairing, the LED light on your Logitech device stops blinking and glows steady for 5 seconds. The light then turns off to save energy.

Chrome OS

1. Click the status area in the lower right corner of your desktop.
2. Click **Bluetooth enabled** or **Bluetooth disabled** in the pop-up menu.
NOTE: If you had to click on **Bluetooth disabled**, that means the Bluetooth connection on your Chrome device needs to first be enabled.
3. Select **Manage devices...** and click **Add Bluetooth device**.
4. Select the name of the Logitech device you want to connect to from the list of available devices and click **Connect**.
5. Follow the onscreen instructions to finish pairing.

Upon pairing, the LED light on your Logitech device stops blinking and glows steady for 5 seconds. The light then turns off to save energy.

Android

1. Go to **Settings and Networks** and select **Bluetooth**.
2. Select name of the Logitech device you want to connect from the list of available devices and click **Pair**.
3. Follow the onscreen instructions to finish pairing.

Upon pairing, the LED light on the Logitech device stops blinking and glows steady for 5 seconds. The light then turns off to save energy.

iOS

1. Open **Settings** and click **Bluetooth**.
2. Tap on the Logitech device you want to connect to from the **Other Devices** list.
3. The Logitech device will be listed under **My Devices** when paired successfully.

Upon pairing, the LED light on the Logitech device stops blinking and glows steady for 5 seconds. The light then turns off to save energy.
