Thank you for purchasing our MagicLight Bluetooth bulb. Please read the instruction manual before using it. The documentation provided will allow you to fully enjoy all the features this bulb has to offer.

Instructions

1. Install the MagicLight bluetooth bulb in a socket and turn the light on.
2. Search for the app "MagicLight BT" from iOS App store or Google Play Store and install the free app. Or you can download it by scanning the QR code below:

3: Turn on the Bluetooth, and Run the app and enjoy the bulb, very easy to use. No need pair

(Note, Only for speaker bulb, you need pair the bulb via Bluetooth, other bulbs no need pair)

MagicLight Bluetooth LED Candle Light video on YouTube: <https://www.youtube.com/watch?v=B5dxlnW9310>

IMPORTANT NOTE:

there is one new permission request regarding Location Services. It is only for Android 6.0 + and it is new requirement from Google for all Bluetooth apps. If you do not use Android 6.0 + then there is no need to turn it on. The other permission requests remain the same as they are specific to functionality:

- Bluetooth - allows access to the MagicLight
- Camera - use your mobile devices camera option to capture specific colors
- Microphone - allows the light bulb to move with the tone of your voice, music, etc...
- Photos/Media/Files - allows you to save the colors from a specific scene in your Photos/Media/Files
- Location Services - a new requirement from Google on ALL apps for Android 6.0+

Customer Support:

If you have any questions or problems about the product or need help getting setup, email support@magiclightbulb.com or lledlumen@gmail.com

And we will reply you asap in 24 hours.
