

Specs

Weight:

9.3 g

Size:

54 x 54 x 2.4 mm

Sound:

88 decibel melody

Water resistant:

Up to IP57 standards

Battery life:

One year from shipment

Charging:

None

Keyring hole:

No

Technology:

Bluetooth LE

Battery:

Engineered to be as small as possible, every Tile contains a custom power source that lasts one full year. At the end of that year, you can renew your Tile with our [reTile](#) program.

Compatibility:

iOS: iPhone (Released 2011 or later), iPad (Released 2012 or later), iPad Mini, iPod Touch, Apple Watch

Android: Samsung Galaxy (S5 or later), Samsung Note (4 or later), Nexus (4 or later), OnePlus (one or later), HTC one (M8 or later), Motorola Moto X, and most Android devices equipped with Android 4.4 (Kitkat) or later and Bluetooth 4.0 or later.

What is Tile's Bluetooth range?

lim has a maximum range of 100 ft or 30 m. Mate's range is 50% greater, at 150 ft or 45 m. Pro features our greatest range, coming in at twice the range of Mate and measuring 300 ft or 90 m. However, as with all wireless technologies, different environments impact the effective range of Bluetooth signals. If your Tile is out of Bluetooth range, you can check its last known location on the app. This information is automatically updated whenever anyone in the Tile community comes within Bluetooth range of your Tile.
