Nothing like a lightbox to make my msgs POP!

I am a blogger and I have been looking all over for a lightbox like this one. Nothing too big and nothing too small. Just enough space to promote my reviews and make my pictures POP in someway.

I love this box because it's exactly what I have been looking for. Super lightweight, I can leave it to stand it next to a product or just place it on the wall if I want to. The material is like a sturdy acrylic, seems durable. I can either plug it using the USB cable which came included or 6 batteries 2A. It came with enough letters to help me get started. I am definitely adding some more to the collection later on.

Really satisfied with my purchase.
