IMPORTANT: Please read this manual carefully before running this heater and save it for reference.
### Features

1. Adjustable Thermostat
2. Two Settings:
   - High  1500 W (5120 BTUs)
   - Low   750 W
3. Top Mounted Control Panel
4. Power Indicator Light
5. Safety Overheat Protection
6. Safety Tip-Over Protection
7. Silent Operation
8. Efficient Convection Heating
This product is intended for indoor residential, office and personal shop use only, not for industrial or other commercial applications. Use only with electrical wiring that is in good working order and that meets applicable codes and ordinances. If you have any questions about whether your wiring is adequate, consult a qualified electrician.

Use your heater only with a working smoke detector located in the vicinity of the heater.

While using your heater, you should follow the IMPORTANT INSTRUCTIONS listed below. As part of those instructions, we have used the word “WARNING” to indicate the level of hazard: WARNING indicates a hazard which, if not avoided, could result in injury or death.
HEATER OPERATION

Always operate the heater in the upright position following all instructions and recommendations listed in this manual. HEATER LOCATION: Place the heater in the area of the room that is coldest. HEATER CONNECTION: Plug heater directly into 120 V AC, 60 Hz wall outlet. Be sure plug fits tightly in outlet. A loose connection may cause overheating and damage to the plug or heater. NOTE: To prevent overloading a circuit, do not plug the heater into a circuit that is servicing other electrical needs.

- **WARNING: SHOCK HAZARD** Use your heater only in dry environments. This heater is not intended for use near sinks, washing machines, swimming pools or other sources of water. Do not use in damp environments such as flooded basements.

- **WARNING: FIRE HAZARD** Do not use near combustible materials or flammable gases or sources of heat. Do not place the heater near a bed because objects such as pillows or blankets can fall off the bed and be ignited by the heater.

TURNING HEATER ON

To start the heater, turn the Power Control dial from the OFF position to the LOW or HIGH setting. Then rotate the Thermostat Control clockwise to the HIGH THERMOSTAT position as described below. (During the heater’s initial use, you may experience a slight odour or smoking. This is the result of the heating element lubrication “burning off”. This is normal and will go away after a few minutes of use.)
Operation

POWER INDICATOR LIGHT
This heater is equipped with a Power Indicator Light. The light will illuminate when the unit is plugged in.

SETTING THERMOSTAT
After heater has been turned on and the room has reached the desired temperature, slowly rotate the thermostat knob counter-clockwise until the heater shuts off (you should hear a faint “click”). By leaving the thermostat at this setting it will automatically maintain this temperature. To lower temperature, rotate the knob further counter-clockwise (towards the LOW position). To raise the temperature, rotate the thermostat knob clockwise (towards the HIGH position).

POWER CONTROL DIAL
This heater has two heat settings: High and Low. Use the higher setting (1500 W) to raise the room temperature quickly. When the desired temperature is reached use the Low setting. It is usually sufficient to maintain a comfortable temperature.

POWER INDICATOR LIGHT
This heater is equipped with a Power Indicator Light. The light will illuminate when the unit is plugged in.

TURNING OFF
Turn the Power Control Dial to the OFF position before unplugging or plugging in the heater. Heater should be unplugged when not in use.

WARNING: HOT SURFACES Do not touch body of heater when in use.
CLEANING
CAUTION - Before cleaning the heater be sure to disconnect power cord and allow the heater to cool completely. Clean the outside surface with a clean damp cloth. Do not use harsh chemical or abrasive cleaners. DO NOT IMMERSE THE HEATER IN WATER. Allow heater to dry completely before use.

REPAIR
DO NOT OPERATE THE HEATER WITHOUT THE GRILL IN PLACE. DO NOT USE THE HEATER IF IT HAS MALFUNCTIONED OR BECOME DAMAGED IN ANY WAY.

STORAGE
Keep original carton for storage of the heater. Coil and tie the power cord to avoid damage during storage.

The power indicator light, located near the control panel, lights whenever the heater is plugged in. The heater is equipped with an automatic overheat protection device located inside the body of the heater. If the heater grill is obstructed, or if the heater gets too hot for any reason, the automatic overheat protection device will turn the heater off. To reset the heater, simply turn power off and unplug the heater for 10 minutes until it cools down, then plug in and restart the heater. Be sure that the heater is on a smooth level surface with no obstructions. The heater is also equipped with a safety tip-over switch. This switch will shut the heater off if the heater is tipped over. It will reset when the heater is placed upright.
When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this heater.
2. This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. If provided, use handles when moving this heater. Keep combustible material, such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9m) from the front of the heater and keep them away from the sides and rear.
3. Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating and unattended.
4. Always unplug heater when not in use.
5. Do not operate any heater with a damaged cord or plug or after the heater malfunctions. has been dropped or damaged in any manner. Discard heater, or return to authorized service facility for examination and/or repair.
6. Do not use outdoors.
7. This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. Never locate heater where it may fall into a bathtub or other water container.
8. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
9. To disconnect heater, turn controls to off, then remove plug from outlet.
10. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
11. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
12. A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable liquids are used or stored.
13. Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
14. Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
15. SAVE THESE INSTRUCTIONS.
Important Safeguards

WARNING: ELECTRICAL SHOCK HAZARD Do not use with damaged cord or plug. Use with adequate electrical system that is up to code.

The supply cord has a polarized plug. As a safety feature this plug will fit in a polarized outlet only one way. To prevent electric shock, match wide blade of plug to wide slot, fully insert plug. If the plug does not fit contact a qualified electrician. Never use an extension cord. DO NOT attempt to defeat this safety feature.

Do not operate heater with a broken heating element or ceramic cone or any visual imperfections. For repairs covered under warranty, see warranty statement. For all other repairs contact Garrison’s Customer Service by telephone or mail for information and assistance.

Do not use an extension cord because the extension cord may overheat and cause a risk of fire.

Do not operate heater with its ventilation obstructed.
This Garrison® product carries a one (1) year warranty against defects in workmanship and materials. Trileaf Distribution agrees to replace a defective product within the stated warranty period, when returned to the place of purchase with proof of purchase. This product is not guaranteed against wear or breakage due to misuse and/or abuse.
