1. What's Included?
2. Tech Specs
3. How To Charge Your jHub
4. How To Charge Your Device With Your jHub
5. Important Notes and More Information

1. What's Included?

- The jHub Power Bank Charger by Modern Portable
- A Micro USB charging cable to charge your jHub Power Bank

2. Tech Specs

Input – DC 5V / 0.8A

Charging Port Output – DC 5V / 1A

Size – 120mm x 36mm x 11mm

Weight – 2.9 ounces

3. How To Charge Your jHub Ultra

A steady red light indicates that your jHub Ultra is charging properly. Charging time normally takes approximately 3 to 4 hours.

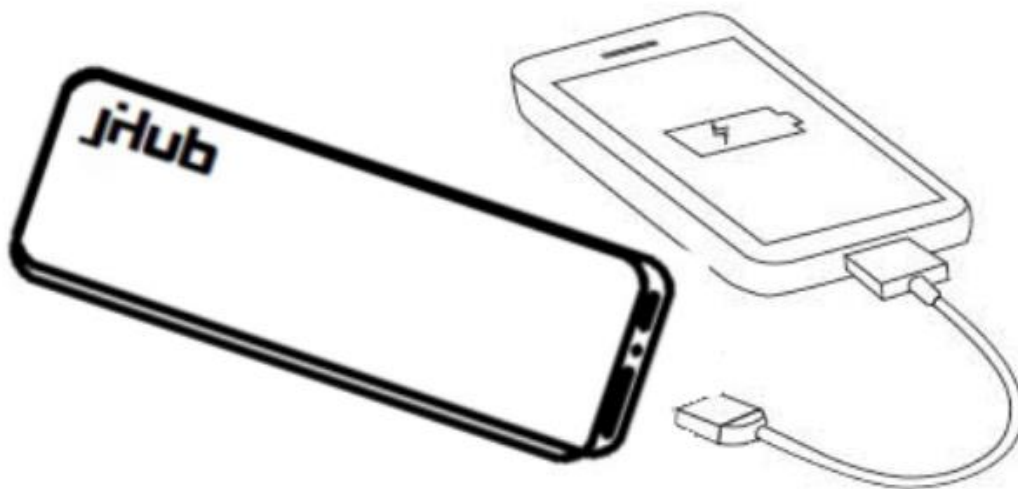

- Plug the Micro USB cable into the jHub Ultra Micro USB input port
- Insert the other end of the USB cable into either an AC wall adaptor plugged into a wall electrical socket (Not included but the same adapter you would normally use to charge your smart phone) or a USB port on your laptop or computer. (Please view images below)

4. How To Charge Your Device With Your jHub Ultra

The jHub Ultra is engineered to charge all USB devices (current input must be higher than 50 mA). Once your device is plugged into the jHub Ultra it will instantly begin charging your device properly. Once the jHub Ultra has stopped charging your device it is time to recharge the jHub Ultra (Please follow instructions for charging the jHub in Section 3).

1. Plug your USB Cable into the jHub Ultra USB charging port
2. Connect the other end of your cable into you device

5. Important Notes and More Information

- When charging your jHub Ultra do not charge other devices from the jHub Ultra.
- Keep your jHub Ultra out of extreme heat/cold, damp places, water and flammable items
- Avoid hitting, throwing or dropping your jHub Ultra
- When charging your jHub Ultra, approximately 20% of the external battery's capacity will be consumed (including power lost from circuit heat, voltage conversion and the charging cable).
