

## TILE SLIM

Sleek, discreet, and savvy- Slim's new matte black design compliments its ability to keep a low profile while guarding your items. Coming in at only the thickness of two credit cards, our featherweight tracker has a Bluetooth range of 200 ft (60m), and its waterproof status can help Slim withstand jabs from the elements. Pound for pound- or really, gram for gram, Slim can hold its own as a skillful finder.

### Is Slim 2020 waterproof?

Yes! The improved Slim 2020 is waterproof which makes it a great asset to even your most traveled items

### What is Slim 2020's Bluetooth range?

Slim 2020's Bluetooth range reaches 200ft (60m), twice as far as its original version!

### Does Slim 2020 have a replaceable battery?

No, Slim does not have a replaceable battery. We wanted to make sure Slim's sleek design would not be compromised by the dimensions of a changeable battery. But fear not! Tile Slim 2020 is equipped with a battery that **lasts for 3 years**. That means 3 years of worry-free, reliable tracking. For even more peace of mind, check out the perks of Tile Premium which includes a 3-year extended warranty!

### When I reTile, can I upgrade to Slim 2020?

Absolutely! Just contact our Customer Care team [here](#) and we'll be happy to take care of you.

### Is there an adhesive for this model?

Not yet, but we are working hard to get these to you asap! Adhesives made especially for this model will be available for purchase on our website at the end of November 2019.

## Will Slim 2020 work inside an RFID blocking wallet?

No, unfortunately these wallets interfere with Tile's technology and will not provide reliable tracking if used together.

## What is the warranty for Slim 2020?

Slim comes with our standard worry free 1-year warranty. If you have Tile Premium, you qualify for a 3-year warranty! Find out more about our warranty [here](#).
