Charging

1. Insert the cord end into the electrical outlet on the rear of the charger. Do not plug the cord end into the razor.
2. Press the power button to turn the razor on. The LED light will begin to blink.
3. Place the razor on the charger. As long as there is a charge in the battery, the LED light will blink. It will blink green when the battery is fully charged.
4. To charge, plug the charger into an electrical outlet. The LED light will indicate the charge level.

Changing the Attachments

1. Open the shaver head to reveal the three attachment positions.
2. Attach the comb onto the shaver head by hooking the comb over the comb blades, then pressing the comb down onto the shaver head.
3. Press on/off button to turn the shaver on.
4. Add a drop of facial cleanser to the brush head and dampen under the faucet or shower.
5. Divide your face into 4 main sections; forehead, nose & chin, left cheek, right cheek.
6. Press on/off button to turn on.
7. Stretch the skin on the section you plan to groom with your free hand so the hairs stand upright.
8. Hold the shaver at a right angle to the skin so that all three heads are touching the skin with equal pressure.
9. While applying light pressure, use short, circular strokes to shave the face.
