Introduction

iSee360 adopts air pressure and hot compress massaging technology. It rubs, presses, hot compresses, and massages the ocular region in order to relax it. You can enjoy the soothing music while massaging to completely relax your brain.

Inside the Package

The package includes: Main Unit, Controller, AC Adapter, Batteries, User Manual, and Earphones.
Function Deployment

[A] On/Time/Off
[B] LED Screen
   (From top to bottom: Time / Air pressure, Heat, Vibration / Music)
[C] Operating Buttons
   Clockwise: Heat / Vibration / Music / Air pressure
   Center Button: Mode selection
[D] Earphone Jack
[E] DC Power Port
Preparation

Prior to use, check the integrity of the machine and accessories:

a. No damage on connection between controller and main unit.
b. Battery power is sufficient.
c. No damage on AC adapter.

Power Options

1. Batteries
   a. Open the battery cover on the back of the controller.
   b. Install 4 AA batteries in accordance with the positive and negative poles.
   c. Close the battery cover.

2. AC Adapter
   a. Insert the plug of AC adapter in the controller’s DC port.
   b. Connect the other end to AC power socket.
   c. Insert the earphones’ cylindrical plug into the controller’s earphone jack.

* Choose power option #1 OR #2.

Wear

This massager is to be used for the eyes only. For ease and safety, adjust buckles until a comfortable fit is achieved.
Operation

Power on – Press On/Time/Off Button
Preset default is Air pressure + Hot compress / Vibration + Hot compress / Air pressure + Vibration (3 modes circulate), with relaxing music & 5 minutes duration.
Manually operate related function buttons to switch among music, time, vibration, hot compress and air pressure modes.
Power off – Press and hold On/Time/Off Button.

- Press to select mode. (Mode 1/Mode 2/Mode3/Mode 4/Loop)
Precautions

1. Please read the manual carefully and operate accordingly.

2. Children under 7 years old cannot use the massager.

3. This massager should not be used by people who suffer from brain disease, eye disease, or another physical or mental disorder.

4. Take off contact lenses / eye glasses before use.

5. Put on / wear the unit first BEFORE turning the power on.

6. Do not use while walking or driving.

7. Keep your eyes closed for a few seconds after use, then open them slowly.

8. Keep the massager away from humidity, heat, and/or corrosive gas.

9. If the massager will not be used for a long time, remove the batteries to avoid battery leakage.

10. This massager is designed as a personal care product. It is not for diagnosis/treatment of any health disorder, nor meant for commercial use.

11. To clean, wipe with aseptic cotton and alcohol. Do not wash or immerse in water.

12. This product is not a substitute for healthcare professionals’ advice and treatment. In case of doubt or if necessary, please consult your healthcare professional.
13. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

14. Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

15. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Troubleshooting & Technical Parameters

When operational problems occur, please refer to the chart below. Do not disassemble the machine or try to repair it by yourself.
