The Charging Dock’s Battery Level Indicator

One light on - Under 25% level of battery - You need to charge the charging dock firstly.

Two light on - 25~50% level of battery

Three lights on - 50~75% level of battery

All four lights mean it’s full of battery.
The Android phone's volume display is out of sync with the Earbud.

When we adjust the volume from the earbuds, the current volume will not be displayed on the phone.
If your phone is Android system, even if the phone’s volume display has been adjusted to the maximum, the sound of the earbud is still low.
When this happened, just double click right earbud’s button to increase the volume.
