- Voice prompt support: Power On / Pairing / Connected / Battery Low / Power Off, etc.

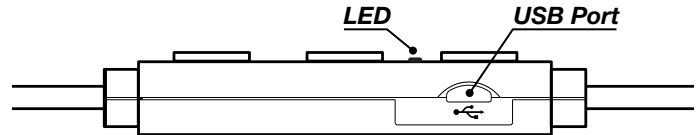

Note: The Q3E earphones are water/sweat resistant. It is recommended to wipe the ear tips gently with a damp cloth.

Charging

These earphones contain non-detachable, rechargeable batteries. Que Acoustics LLC is not liable for any damage or hazard caused due to unauthorized tampering or attempted opening of the earphones. Any tampering will void the warranty.

Connect the micro USB connector on the charging cable to the port on the Q3E. Connect the USB connector on the cable to a phone wall adapter/charger/car charger/computer/power bank or any device with a USB port. The LED will light up red to indicate charging and will turn blue when the battery is fully charged. Please charge the earphones fully before using for the first time.

Power On / Power Off

POWER ON: Press the  (multi-function-button) for about 2 - 5 seconds until the LED flashes blue with a voice prompt 'power on'.

POWER OFF: Press  for 4 secs or so until the LED flashes red with a voice prompt 'power off'.

LOW BATTERY ALARM: The LED flashes red several times with a voice prompt 'Battery Low'.

Pairing

Pairing and connecting with a *Bluetooth* device:

1. Turn *Bluetooth* 'off' on your device.
2. On Q3E, press and hold the  until the LED flashes rapidly, alternating between red and blue. This indicates that the Q3E is in pairing mode.
3. On your device, turn *Bluetooth* 'on', and scan for names until Q3E appears. Click on Q3E to initiate connection with the earphones. Upon successful pairing the voice prompt will say 'connected' and the blue LED will continue to flash once every 5 - 10 seconds.

You only need to go through the above sequence once when you pair the Q3E with your *Bluetooth* device for the first time. Next time, as long as your device has *Bluetooth* turned 'on', simply power on the Q3E and pairing will take place automatically. When successful, the voice prompt will say 'connected' and periodically you will see a single flash of the blue LED.

On power up, if the blue LED on the Q3E flashes twice every 5 - 10 seconds, it indicates that the Q3E is not paired with any device.

Pairing with 2 devices:

Repeat steps 1 to 3 for pairing the Q3E with 1st device.

4. Turn *Bluetooth* 'off' on your 1st device.
5. Repeat steps 1 to 3 to pair Q3E with the 2nd device
6. On the 1st device turn *Bluetooth* 'on' and click on Q3E to connect to the earphones. The Q3E will maintain the connection with the 2nd device.
7. The Q3E will now be connected to both devices simultaneously.
8. You can toggle between the 1st device and the 2nd device with a short click of the .

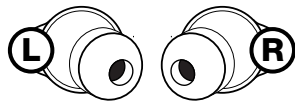

Note: If the Q3E has been paired with a device before, simply power it on by pressing the  until the blue LED flashes, and the earphones will pair with the device automatically. (*Bluetooth* on the device must be turned 'on').

If your device has *Bluetooth* version 2.1 or older, you may need to enter the password "0000".

If the pairing is not successful within about 90 seconds, switch off both the Q3E and your device, and repeat steps 1 through 3.

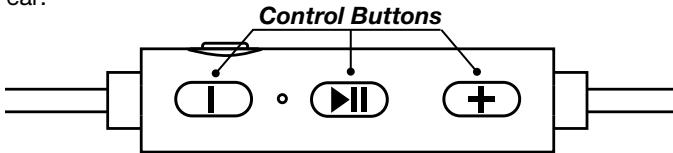

Listening to Music

Identify the Right and Left Channel as they are not interchangeable.

To ensure that the earphones feel comfortable for you, please choose the ear tips that feel the best for your ears.

Ergonomic design of the earphones ensures secure fit in your ear.

Volume Control

Short click the (+) button to increase the volume.

Short click the (I) button to decrease the volume.

Play/Pause

Click (II) to pause. Click (II) again to resume playing.

Track Control

Press and hold the (+) button to advance to the next track.

Press and hold the (I) button to go back to the previous track.

Phone Functions

Answering Calls (while connected to 1 mobile phone)

To answer an incoming call, click (short press) (II).

To end the call, click (II) again.

Rejecting Calls

To decline an incoming call, press and hold the (II) until there is a double beep sound. Let go of (II) immediately.

Note: Keeping the (II) pressed for longer may cause the Q3E to power off.

Answering Calls (while connected to 2 mobile phones)

While you are on a call on one phone, if you wish to answer a call on the second phone click (II) once. This will also end the call on the first phone.

To answer a call on the second phone and keep the first call on hold, click (II) twice.

Now you can go back and forth between the two calls with single clicks of the (II).

Last Number Redial

Click (II) twice. A voice prompt will say 'Last Number Redial' and the call will be placed.

When two phones are connected, this feature is only available on the first phone that was paired.

Note: The operation on some phones may be different.

Battery Indicator

On iOS devices an icon (headphone and battery) will display the battery level of the Q3E.

Accessories

1 Micro USB Charging Cable

6 Ear Tips (2 small, 2 medium, 2 large)
